WELCOME TO SCIP

OVERVIEW OF THE SECURITY COOPERATION INFORMATION PORTAL (SCIP)

The Defense Security Cooperation Agency (DSCA) has established a website known as the Security Cooperation Information Portal (SCIP). This portal enables International Customers, customer agents, and United States Government personnel, with appropriate permissions, to access a variety of features, which are gathered into "Communities". Some Communities provide the ability to: (1) view Foreign Military Sales (FMS) case, line, requisition, and Supply Discrepancy Report (SDR)-level information obtained daily from all U.S. Military Department (MILDEP) Case Execution systems and the tri-service Case Development system (DSAMS); and (2) input a variety of FMS MILSTRIP and MILSTRIP-like transactions, which are partially validated in the SCIP, and then passed directly to the appropriate MILDEP Case Execution system for processing. For more information about SCIP and SCIP Communities, please review the [SCIP Background Document](#).

First time SCIP users can obtain instructions on how to logon by reviewing the SCIP [Logon Guide](#).

ACCESS INSTRUCTIONS

Select the appropriate authentication method

- [DoD CAC / DoS Smart Card / Commercial Software Certificates \(PKI\)](#)
- [Token](#)

For additional information regarding the SCIP or gaining access to the SCIP, please send an email to SCIPHELP@dsadc.dsca.mil.

July 2012

Preface

This handbook is a familiarization tool and training guide for Security Cooperation Information Portal (SCIP) users to better understand the capabilities of the SCIP system.

A basic understanding of the Security Cooperation Foreign Military Sales (FMS) process, logistics and finance subjects is needed to understand, interpret the materials, and complete the exercises in this handbook.

The exercises in this handbook include selected aspects of SCIP, and are designed to be used even without actual access online to the SCIP system. Information includes both United States Government DoD and Military Department (MILDEP) specific references. If there is a difference between the information in this guide and the applicable DoD or MILDEP publication, the DoD or MILDEP reference takes precedence.

DISAM encourages feedback to improve this product. Send your questions, comments and/or recommendations to DISAM (Mr. John O'Connor, john.oconnor@disam.dsca.mil).

**Based on SCIP system changes In Effect
as of 01 July 2012**

SCIP Practical Exercises and Handbook

Revised: July 2012

The exercises in this handbook will familiarize you with the use of the SCIP system. It will acquaint you with the broad range of international logistics and financial information that is now available via that U.S. Government web-based Internet system. Please understand that the SCIP system is quite dynamic and is continuously being improved. Consequently, there may be differences between the current SCIP system site content and this handbook. Please take your time and follow the step by step instructions that are provided, until you become more familiar with the SCIP system. This handbook is intended for both initial system instruction, and also to provide users with future reference when utilizing the SCIP system. All the exercise questions in this handbook are based on information provided in the DISAM class lessons.

Accessing the Security Cooperation Information Portal (SCIP) Web Site

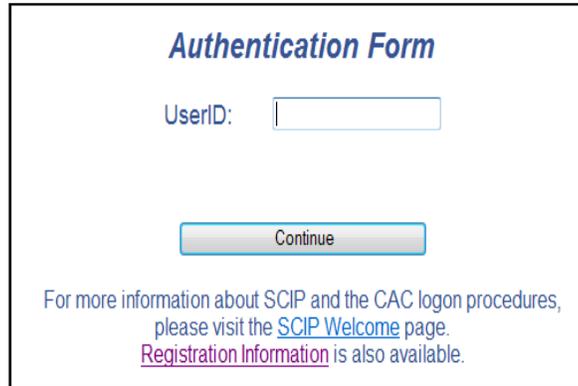

For the purpose of completing this handbook's exercises, the DISAM student may be given a **temporary SCIP TOKEN** account. If so, that SCIP access will only be used while the student is in the DISAM class. To obtain a **permanent** individual SCIP account, you must submit the required SCIP registration form, which is available at <https://www.scportal.us>. This information is sent to the Defense Security Assistance Development Center (DSADC) in Mechanicsburg, Pennsylvania, which manages the SCIP system. If you already have an active SCIP account, you may use it. The SCIP system is designed for use by all authorized users (e.g. USG personnel and contractors, Locally Employed Staff (LES), Foreign Purchasers, Freight Forwarders, etc.) that have job responsibilities that require access (i.e. need to know) to the SCIP system information. Foreign Purchasers and their Freight Forwarder personnel may obtain a SCIP account (and token) only after first coordinating with and obtaining a token from their country's **Host Nation Token Administrator (HNTA)**.

The **SCIP** web site provides access to a wide range of information that supports the management of Foreign Military Sales (FMS) and Security Cooperation (AKA Building Partner Capacity) cases. Additional SCIP information can be found at the link labeled "**SCIP – Security Cooperation Information Portal**" in the left hand column of the DISAM home page (<http://www.disam.dsca.mil/>). That DISAM SCIP link includes an overview presentation, frequently asked questions (FAQs), this exercise handbook, and a link to access the SCIP system.

To directly access the SCIP system, type <https://www.scportal.us/home/> in the address line of your Internet browser, and then click the "SCIP Logon" link on top of that page. Logging in to the SCIP system with a token (vice a USG CAC) will be via the subsequent SCIP login screen as shown in Figures 1 & 2. Note: If you are prompted for a CAC certificate, either select your non-email certificate (if you have a CAC enabled SCIP account), or click cancel to get to the token logon screen (Figure 1). If you have been given a DISAM SCIP training token enter the assigned User ID (see Figure 1), click on **Continue** and the Passcode screen (see Figure 2) will appear asking for input of your Passcode. Enter the PIN (8 positions) followed by the token code readout (6 positions).

INITIAL SCIP TOKEN LOGON SCREEN

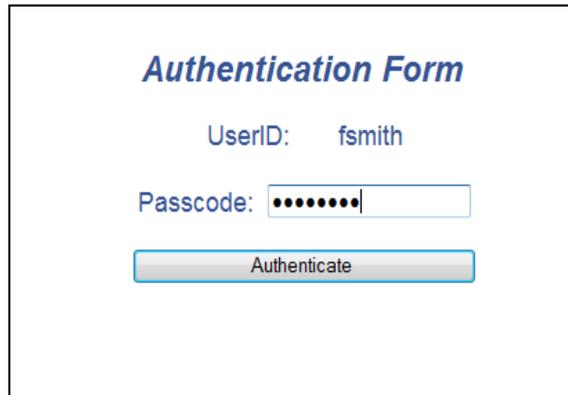

Enter your assigned User ID and click the Continue button (per Figure 1). DISAM will assign temporary User IDs and PINs for SCIP training tokens.

The screenshot shows a web form titled "Authentication Form". It contains a "UserID:" label followed by an empty text input field. Below the input field is a "Continue" button. At the bottom of the form, there is a paragraph of text: "For more information about SCIP and the CAC logon procedures, please visit the [SCIP Welcome](#) page. [Registration Information](#) is also available."

Figure 1: Initial SCIP Token LOGON Screen

SCIP TOKEN PASSCODE SCREEN

The screenshot shows a web form titled "Authentication Form". It contains a "UserID:" label followed by the text "fsmith". Below this is a "Passcode:" label followed by a text input field containing seven dots. At the bottom of the form is an "Authenticate" button.

Figure 2: SCIP TOKEN PASSCODE SCREEN

After entering your Passcode, click on **Authenticate** (Figure 2). If your User ID and Passcode were input correctly and accepted, you will see the SCIP Welcome screen (Figure 3) next. If not, please notify the DISAM instructor before you try the second time. You are allowed three attempts before your SCIP account is locked-out.

Figure 3: SCIP Welcome Screen

Once you are successfully logged on to SCIP, read the **Announcements that are listed on each community**. Next you need to look towards the top of the **Main Menu** for all the “Community” tabs. The number of tabs visible will depend on the permissions you have been granted. First, select the **Case Information Community**. Note the **Refresh Status** (see Figure 4 and the following description for additional details).

SCIP REFRESH STATUS

SCIP is refreshed daily ~ 7:00 EST from data received overnight from several DoD and the Army, Navy, and Air Force computer systems. If the Refresh status indicators are green (see Figure 4), the service and DoD data was successfully updated. If the IA indicator is yellow, the service and DoD data was not yet updated.

AF and DSAMS provide data every day, if they don't, AF or DSAMS service will go yellow. Army and Navy do not provide data on Sundays or Mondays, so they are yellow on Sunday and Monday.

Army doesn't provide data following a Monday holiday so it is yellow on Tuesday.

Welcome to Case Information

Announcements

SCIP Now Has Real Time Metrics:
We are pleased to announce that a new page, Real Time Metrics, has been added to the SCIP Case Information community and is now available for your use. This new feature Historic Case and Document Implementations, Offer and Acceptance processes, as well as Anticipated Offer Date (AOD) performance. Users may filter the information to extract entitled to see data for one country can only see graphs or charts for that country. SCIP automatically creates graphs and charts in a user-selected format (e.g. bars, pies, etc) also have the ability to drill down from the data charts to the detailed records in SCIP. Once created by SCIP, the graphs and charts can also be immediately exported to .pdf file to an MS Excel formatted file. If a user has the current ability to query case level information, she or he automatically has access to the Real Time Metrics page.

January Release Information:
The Case Information community was updated today, January 31st, 2012. Among other enhancements, updates include adding the Actual Supply/Services Complete Date to v. (click here).

HNTA - SAOTA Replacement:
Frequently, Host Nation Token Administrators (HNTAs) and SAO Token Administrators (SAOTAs) are re-assigned and leave their role as HNTA or SAOTA. In order to prevent del: date point of contact, who has been designated as an HNTA/SAOTA. Accordingly, if you are an HNTA or SAOTA, and are rotating out to another duty station or retiring, please appropriate designation letters in place, in advance of your departure

Figure 4: Case Information Community

Selecting (i.e. 'clicking') **Case Status** from the resulting Case Information navigation bar menu, will result in the **Case Status Select** window (Figure 5) being displayed. The last data and settings viewed by the SCIP user will be displayed. The potential country and program data that can be accessed is dependent upon your SCIP account permissions. Using the Case Status filter capabilities, enables the user to find case(s) of interest to determine what is happening (process, logistics, finance, etc.) with those case(s).

BN (Bandaria) | View Data | Clear Filters

Case ID	Customer Service	Document Type	Document Status	Description	Total Case Value
BN B	BID	B	I	C (Final Closed)	Vehicles \$240,000.00
BN B	BID	B	B	I (Implemented)	Vehicles \$240,000.00
BN B	BIH	B	I	C (Final Closed)	Vehicles \$250,000.00
BN B	BIH	B	B	I (Implemented)	Vehicles \$250,000.00

BN B	BIN	B	I	C (Final Closed)	Vehicles \$1,500.00
BN B	BIN	B	B	I (Implemented)	Vehicles \$1,500.00
BN B	BIQ	D	I	C (Final Closed)	Vehicles \$15,000.00
BN B	BIQ	D	B	I (Implemented)	Vehicles \$15,000.00
BN B	BIT	B	I	C (Final Closed)	Vehicles \$3,000.00
BN B	BIT	B	B	I (Implemented)	Vehicles \$3,000.00
BN B	BIU	B	I	C (Final Closed)	Vehicles \$250,000.00
BN B	BIU	B	B	I (Implemented)	Vehicles \$250,000.00
BN B	BIW	B	I	C (Final Closed)	Vehicles \$250,000.00
BN B	BIW	B	B	I (Implemented)	Vehicles \$250,000.00

There are 2814 cases/documents totaling \$2,055,755,735.00 based on the above filter criteria. | Document Detail Report | View Report

Note: Case Summary values may be inflated due to the inclusion of both the value from the implemented document(s) and the in progress document(s).

Figure 5: Case Status Select Filters

Using the Case Status Filters

When the user selects their choice(s) using the filter dropdown menu selections (near the top of the Case Status page), filtering is instantaneously done. The first 3 filter choices are the individual components of the Case Identifier. As discussed during the FMS Process lesson, the Case Identifier (Case ID) consists of three components: Country/Organization/SC Program Code, Implementing Agency Code and Case Designator Code.

- As each filter is enabled, the list box is automatically updated to reflect the recently changed filter. For example, changing the customer service report to “B” (Army) will filter the case list box to display only cases that have a customer service type equal to “B”.
- No dollar (\$0.00) values are displayed for Development (D), Writing (W), Review (R) or Proposed (P) and Canceled (X) statuses. These case/program documents are still in process and the data is subject to change until placed in Offered (O) status.
- The filter selections can be removed all at once using the **Clear Filters** button.
- The complete list of available Case Status filters includes:
 1. **Country/Program:** This choice is only available if you have permissions to view multiple countries or programs. If so, the default country/program code will be the last one selected (e.g. BN). If you want to change country/program codes (e.g. AK, ZS, etc.), then you need to also click the VIEW DATA button after selecting (via the drop down arrow) your desired country/program code from the menu choices above.
 - A list of country/Organization codes can be found in the SAMM, Table C4.T2. SC Program (i.e. non FMS (pseudo / BPC) codes are referenced in the applicable program policy memorandum issued by DSCA that are posted on the SAMM website.
 - If a country does not have any documents in DSAMS, the country code will not be available in SCIP.
 2. **Implementing Agency (i.e. provider):** The list of the Implementing Agency (IA) codes is in the SAMM, C5.T2, and also in the HELP files of this exercise handbook.
 3. **Case Designator:** See Figure 6 to determine the first case designator letter that you want to search for.
 - The case designator consists of three positions. A list of the first position of the case designators is in the SAMM, Figure C5.F6, and in the DISAM ‘Green Book’ on page 6-5. It is duplicated in Figure 6 for student reference. The second and third positions are case sequence indicators normally assigned starting with AA with the subsequent cases being designated as AB, AC, etc.
 - The case designator filter allows filtering by entering one letter at a time. The case list box is automatically updated upon each keystroke. For example, entering the letter ‘M’ as the first character in the case designator text box will return all cases that have a case designator beginning with ‘M’ (along with matches to all the other user selected filter selections).

First Position of Case Designator

U.S. Army (IA Code = B)	U.S. Navy (IA Code = P)	U.S. Air Force (IA Code = D)
B Repair parts	A Ammunition and other explosives	A Munitions (ammunitions, bombs, and rockets)
G SELPO/communications security	B-C Individual spares and components	C CAD/PAD
H Construction (Corps of Engineers)	G Technical and engineering services	D Communication equipment (i.e., C4) and facilities
I EDA	H-J Direct requisitioning procedures	E Support equipment
J SDAF (special defense acquisition fund)	K FMSO (KA or KS-FMSO I and KB-KR or KT-KW-FMSO II)	G Technical services
K CLSSA	L Major end items (components and equipment)	K CLSSA
L Leases	M Repair and return	L Defined order equipment
M Medical (U.S. Army Medical Materiel Agency)	P Cartridge actuated devices (CAD) Propellant actuated devices (PAD) Air crew escape propulsion systems (AEPS)	M Repair and return
N Coproduction	R Open end requisitioning procedures	N Special support
O Training	S Weapon system sale (ship or aircraft)	O INFOSEC/COMSEC
P P&A	T Training	P Publications
Q Materiel/services (from U.S. activities) located in Europe)	Z Leases	Q Specialized follow-on sustainment support
S Materiel/services (from U.S. Army Security Assistance Agency-Latin America)		R Blanket Orders Spares
T Publications		S Major aircraft system sale
U-Z Materiel/services provided from various life-cycle management commands (including but not limited to system package sales, munitions, spare parts equipment, technical services maintenance, etc.)		T Training
		U PSEUDO or SCP
		V Major/minor modifications
		X Reserved for DFAS-IN
		Y Major missile system sale
		Z Leases under AECA (not an FMS case)

Figure 6: First Position of Case Designators

NOTE: The Case Designator codes listed above are NOT DoD policy, and IAs may develop and use different codes, especially for DLA, NSA, MDA, NGA and non-FMS (pseudo) cases.

- Customer Service (i.e. receiver):** Such as Bandaria Army (B), Bandaria Navy (P), Other (T), etc.
- Document Type:** There are four (4) possible Document Types. Each of those document types are listed and described below in Figure 7.

Document Types		
Document	Code	Description
Basic	B	Original Letter of Offer and Acceptance (LOA)
Amendment	A#	Amended LOA. Numbered starting with A1
Modification	M#	Modified LOA. Numbered starting with M1
Current Implemented Version	I	Case Version includes the basic and all amendments, modifications which are not in pending status (D, P, W, R, A, O)

Figure 7: Document Types

- Document Status:** There are eleven (11) possible Case Statuses (see Figure 8 on next page) recorded in the Defense Security Assistance Management System (DSAMS) which reflect the “life cycle” of an FMS case and nine (9) are reflected in SCIP for all users. Document Statuses for Write) and Review are only displayed to USG account holders.

Case Status Definitions and Notes

D-Development. LOR received and LOA being developed. The SAMM C5.2.1 requires that the Implementing Agency (IA) formally acknowledge receipt of the LOR within 5 days and initialize the document in the Defense Security Assistance Management System (DSAMS) within 10 days. No dollar values (\$0.00) are displayed since the data is still incomplete.

W-Write (USG Only). IA provides the LOA data via DSAMS (Defense Security Assistance Management System) to DSCA/CWD (Case Writing Division). Indicates the IA is done with their initial part of the preparation of the case version. No dollar values (\$0.00) are displayed since the data is still subject to change.

R-Review (USG Only). Indicates that the DSCA/CWD is done with their part of the preparation of the case version. No dollar values (\$0.00) are displayed since the data is still subject to change.

P-Proposed. DSCA/CWD does a LOA quality review, constructs the final LOA and does a final coordination with the State Department.. Normally a document should not be in this status for more than 5 days. No dollar values (\$0.00) are displayed since the data is still subject to change.

O-Offered. LOA countersigned by DSCA and the IA has sent the LOA to the customer for acceptance. Customer must sign the case before or on the Offer Expiration Date (OED). Estimated dollar values are displayed.

A-Accepted. LOA acceptance occurs when the customer provides DFAS with a signed LOA and the initial deposit. The IA will also receive a copy of the signed LOA. If the initial deposit is not received by the OED the IA will coordinate with the customer and DSCA to determine if the case is cancelled

I-Implemented. DFAS issues via DSAMS Obligational Authority to the case manager. The case is Implemented and available for requisition and procurement purposes. Normally the IA implements the document within 10 days of acceptance. Dollar values are displayed and will reflect LOA values.

SSC-Implemented. IA declares the case Supply Services Complete. No new requests for material or services are allowed. Under Accelerated Case Closure Procedures (ACCP) the FMS case should be interim- closed within two years of being declared supply complete. Dollar values displayed may not be accurate.

IC-Interim Closed. IA estimated final expenditures for Unliquidated Obligations (ULO) have been collected by DFAS into the customers Case Closure Suspense Account (CCSA). A final bill (DD645) is issued to customer. Dollar values displayed may not be accurate.

C-Closed-Final. Case subject to the normal case closure procedures. IA and DFAS declare all final expenditures disbursed. Final bill is issued to the customer. Dollar values displayed may not be accurate.

X-Canceled. Case can be canceled either before or after implementation. If the customer cancels a case after acceptance the customer will be subject to administrative fees and any costs incurred by the IA. Reference SAMM C6.9

Figure 8: Document Status Definitions and Notes

SCIP Case Status Filter Results

Once you've used the SCIP Case Status filters to find the case(s) of interest, you can get a complete formatted report of the user selected filter result by selecting clicking the MS Excel icon at the top (right) of the selected report. Also note that there is a summary of the number of cases and the associated dollar value at the bottom of the filter results. See Figure 9 for reference.

Case ID	Customer Service	Document Type	Document Status	Description	Total Case Value	
BN B	BID	B	I	C (Final Closed)	Vehicles	\$240,000.00
BN B	BID	B	B	I (Implemented)	Vehicles	\$240,000.00
BN B	BIH	B	I	C (Final Closed)	Vehicles	\$250,000.00
BN B	BIH	B	B	I (Implemented)	Vehicles	\$250,000.00
BN B	BIJ	B	I	C (Final Closed)	Vehicles	\$1,500.00
BN B	BIJ	B	B	I (Implemented)	Vehicles	\$1,500.00
BN B	BIL	D	I	C (Final Closed)	Vehicles	\$15,000.00
BN B	BIL	D	B	I (Implemented)	Vehicles	\$15,000.00
BN B	BIM	B	I	C (Final Closed)	Vehicles	\$490.00
BN B	BIM	B	B	I (Implemented)	Vehicles	\$490.00
BN B	BIN	B	I	C (Final Closed)	Vehicles	\$1,500.00
BN B	BIN	B	B	I (Implemented)	Vehicles	\$1,500.00
BN B	BIQ	D	I	C (Final Closed)	Vehicles	\$15,000.00
BN B	BIQ	D	B	I (Implemented)	Vehicles	\$15,000.00
BN B	BIT	B	I	C (Final Closed)	Vehicles	\$3,000.00
BN B	BIT	B	B	I (Implemented)	Vehicles	\$3,000.00
BN B	BIU	B	I	C (Final Closed)	Vehicles	\$250,000.00
BN B	BIU	B	B	I (Implemented)	Vehicles	\$250,000.00
BN B	BIW	B	I	C (Final Closed)	Vehicles	\$250,000.00
BN B	BIW	B	B	I (Implemented)	Vehicles	\$250,000.00

There are 2814 cases/documents totaling \$2,055,755,735.00 based on the above filter criteria.
 Note: Case Summary values may be inflated due to the inclusion of both the value from the implemented document(s) and the other case version documents (i.e. Basic LOA, Amendments, Modifications, and Implemented versions).

Contains Controlled Unclassified Information (CUI)

Figure 9: SCIP Case Status Filter Results and Details Reports Options

Note: The case summary (i.e. number of cases and case \$) values (listed below the filter window), may be inflated do the inclusion of both the value from the various implemented documents(s) and the other case version documents (i.e. Basic LOA, Amendments, Modifications, and Implemented versions).

Viewing Details about Case of Interest

The SCIP user can also view numerous other additional details about any of the Case Status filter listed case(s). The user can 'open up' any of this listed case(s) of interest by one of 2 means. First option is to highlight the case of interest and then 'double-click' it with the user mouse. Second option is to select one of the Case Status/Report Selections listed via the drop down menu at the bottom right (see Figure 9 for reference) of the Case Status filter results window. The only resulting difference between the 2 means is that the 2nd one will result in the chosen report being displayed on the subsequent window's right side of the screen. The left side of the screen will always display the "Case" report. The Case Detail report includes high-level overview information on the case including the following subheadings: Case Information, Implemented Document Information, Funding, Requisition Information, and Case Closure.

Case Information > Case Status/Report Selection:

There are five (5) possible report choices on the drop down menu: Select the case of interest from the Case Status Select filter window, and then use the **Drop down Arrow** (see Figure 9 above for

reference) at the bottom of the screen to select the appropriate report. A summary of each of those 5 choices are included below.

Document Detail report provides details on a specific case document version and includes the following subheadings: LOR Information, Anticipated Offer Information, Financial Data, Terms of Sale, Payment Schedule Information, Quarterly Payment Information, and Implemented Document Information for all the associated document case versions including Basic, Amendment, Modification and Implemented (Current).

Case Line Report provides information on specific lines from the chosen case on the specified case document version. The user selects the case document version and line of interest and the report is displayed with the following subheadings: Case Line Information, Case Line Values, Delivery Sets, and Requisition Information for all the associated document types including Basic, Amendment, Modification and Current Implemented.

Active Requisitions Detail report provides details on the requisition of interest with the following subheadings: Requisition Information, and Requisition Key Dates. Use the drop down arrow to select an individual requisition report from the list box.

The data, with the exceptions noted in 4.f. below, includes information on all open requisitions and those requisitions shipped/cancelled within the past 90 days with the Requisition Number, Requisition Number Suffix, NSN/Part/Reference Number, Supplementary Address, Transportation Control Number (TCN), Estimated Ship Date, Unit Price Demand Code and other data.

If a suffixed portion of a requisition (A, B, etc) is older than 90 days, that suffixed portion remains until the rest of requisition is fulfilled or canceled, and remains there until that last portion reaches the 90 day mark.

SDR Detail report provides specifics on Supply Discrepancy Reports (SDRs) submitted. The following subheadings are included: SDR Information, SDR Key Dates, and SDR Attachments (if any). Use the drop down arrow to select an individual SDR report from the list box. The data includes all the open or completed SDR reports within the last year (at a minimum). The number of SDR reports is displayed just above the SDR Information data.

Document Timeline report displays a list of 20 selected milestones and dates which apply to the case: Customer Request, Customer Request Receipt, Document Initialization Date, Customer Request Completion, Military Department Signature, State Department Approval, DSCA Countersignature, Offered, Offer Expiration, Anticipated Offer, Document Sent from IA, Update Offer/Restatement, Offer Accepted by Customer, Financial Implementation, Implemented, Estimated Closure, Actual Closure Date, and Canceled.

The data includes all the associated document types including Basic, Amendment, Modification and Current Implemented.

Navigating between Case Reports

- No matter which method (i.e. 'double-clicking' or selecting one of the 5 drop down report choices from the menu), a new SCIP window will open in your browser that will display two (2) reports side by side in that new window. The default (if the user 'double clicks' the case of interest) **Case Report** display is Case Detail and Document Detail. See Figure 10 for reference.
- See the Help Files in Attachment 1 for a complete list of definitions for all the report fields.

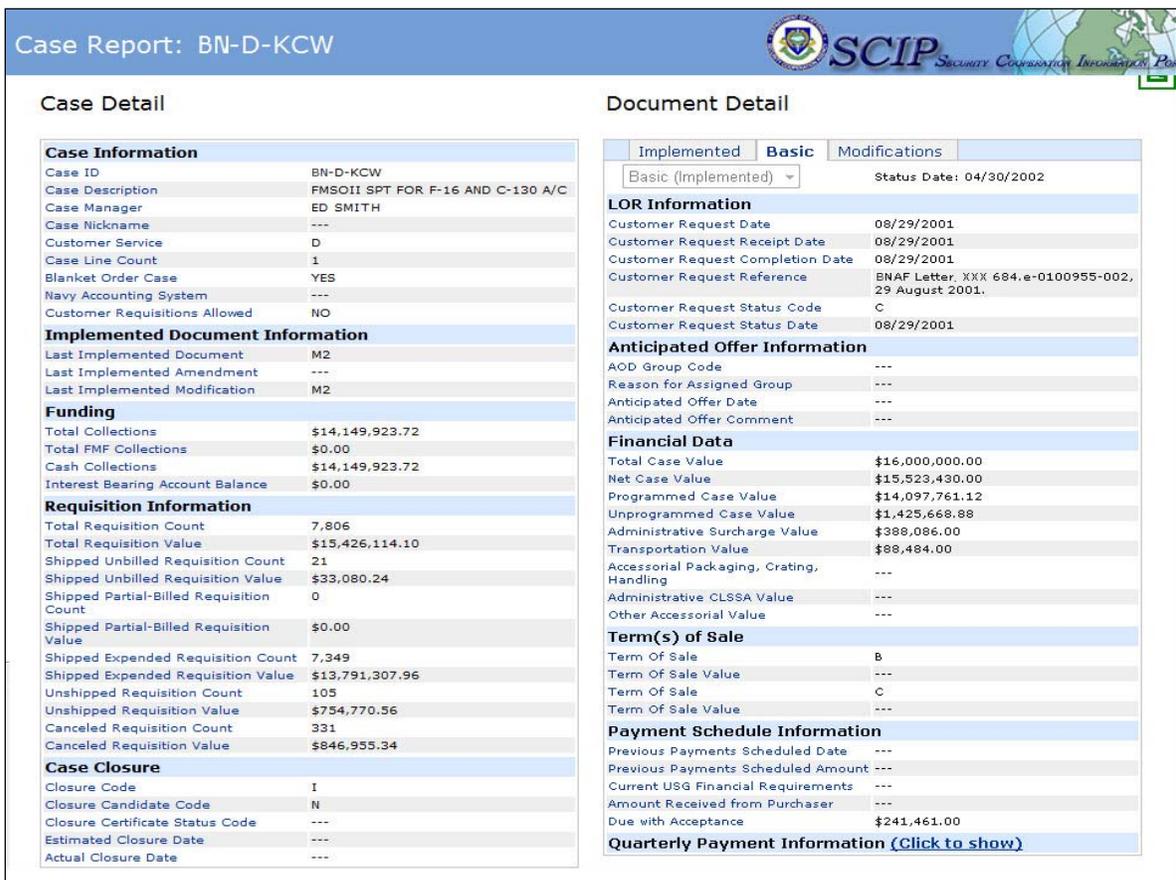

Figure 10: Example of Case Detail and Document Detail

- Once you have accessed the case report screen using one of the methods, you can access any of the case report documents by clicking the options (See Figure 11 below for reference) at the top of the displayed reports to access all the reports for a single document.
- Note (as indicated by the red arrows in Figure 11), that there are identical Case Report menus on both the left and right side of the screen. The user uses the respective menus to select what case report type will be displayed on that side of the user's computer screen.

Figure 11: Case Reports Menu Options

The Case Report menu choices are listed in a hierarchy of case type information. One way to understand the differences between those report types is to consider it a “Pyramid of Choices” (see Figure 12 below for reference). At the top level, the “Case” report provides very high/strategic level information (e.g. purpose, IA, Case Manager, Finances, etc.) about the case. ‘Drilling-down’ further on the case ‘pyramid’, the user may want to look a specific “Document” (i.e. Basic, Amendment, or Modification LOA) that comprise that case, or ‘drill-down’ even further in the pyramid to look at specific line on one or more of those case documents, a specific requisition for that case, or the timeline milestones for any one of the documents that comprise the case.

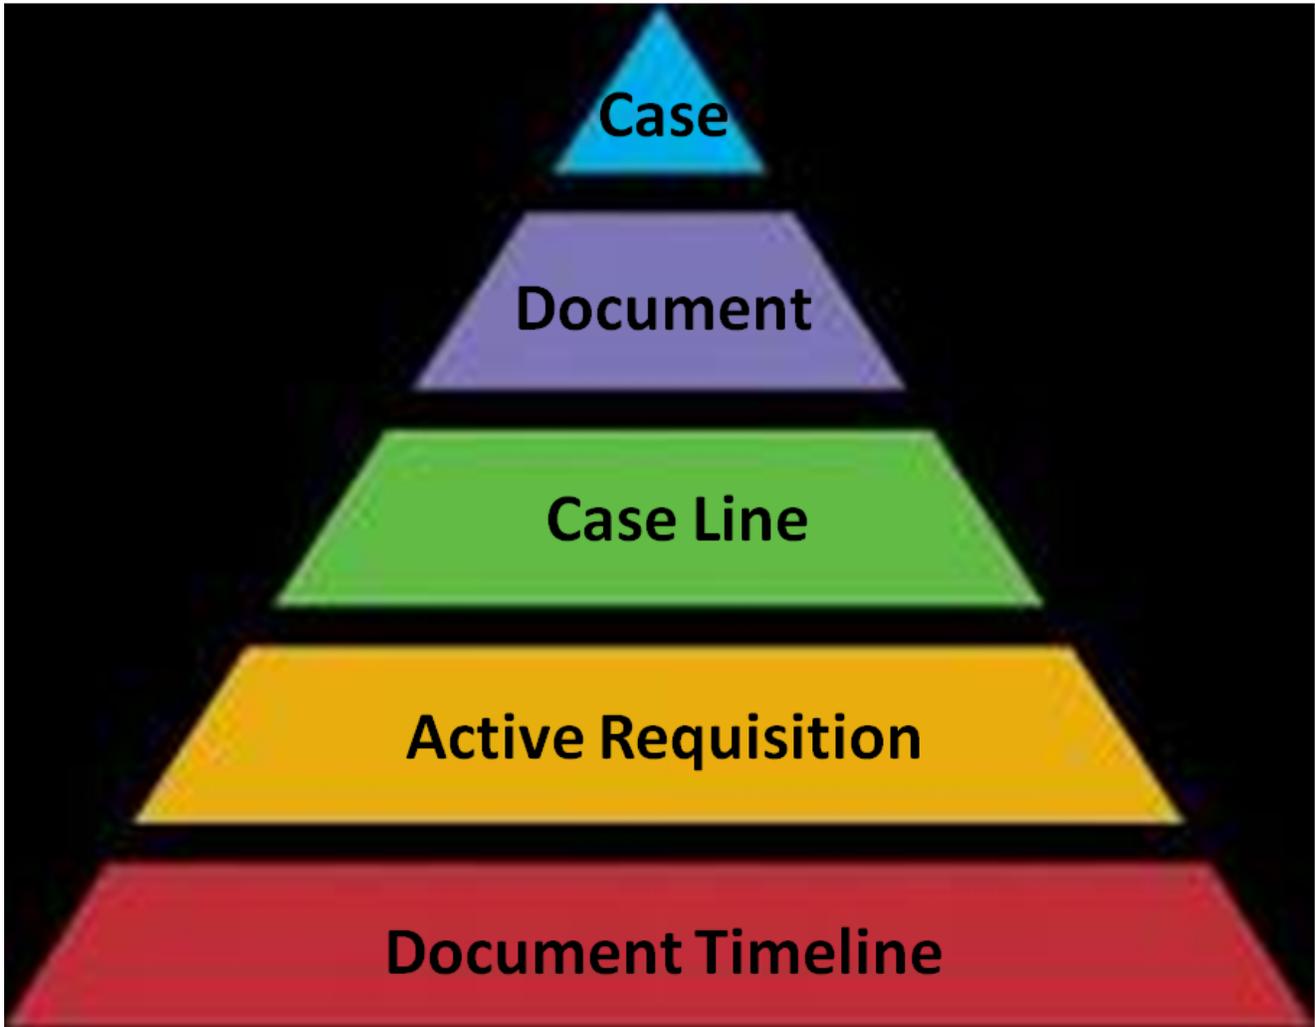

Figure 12: Case Status Menu Options - A “Pyramid of Choices”

Several reports will have an additional navigation feature which allows you to check the history of each document. If the Document Type tab is visible then there are documents available for each type. In this example (Figure 13), all Document Types are available.

Figure 13: Document Detail Example

Case Information/Case Status Menu Path (“Pyramid of Choices”)

In addition to Case Status, the other choices on the Case Information/Case Status Menu Path (Figure 14) include Adhoc, Inputs, Information Extractions, Requisition Summary, FMR Case Sheets, Real Time Metrics, and Help. The purpose of each of those choices is summarized below.

Figure 14: Case Information/Case Status Menu Path

Adhoc: From this page, a new Adhoc report can be generated by selecting a report (Case-Level, Line-Level, Active Requisition, SDR, Payment Schedule, Document Timeline or Delivery Set or a saved Adhoc report can be run (names are listed in the dropdown or, if none exist, appears).

Inputs: The Inputs page provides authorized users capabilities to submit requisitions (multiple types with batch upload capability); and Supply Discrepancy Reports (SDRs)

Information Extracts: Authorized users can view all requisitions (i.e. active and historical) associated with a case, regardless of the current logistics or financial posture of those requisitions via the Information Extracts page. Only one request is allowed per user per 24 hour period. After the overnight process is complete, resulting files are transmitted to SCIP and a notification on the Information Extract screen appears for the requesting user stating the extract data is available for download.

Requisition Summary: Access the Requisition Summary page by clicking the link from the Menu path. This page contains the following sections: Requisition Group Code Summary; Requisition Summary by null.

FMR Case Sheets: This page allows users to select cases for download and printing all Financial Management Review (FMR) case sheets. Selection can be made by country, country and implementing agency, or country, implementing agency and case. Upon making a selection, links will appear below the selection criteria that when clicked, will open an Excel file containing information specified with the selection criteria. Only data for cases in Implemented (I) and Supply Services Complete (SSC) statuses is displayed.

Real Time Metrics: User can have real time metrics calculated and displayed by SCIP. There are multiple options that can be chosen to filter the data including Implemented Cases, Documents, Cases by Current Status Code, and Documents by Current Status Code, Open Offers, Offer/Acceptance Comparison, AOD Past Performance, AOD Current Performance, etc. The subsequent results will be presented both numerically and graphically. User's then have the option of converting the real time metrics results to PPT and PDF files for subsequent use and display while offline SCIP.

Notable DSCA SCIP Policy Memos

DSCA 11-16 - Security Cooperation Management Suite (SCMS) Requirements

DSCA 11-08 - Security Cooperation Information Portal (SCIP) Background Document

DSCA 06-30 - Security Cooperation Information Portal (SCIP) Usage

DSCA 05-17 - Security Cooperation Information Portal (SCIP) Electronic Token Issuance and Replacement Processes

All DSCA Policy Memos (including all those pertaining to SCIP), can be found on the DSCA Home page <http://www.dsca.mil/samm/>

Overall DISAM Student SCIP Exercise Objectives

Process Exercises: Complete Case Information Exercises #1- #4 as directed by your instructor.

Logistics Exercises: Complete Logistics Exercises #5 - #16 as directed by your instructor.

Financial Exercises: Complete Finance Exercises #17 - #26 as directed by your instructor.

Miscellaneous Advanced Exercises: Complete Finance Exercises #27 and #28 as directed by your instructor.

For the purposes of the exercise book, the data on the actual SCIP screens will be “stacked” vertically rather than. “side-by-side”, horizontally.

Process Exercises

These exercises assumes that the student has a basic knowledge of the overall FMS / Security Cooperation case process.

Instructions if you are NOT on the INTERNET and are instead using the case document examples in this exercise handbook, then:

Refer to the *Case Status* Reports to answer Exercise #1.

Refer to the *Case Detail/ Document Detail* Reports examples to answer Exercise #2.

Refer to the *Case Line Detail* Report example to answer Exercise #3.

Refer to the *Document Timeline* Report example to answer Exercise #4.

Exercise #1: Learning How to Use the Case Information Filter

1. **If you are on the INTERNET**, select the **Case Information Community** and then **Case Status**. The country data will be displayed for the country of interest that you select. If you want to change the country, select the desired country code (if available) utilizing the drop down arrow and then click the “View Data” button. The default sequence for the resulting data is by Implementing Agency and then Case Designator. **Using the filtering process in the Case Status Select window, gather the data necessary** to answer the following exercise questions. You will notice that you can use the **Drop Down Arrows** to select all or part (to display the case(s) of interest) of the Case Identifier (County Code,-Implementing Agency (IA), and Case Designator), Customer Service, Document Type, and Document Status. Using the various filters will allow you to determine how many cases are in each Document Status, how many cases the Customer Service has with each IA, or if the Customer Service has cases with more than one IA and so forth.
2. **If you are NOT on the INTERNET**, use the following four attached Bandaria **Case Status Reports in this exercise book** to answer the questions. Note: The *Case Status Reports* that follow were created using the *Printable View of This Report* option found at the top right of the screen.

Case Information/Case Status report exercise questions for your country:

1. For internet: Use the DOCUMENT STATUS filter and select D (DEVELOPMENT). If no internet: Use the following “Case Status Report (D, P, O, A)” in this exercise book:
 - a. How many documents are coded in Development (D) status? _____
 - i. How many of those documents are Basics (B) _____
 - ii. How many of those documents are Amendments _____
 - iii. How many of those documents are Modifications _____
 - b. What action should be taken if a LOR was sent over 15 days ago and there isn't a case on the list in development in response to that country's LOR (Hint: How soon does SAMM require IAs to enter LOR into DSAMS?) _____
 - c. Why is the Total Value displayed as \$0.00 for cases in Development status? [Hint: Refer to Page #4] _____
2. For internet: Use the DOCUMENT STATUS filter and select O (OFFERED). If no internet: Use the “Case Status Report (D, P, O, A)” in this exercise book:
 - a. How many documents are coded in Offered (O) status? _____
 - i. How many of those documents are Basics (B)? _____
 - ii. How many of those documents are Amendments (A_)? _____
 - iii. Why are no Modification (M) documents listed? _____
 - b. Who has the LOA document in this stage in the process and what action should be taken? _____
3. For internet: Use the DOCUMENT STATUS filter and select A (ACCEPTED). If no internet: Use the “Case Status Report (D, P, O, A)” in this exercise book:
 - a. How many documents are coded in Accepted (A) status? _____
 - i. How many of those documents are Basics (B)? _____
 - ii. How many of those documents are Amendments (A_)? _____

- iii. Why are no Modification (M) documents displayed? _____
- b. If the accepted document remains in ACCEPTED status for 15 days or more, what's a reasonable question that the Foreign Purchaser should ask the USG? _____

4. For internet: Carefully Follow the steps outlined:

- FIRST use the DOCUMENT TYPE filter and select "I". This will limit search to the current implemented version.
- SECOND use the DOCUMENT STATUS filter and select I (IMPLEMENTED).

If no internet: Use the "Case Status Report (I)" in this exercise book:

- a. How many documents are coded in Implemented (I) status?

- b. What actions should the Implementing Agency (IA) take once the document is placed in Implemented Status? _____
- c. What actions can the international customer take once the case document is placed in Implemented Status? _____

5. Extra Credit:

- a. What is the status of the cases listed on the "**Case Status Report (SSC)**" in this exercise book or "SSC" Document Status if on the Internet? _____
- b. What is the status of the cases listed on the "**Case Status Report (IC)**" in this exercise book or "IC" Document Status if on the Internet? _____

Case Status Report (D, P, O, A)

Country: BN (Bandaria)

There are 30 cases/documents totaling \$462,420,048.00

Case ID	Customer Service	Document Type	Document Status	Description	Total Case Value
BN-B-IBH	D	A4	O (Offered)	AH-1F COBRA HELICOPTERS	\$14,496,515.00
BN-B-UJJ	B	A4	D (Development)	AMMUNITION-ENGINEER EXPLOSIVES	\$0.00
BN-B-UIR	D	A3	O (Offered)	UH-60M BLACKHAWK HELICOPTERS	\$213,067,232.00
BN-B-UIS	B	A2	D (Development)	5.56MM BALL AND BLANK AMMUNITION	\$0.00
BN-B-UIW	B	A4	O (Offered)	MLRS FIRE CONTROL UPGRADE	\$38,494,318.00
BN-B-UJF	B	B	O (Offered)	ADVANCED FIELD ARTLRY TCTCL DATA SYSTEM	\$9,977,881.00
BN-B-UJH	B	B	O (Offered)	BLACKHAWK HELICOPTERS, REPAIR & RETURN	\$500,000.00
BN-B-UJJ	B	A1	A (Accepted)	40MM AMMUNITION AND WEAPONS	\$1,547,069.00
BN-B-UJL	B	A1	A (Accepted)	9MM M882 AMMUNITION	\$823,532.00
BN-B-UJP	B	B	O (Offered)	REPAIR & RETURN (R&R) IN SUPPORT OF LOG	\$207,500.00
BN-B-UJQ	T	B	A (Accepted)	HIGH MOBILITY MULTIPURPOSE WHEEL VEHICLE	\$654,100.00
BN-B-UJR	B	B	D (Development)	LIGHTWEIGHT COUNTER MORTAR RADAR	\$0.00
BN-B-UJS	B	B	O (Offered)	CALL FOR FIRE TRAINER (CFFT)	\$986,525.00
BN-B-UJU	B	B	D (Development)	120MM MORTAR SYSTEM, TYPE M121	\$0.00
BN-D-DAF	null	B	D (Development)		\$0.00

BN-D-SGA	D	I	IC (Closed-Intr)		\$330,927,474.00

Exercise #2: Viewing Case Detail

Case Detail

Case Information	
Case ID	AK-B-UAF
Case Description	Vehicles
Case Nickname	Vehicle Program
Activity ID	AMCOM
Case Manager	John Smith
Customer Service	B
Case Line Count	11
Blanket Order Case	NO
Sole Source Procurement Request Indicator	NO
Navy Accounting System	---
Customer Requisitions Allowed	NO
Estimated Supply/Services Complete Date	07/30/2021
Implemented Document Information	
Last Implemented Document	---
Last Implemented Amendment	---
Last Implemented Modification	---
Funding	
Total Collections	---
Total FMF Collections	\$0.00
Cash Collections	\$0.00
Interest Bearing Account Balance	\$0.00

Document Detail

Implemented	Basic
<div style="display: flex; align-items: center;"> <div style="border: 1px solid gray; padding: 2px; margin-right: 10px;">Basic (Implemented) ▾</div> <div>Status Date: 08/23/2011</div> </div>	
LOR Information	
Customer Request ID	219735
Customer Request Date	03/21/2011
Customer Request Receipt Date	03/21/2011
Document Initialization Date	03/21/2011
Customer Request Completion Date	03/21/2011
Customer Request Reference	Country's Armed Forces ref no. 10-087
Sole Source Procurement Request Text	---
Customer Request Status Code	C
Customer Request Status Date	03/21/2011
Anticipated Offer Information	
AOD Group Code	B
Reason for Assigned Group	---
Anticipated Offer Date	07/19/2011
Anticipated Offer Comment	This should be expedited wherever possible

Case Detail gives you overall information about a particular case. This report includes selected case, financial, and requisition data including case dollar values, the terms of sale, and information on amendments and modifications.

Document Detail includes the following subheadings: LOR Information, Anticipated Offer Information, Financial Data, Term(s) of Sale, Payment Schedule Information, and Quarterly Payment Information for all the associated document types including Basic, Amendment, Modification and Implemented (Current). The Implemented (Current) document type also includes Implemented Document Information.

1. If you are on the INTERNET, select one of the larger case value Implemented cases for your country of interest. Look for a Major Weapon System case. Use the first position of the case designator (see Green Book Page 6-5 or Page 5 of the SCIP Handbook for reference) to determine what type of case you want to search for utilizing the filter. Highlight the case of interest from your entered search and double click that case to view the selected case detail. Answer questions a. through e below.
2. If you are NOT on the INTERNET, use the AKADIA Case Detail and Document Detail extracts on the previous page to answer questions a. through f

Case Information Case Detail/Document Detail Reports exercise questions for your country:

- a. What kinds of material and/or services are being provided on this case? _____
- b. Who is the Implementing Agency and Case Manager? _____
- c. When was the LOR for the BASIC document submitted to the IA? _____
- d. When did the IA have a complete LOR for the BASIC LOA? _____
- e. What does having a complete LOR mean? _____
- f. What is the purpose and meaning of the Anticipated Offer Date AOD)?

- g. What is the Estimated Supply/Services Completion Date? _____

Exercise #3: Viewing Case Line Detail

Case Line Detail

Implemented (Implemented) ▾

Case Line Number	MASL Number	Estimated Total Line Value
002	9A9C00ACPARTS	\$129,750.00 ▾

Total of 11 lines: \$42,666,670.00

Case Line Information

Case Line Number	002
Deleted Line	N
Benefitting Country Code	---
Line Manager	---
Case Line Item Description	Vehicle Description
MASL Number	9A9C00ACPARTS
Stock Number	---
Case Line Quantity	---
Unit of Issue	XX
Generic Code	A9C
Type of Assistance	5
Federal Condition Code	---
MDE Code	N
Offer Release Code	A
Delivery Term Code	4
Available Lead Time - Performance Period	(Click to show)
Appropriation and Budget Activity Account Code	C
Source of Supply	P
Administrative Surcharge Percentage	3.8%
CAS Percentage	1.5%

Case Line Values

Estimated Total Line Value	\$129,750.00
Net Line Value	\$125,000.00
Unit Price	---
Estimated Accessorial Value	---
Estimated CAS Value	\$1,847.28
Estimated LSC Value	---

The **Case Line Detail** displays all of the lines for a particular case, the associated line details including the estimated line values. This screen displays detailed information for the line you selected including all associated financial information.

1. **If you are on the INTERNET**, select the case you chose for **Exercise #2**. Use the navigation tool at the top of the one of the dual screens and select **Case Line**. From the **Case Line List Box** use the drop down arrow and select one of the available lines. Answer questions a. through f.
2. **If you are NOT on the INTERNET** use the AKADIA AK-B-UAF **Case Line Detail** extract on the previous page to answer the questions a. through f.

Case Information Case Line Detail exercise questions for your country:

- a. How many lines are on this case? _____
- b. Which Case Line Number is indicated in this detail report? _____
- c. Is this item on this line considered Major Defense Equipment (MDE)? _____
- d. If material is MDE, what are the implications of this code? _____
- e. What is the Source of Supply for this line? _____. What does this code mean?

- f. How many Offer/Release Codes apply to this line? _____ What is (are) the meaning of the code(s)?

- g. Is there a Line Manager listed for this case's line? _____

NOTE: Line Managers are typically only listed for U.S. Air Force Cases

Exercise #4: Viewing Document Timeline milestone information

Document	Customer Request	Customer Request Receipt	Customer Request Completion	Military Department Signature	DSCA Counter-signature	State Department Approval	Offered	Offer Expiration	Anticipated Offer	Document Sent from IA
Implemented (Implemented)	---		---					07/31/2000		
Basic (Implemented)	08/21/1990		08/22/1990	11/19/1990	10/29/1990		10/29/1990	12/18/1990		
Amendment 3 (Development)	02/19/2012		02/27/2012					---	06/26/2012	
Amendment 2 (Canceled)	12/09/2001		01/25/2002	01/29/2002	02/07/2002	02/07/2002	02/07/2002	03/01/2002		
Amendment 1 (Implemented)	05/25/2000		05/25/2000	06/12/2000	06/16/2000		06/21/2000	07/31/2000		
Modification 3 (Implemented)	05/23/1992		05/24/1992	06/15/1992	06/16/1992		06/16/1992	---		
Modification 2 (Implemented)	11/19/1991		02/19/1992	02/24/1992	02/25/1992		02/25/1992	---		
Modification 1 (Implemented)	01/22/1991		01/23/1991	01/23/1991				---		

Update Offer/Restatement	Offer Accepted by Customer	Financial Implementation	Implemented	Estimated Supply/Services Complete Date	Actual Supply/Services Complete Date	Estimated Closure	Closed	Case Canceled
				11/25/2002	---	12/31/2002		
	11/25/1990	10/23/1990	10/23/1990	11/25/2002	---			
				11/25/2002	---			
				11/25/2002	---			04/18/2002
	07/22/2000	10/19/2000	10/20/2000	11/25/2002	---			
		06/16/1992	06/16/1992	11/25/2002	---			
		01/17/1992	01/17/1992	11/25/2002	---			
		02/04/1991	02/04/1991	11/25/2002	---			

NOTE. This is not the normal display for the Document Timeline. This report was created by using the SCIP MS EXCEL feature.

The **Document Timeline** report displays a summary of 20 selected milestones in the life of the case starting with the current Implemented version followed by the basic case, and all amendments and modifications that have been implemented or pending.

1. **If you are on the INTERNET**, Select the **Implemented** case you chose for **EXERCISE #2**. Use the navigation tool at the top of one of the dual screens, and select **Document Timeline**. To see all the data for all the documents in one screen, select the EXCEL Icon in the upper right corner, ensure that “Document Timeline” is one of the report options that is checked, and then click OK to view the Excel spreadsheet. Then look for and click the “Document Timeline” report along the bottom of the EXCEL spreadsheet. Answer questions a. through f.
2. **If you are NOT on the INTERNET**, use the EXCEL BANDARIA *Document Timeline* example on the previous page to answer questions a. through f.

Case Information/Document Timeline exercise questions for the case you selected:

- a. How many Document Types (i.e. I, B, M, A) are listed on the Document Timeline report?
 - I: _____
 - B: _____
 - M: _____
 - A: _____
- b. If there is an “Anticipated Offer” date, what’s the USG policy IRT that date?

- c. When was the Basic case “Offered”?

- d. What is the purpose (i.e. what needs to happen by that date?) of the “Offer Expiration” date?
_____What was the Basic Case OED? _____
- e. When was the Basic case Offer Accepted by the Customer? _____
- f. What is the “Implemented: document”?

This Page Intentionally Left Blank.

Logistics Exercises

This series of exercises assumes that the student has knowledge of MILSTRIP (Military Standard Requisition and Issue Procedures) and Supply Discrepancy Report (SDR) procedures.

Instructions:

Refer to the SCIP Active Requisitions and other data source screen captures to answer the logistics questions in Exercises #5 through #10.

Fill in the SCIP Requisition Input form in Exercise #11.

Answer the SDR questions in Exercise #12.

Answer the SDR Detail questions in Exercises #13-#14.

Fill in the SCIP SDR Input form for Exercise #15.

Create an Adhoc Report as directed in Exercise #16.

Exercise #5: Requisition Summary

The **Requisition Summary** displays a roll-up of all of the requisitions. Report choices include Requisition Summary by Implementing Agency, Requisition Summary by Country Service or All Country Requisition Summary.

1. If you are on the INTERNET, from CASE INFORMATION select *Requisition Summary*. Use the *Drop Down Arrows* to select Report Type: *Requisition Summary by Implementing Agency*, and *Country Code of interest*. Answer questions a. through d.
2. If you are **NOT on the INTERNET**, use the BANDARIA *Requisition Summary by Implementing Agency* example below to answer questions a. through d.

Case Information: Requisition Summary

[Home](#) | [Case Status](#) | [Adhoc](#) | [Inputs](#) | [Information Extracts](#) | [Requisition Summary](#) | [FMR Case Sheets](#) | [Help](#)

Requisition Group Code Summary ☐

Select the Report Type and Country Code you wish to view from the dropdowns, and press 'View Report' (report displays below). If 'All Country Requisitions Summary' is selected, the Country Code displays 'All'.

Report Type: Requisition Summary by Implementing Agency ▼

Country Code: BN (Bandaria) ▼

Requisition Summary By Implementing Agency ☐

Country: BN (Bandaria) Printable View of This Report

Implementing Agency: B (Army)

Requisition Type	Requisition Count	Requisition Amount
Unshipped	5,043	\$186,121,604.77
Shipped Unbilled	3,419	\$11,176,804.16
Shipped Partial billed	0	\$0.00
Shipped Expended	255,376	\$1,348,327,034.21
Canceled	18,869	\$0.00
Total	282,707	\$1,545,625,443.14

Implementing Agency: D (Air Force)

Requisition Type	Requisition Count	Requisition Amount
Unshipped	9,078	\$322,779,895.00
Shipped Unbilled	521	\$6,402,993.08
Shipped Partial billed	0	\$0.00
Shipped Expended	1,630,582	\$2,694,158,765.07
Canceled	129,248	\$1,078,674,447.27
Total	1,769,429	\$4,102,016,100.42

Implementing Agency: P (Navy)

Requisition Type	Requisition Count	Requisition Amount
Unshipped	2,038	\$21,656,976.91
Shipped Unbilled	1,456	\$877,143.58
Shipped Partial billed	28	\$894,927.54
Shipped Expended	423,247	\$1,021,978,685.89
Canceled	84,970	\$459,318,851.32
Total	511,739	\$1,504,726,585.24

All Implementing Agencies

Requisition Type	Requisition Count	Requisition Amount
Unshipped	16,159	\$530,558,476.68
Shipped Unbilled	5,396	\$18,456,940.82
Shipped Partial Billed	28	\$894,927.54
Shipped Expended	2,309,205	\$5,064,464,485.17
Canceled	233,087	\$1,537,993,298.59
Total	2,563,875	\$7,152,368,128.80

Requisition Summary exercise questions for your country:

- a. What are the **total numbers** of requisitions for each of the **Implementing Agencies**?
- Army? _____
 - Air Force? _____
 - Navy? _____
- b. How many **shipped unbilled** requisitions are there for each of the **Implementing Agencies**?
- Army? _____
 - Air Force? _____
 - Navy? _____
- c. What does it mean (Hint: See note 1 below) if there are a lot of shipped unbilled requisitions?
-
- d. How many **shipped expended** requisitions are there for each of the **Implementing Agencies**?
- Army? _____
 - Air Force? _____
 - Navy? _____
- e. How many **canceled** requisitions are there for each of the **Implementing Agencies**?
- Army? _____
 - Air Force? _____
 - Navy? _____
- f. What does it mean (Hint: See note 2 below) if there are a lot of canceled requisitions?
-

NOTES:

You can look for exceptions and trends:

1. If there are an excessive number of SHIPPED UNBILLED requisitions, it may indicate a problem with the USG accounting systems. These shipments will not be recorded on the DD645 until the problem is resolved.
2. If you notice a significant number of canceled requisitions from a single IA, it may indicate a problem with the requisitioning process. You can do further research using the SCIP Ad Hoc features to see if all the cancellations are against the same case, or have the same status code, etc.
3. There is no requisition data for NSA (IA=M), DLA (IA=R), and NGA (IA=U) cases in SCIP at this time. These IAs do not use any of the MILDEP logistics or financial systems; therefore; the requisitioning data is not available.

Exercise #6: Active Requisitions Listing for a Case

Active Requisition Detail

Requisition Number	Suffix	NSN/Part/Reference Number	TCN

The **Active Requisition Detail** lists all OPEN requisitions on the selected case and those SHIPPED within the past 90 days. If there are no active requisitions on the case, the screen will include a statement that there are no active or recently shipped requisitions. The **LIST BOX** displays ALL the available requisitions. If there are more than one requisition, use the scroll bar on the right to select the requisition of interest.

1. **If you are on the INTERNET**, go to **Case Information/Case Status**. Use the filters for **Document Type = I** and **Document Status = I (Implemented)**. Look for a Blanket Order Repair Parts or CLSSA case. Double click on the case. Use the navigation tool at the top of one of the Case data's dual screens and select **Active Requisitions**. **From the Active Requisitions List Box**, use the **Drop Down Arrow** to view all the requisitions on the case. Answer questions a. through c.
2. **If you are NOT on the INTERNET**, use the BANDARIA *Active Requisitions List Box* extract from Akadia Case AK-B-UAF on the previous page to answer questions a. through c.

Case Information/Case Status/Active Requisitions exercise questions for the CASE you select:

- a. What is the total number of active requisitions on the case? _____
- b. How many have been shipped for this case? _____ Note: If you have a large number of requisitions, just determine a number based on the **data visible** on the List Box. [Note: If you are on the Internet, you could scroll down and manually count the requisitions with Transportation Control Numbers (TCN).]
- c. Are there any partial shipments (refer to last 3 positions of TCN) on the Active Requisition List? _____. If yes, what is the impact? _____

NOTES:

1. Normally, if there is no TCN, it indicates that it is an OPEN requisition for the Original or partially due quantity.
2. The AD HOC report feature is a more efficient method to identify all the OPEN or recently SHIPPED requisitions on a case.

Exercise #7: Active Requisition without a TCN

Active Requisition Detail

	Requisition Number	Suffix	NSN/Part/Reference Number	TCN
	BAKL451352R713	*	6150011868601	▼

Date Sent to Source of Supply	01/30/2012			

1. **If you are on the INTERNET**, using the case from **Exercise #6** (i.e. Blanket Order Repair Parts or CLSSA case, or AK-B-UAF), click the **Active Requisition** menu option, and select a requisition **without a Transportation Control Number (TCN)** from the **Active Requisitions List Box**. Answer questions a. through h.
2. **If you are NOT on the INTERNET**, use the BANDARIA AK-B-UAF *Active Requisition example* (without a TCN) on the previous page to answer questions a. through h.

Case Information/Active Requisitions exercise questions for the REQUISITION you select:

- a. What is the Document Identifier Code? _____ What is the meaning (Hint: Click the hyperlink) of the code? _____
- b. What's the purpose and what does the "Routing Identifier" code mean?

- c. What Case Line Number was the material purchased from? _____ Is the material purchase within the scope of the LOA line? _____
- d. What is the Priority of this requisition? _____
- e. Does this requisition have an Advice Code? _____. If YES, what is it? _____ What is the purpose and meaning of the code? _____
- f. What is the meaning of the Current Status code (if any)? _____
- g. What is the Estimated Ship date (if any)? _____
- h. Why is the Transportation Control Number an asterisk (*)? _____

NOTES:

1. All possible Document Identifier Codes are NOT listed in the SCIP Help File. The full listing can be found at <http://www.dtc.dla.mil/thf1/Help/DIC.html> and in [DoD 4000.25-1-M \(MILSTRIP Appendix 2.1\)](#) posted at the <http://www.dtic.mil/whs/directives/corres/pdf/40002501m.pdf> website.
2. All possible Routing Identifier Codes (RICs) are NOT listed in the SCIP Help File. The full listing can be found at the DLA Transaction Services (<https://www.transactionservices.dla.mil/DAASINQ/warning.asp>) website.

EXTRA CREDIT

- i. Based on the Priority in question b. above, what would be the Urgency of Need Designator (UND)? ____ Who determines the UND?

HINT: Check the DISAM Greenbook page 10-14, or MILSTRIP Handbook Appendix F.

Exercise #8: Active Requisition with a TCN

Active Requisition Detail

	Requisition Number	Suffix	NSN/Part/Reference Number	TCN

Required Availability/Delivery Date	A03			
Estimated Ship Date	---			
Date of Shipment	01/05/2012			
Date Sent to Source of Supply	12/15/2011			

1. **If you are on the INTERNET**, using the same case you used in Exercises 6 and 7 (i.e. Blanket Order Repair Parts or CLSSA case, or AK-B-UAF), and make sure the **Active Requisition** menu option is still open. From the **Active Requisitions List Box** on that page, choose a requisition **with a Transportation Control Number (TCN)**. Answer questions a. through h.
2. **If you are NOT on the INTERNET**, use the Bandaria (BN-D-KEO) Air Force *Active Requisition Detail* example **on the previous page with a Transportation Control Number (TCN)** to answer questions a. through h.

Case Information/Active Requisitions exercise questions for the CASE you select:

- a. What is the Document Identifier? _____. What is the meaning of that Document Identifier? _____
- b. Did the USG or Bandaria submit this requisition? _____
- c. [Hints: (a) Who is the case Implementing Agency? (b) See the DISAM MILSTRIP for FMS Handbook, Appendix O, for an explanation of Requisition Serial Numbers.]
- d. If you are on the internet and click the NSN hyperlink, what web site and information will be displayed? _____
- e. Is (Was) a Notice of Availability (NOA) required (Hint: Check the Supplementary Address)? _____ What is the DTC (Hint: Check the TCN)? _____
- f. What is the significance of the Required Availability/Delivery Date, if any? _____
- g. Has this requisition been shipped? _____ If yes, when? _____
- h. If there was a Required Availability/Delivery Date listed for this requisition, did the USG ship it at or prior to that date? _____
- i. If you are on the internet and click the TCN hyperlink, what information will be displayed? _____

NOTE:

Even though the items have been shipped, Air Force and Navy reports will display the last Current Status Code/Current Status Date of the requisition before the shipment was released.

Status Milestones				
Date	Type	Event	Mode	Milestones
4/10/2012	Actual	Depart		Shipment Origin
4/16/2012	Actual	Arrive		Point of Embarkation
4/28/2012	Actual	Depart		Point of Embarkation
4/30/2012	Actual	Arrive		Point of Debarcation
5/12/2012	Actual	Arrive		In Country

1. **If you are on the INTERNET**, go to the “Case Execution Community”, click “EFTS”, then “Research”, and then “Reports” on the sub-menu. Enter your desired country/case filter criteria. At a minimum, select “Completed Shipments” for the Report Type, “Completed” for the Flags section, and add (i.e. click the pencil icon, highlight your country of interest, and then click the “Add to Criteria button”) your country of interest to the Selected Country list. Once your filter choices are selected and entered, press the “Search” button to get your results and complete questions a through e below at a minimum, and questions f-g for Extra Credit.
2. **If you are NOT on the INTERNET**, use EFTS Completed shipment Report and the TCN Details Report on the previous page to complete questions a. through e. below.
 - a. How many results were returned on the report to your filter search _____
 - b. Based on what you selected for your Report Type (Completed), where should the material for each of the listed requisitions be located? _____
 - c. How can you get to the TCN Details (see example on lower half of previous page) for any of the listed report results? _____
 - d. What’s the purpose of the gold bar/line at the top of the “TCN Details” Report?

 - e. What will happen if you click any of the “+” symbols in the “TCN Details” reports?

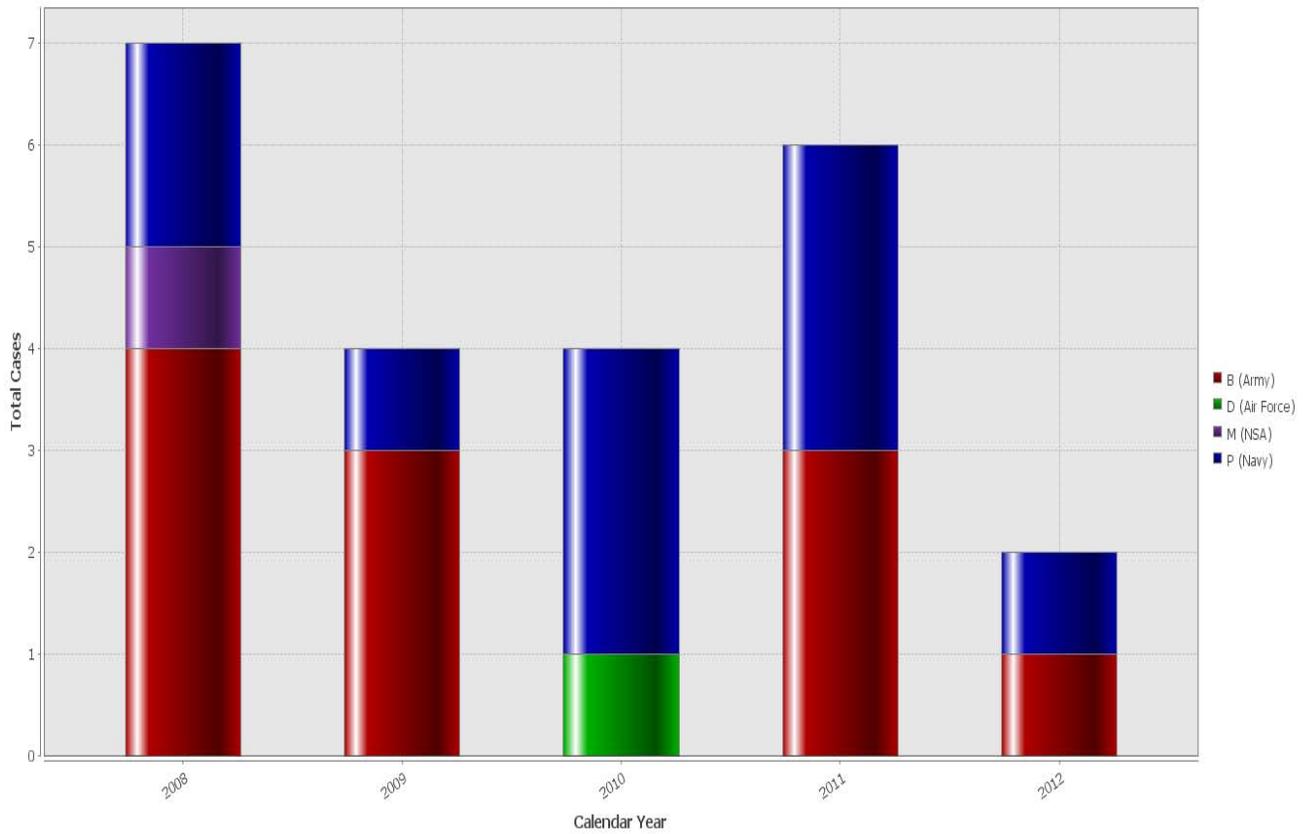

EXTRA CREDIT

- f. Copy one of the TCNs listed in the EFTS Report results and paste it in the Case Information Community “Requisition Status” TCN window to view details on the requisition that resulted in that TCN shipment.
- g. If on the Internet, click “Research””DSP94 Search” for your country(s) of interest. Are there any DSP-94’s that are listed? _____What’s the purpose of a DSP-94 and the value to knowing where a particular’s case’s DSP-94 is lodged?

NOTE: The only DSP-94s information that are listed on SCIP are for the U.S. Navy FMS Cases. To determine where the DSP-94 is lodged for U.S. Air Force or U.S. Army cases, you need to go to the AFSAC Online and USASAC websites respectively.

Exercise #10: Case Information Real Time Metrics

BN - Bandaria Historic Implemented Cases by Implementing Agency

	2008	2009	2010	2011	2012	Total Cases	Total Case Value
B (Army)	<u>4</u>	<u>3</u>	---	<u>3</u>	<u>1</u>	11	\$9.4M
D (Air Force)	---	---	<u>1</u>	---	---	1	\$560.8K
M (NSA)	<u>1</u>	---	---	---	---	1	\$61.8K
P (Navy)	<u>2</u>	<u>1</u>	<u>3</u>	<u>3</u>	<u>1</u>	10	\$25.1M
Total	<u>7</u>	<u>4</u>	<u>4</u>	<u>6</u>	<u>2</u>	23	\$35.1M

1. **If you are on the INTERNET**, click the Case Information Community, and then “Real Time Metrics” on that community’s menu bar. Using the filter drop down options, develop a “Historic Implemented Cases” metrics report for your country of interest. Recommend grouping by Implementing Agencies, selecting a yearly time period, and including results from the last 5 years. Answer questions a. through g.

2. **If you are NOT on the INTERNET**, use the Bandaria “Historic Implemented Cases” metrics report example on the previous page to answer questions a through f.
 - a. How many total implemented cases does Bandaria have? _____
 - b. Which U.S. Implementing Agencies (IAs) have implemented FMS Cases with Bandaria?

 - c. How many total implemented cases does Bandaria have with the U.S. Army as the Implementing Agency? _____
 - d. How can you quickly develop a Microsoft PowerPoint slide showing the Real Time Metric results that you just developed in SCIP?

 - e. Why are the case numbers for each of the IAs in the year columns blue color and underlined?

 - f. How can you quickly get details (e.g. Case Identifiers, Case Detail, Document Detail, Case Line Detail, Active Requisition Detail, SDRs, Document Timeline info, etc.) on any of the case numbers that are blue color and underlined _____
 - g. What other Real Time Metric reports can be selected for your country(s) of interest?

Exercise #11: MILSTRIP Requisition Input

1. If you are on the Internet, only enter a requisition if you are using the SCIP training database or you are authorized by your country to enter a requisition for your case of interest! If you are using the SCIP training database, recommend using case BN-D-KEO and the following additional data to help you in filling out the requisition..
 - a. The Document Identifier Code is automatically filled in based on your selection from the Main Input Menu. In our example it is A01.
 - b. The Routing Identifier Code field will be filled in automatically when you enter the first position of the Requisition Document Number.
 - c. The default Unit of Issue is EA. Change as needed
 - d. The default Quantity is 00001. Change as needed. Must be 5 positions.
 - e. The default Demand Code is non-recurring.
 - f. The Julian Date field for the Requisition Document Number is filled in automatically.
 - g. If you are a DISAM student, use your DISAM student number for the serial #

2. If you aren't on the Internet, use the following additional data to help you in filling out the requisition:

Your maintenance technician tells you he needs a FLEXIBLE SHAFT ASSEMBLY to fix a dead-lined vehicle which is mission critical. He has had problems in the past with substitute items. He tells you that only this item will suffice. **HINT: You will find the DISAM MILSTRIP for FMS Handbook very useful!** You check the item in WebFLIS (see snapshot example below) to ensure the item is still available and verify the NSN (3040001737363).

Bandaria (BN) has a single line blanket order case with the USAF (IA = D). If you aren't on the Internet, use the following additional data to help you in filling out the requisition:

Case Designator	Offer Release Code	Mark For Code	Freight Forwarder Code	Delivery Term Code	Type Assistance Code	UND	FAD	Country Service
KEO	A	G	2	5	V	A	III	D

Follow the appropriate IA MILSTRIP rules for creating Customer Submitted requisitions when completing in the SCIP "A01/A "Requisition – Standard NSN Material screen. The fields that have the asterisk (*) are mandatory. All the others should be completed if the data is available.

- a. The Document Identifier Code is automatically filled in based on your selection from the Main Input Menu. In our example it is A01 (MILSTRIP with NSN).
- b. The Routing Identifier Code field will be filled in automatically when you enter the first position of the Requisition Document Number, or click the WWRS box.
- c. The default Unit of Issue is EA. Change as needed
- d. The default Quantity is 00001. Change as needed. Must be 5 positions.
- e. The default Demand Code is non-recurring.
- f. The Julian Date field for the Requisition Document Number is filled in automatically.

Using the information you gathered, complete the INPUT screen that follows with the correct information.

EXTRA CREDIT

- a. What will be the impact on the requisition based on the data shown under the MANAGEMENT FUTURE tab?

- b. What is the impact on the requisition based on the data shown under MANAGEMENT, Code AAC?

A00220	BBNM5V83200002B	\$ 402

If a **Supply Discrepancy Report (SDR)** has been submitted against any of your country cases, this report will show all the SDRs open or completed within the last year (at a minimum) and their current status and disposition for the selected case.

1. **If you are on the INTERNET**, select one of the larger supply cases for your country of interest. Recommend filtering for a Repair, Blanket Order or CLSSA case. Use the navigation tool at the top of one of the Case report dual screens and select **SDR**. Use the **Drop down Arrow** to display the **SDR List Box**. Answer questions a. through b.
2. **If you are NOT on the INTERNET**, use the BANDARIA **SDR List** extracts above to answer questions a. through b.

Case Information/SDR List exercise questions for the CASE you select:

- a. How many Supply Discrepancy Reports have been reported for your case? _____
- b. If the minimum value for a SDR is \$200.00 why does the SDR List show SDR values less than \$200.00? _____

Note: You can also use the AD HOC report feature to create a report which will show your SDRs for all cases.

Exercise #13: SDR Detail

1. **If you are on the INTERNET**, select one of the SDR reports from the **SDR List Box** for the case you chose in **Exercise #12**. Answer questions a. through g.
2. If you are NOT on the INTERNET, use the BANDARIA *SDR Detail* extract on the previous page to answer questions a. through g. Case Information/SDR Detail exercise questions for that country submitted SDR:
 - a. What is the meaning of the discrepancy code?

 - b. Was this SDR submitted within the established timeframes for potential approval?

 - c. Does this SDR dollar value meet the established criteria?

 - d. Is there an Action Code? _____.If YES, what is it? _____ What is the meaning of the code? _____
 - e. What is the current status of your selected SDR? _____
 - f. Is there an Action Code? _____ If YES, what is the meaning of the code?

 - g. Is there an Adjustment Reply Code? _____ If YES, what is the meaning of the code?

NOTES:

1. The Action Taken Code applies to U.S. Army cases vice the Adjustment Reply Codes which are used by the U.S. Air Force and U.S. Navy.
2. If the SDR is submitted via STARR/PC or SCIP, the DATE ESTABLISHED is when the SDR was entered into the STARR/PC or SCIP by the customer.
3. U.S. Air Force SDRs:
 - a. The AF requires customers to send in SF364 hard copies for those sent via STARRPC or SCIP. The DATE RECEIVED-SF364 reflects the date when the hard copy was received at AFSAC.
 - b. If the SDR is submitted via AFSAC ONLINE, the DATE RECEIVED-SF364 and the DATE ESTABLISHED will be the same.

1. **If you are on the INTERNET**, select ANOTHER SDR report for your country. From the **SDR List Box** choose a SDR with a **SDR SUFFIX**. Answer questions a. through g.
2. If you are NOT on the INTERNET, use the BANDARIA *SDR Detail* example on the previous page to answer questions a. through g. Case Information/SDR Detail exercise questions for the country submitted SDR you select:

- a. What is the meaning of the SDR Number Suffix, if any?

- b. What is the purpose and meaning of the discrepancy code?

- c. Was this SDR submitted within the established timeframes for potential approval? _____
- d. Does this SDR dollar value meet the established criteria? _____
- e. Is there an Action Code? _____ If YES, what is it? _____ What is the meaning of the code? _____
- f. What is the current status of your selected SDR? _____
- g. Is there an Adjustment Reply or Action Taken Code? ____ If yes, what is the meaning of the code?

Exercise #15: SDR Input

The item you ordered in Exercise #11 (Requisition) was received damaged upon inspection at the Bandaria Air Force Supply Depot. Using the information provided in Exercise #11, complete (either (1) Online if you have Internet access and are utilizing the SCIP Training Database, or (2) Using the example form on the next page) the following SCIP SDR format as completely as you can. Most of the Action and Discrepancy codes can be found in Attachment 1 (SCIP Help Definitions). In addition, DoD 4000.25-M Volume 2 (<http://www.dtic.mil/whs/directives/corres/pdf/400025m.pdf>) Chapter 17 (Supply Discrepancy Reporting,) and the DLA Logistics Management Standards Website (http://www2.dla.mil/j-6/dlms0/eApplications/LOG.NET/UI/Log_Qualifiers/lqvqcDetails.aspx?code=HB for action codes) are good references to assist you in completing the SDR entries.

- a. Follow the appropriate IA SDR rules when completing in the SCIP “XDN SDR Report – SF364 Equivalent. The fields that have the asterisk (*) are mandatory. All the others should be competed if the data is available.
- b. What additional data would you provide to assist the Implementing Agency to validate your claim?

- c. How can you send additional data with your electronic submission?

Attachments:

Data Input

Attachments can be added to an SDR once it has been accepted by the MILDEP, which may take a few days. Before submitting an attachment, please verify the SDR has been accepted by running the SDR Adhoc. All fields are mandatory.

Exercise #16: Active Requisition Adhoc Report

1. **If you are on the INTERNET**, create an Ad Hoc report to find out how many active requisitions your country of interest has with the following parameters (i.e. backordered, Priority 3 items, ordered more than a year ago):
 - a. **SELECT:** Active Requisition Report
 - b. **DISPLAY:** Country Code (if needed), Case ID; Case Line Number, Requisition Document Number, Requisition Document Number Suffix, Supplementary Address, Priority, Advice Code, Date Established, Current Status Code; Current Status Date; Estimated Shipping Date.
 - c. **FILTER CRITERIA:** Country Code (if needed), Customer Service Type ID=B, Priority=3, Current Status Code=BB, Date Established=is less than or equals to the date a year ago (mm/dd/yyyy)
 - d. Sort by Case ID with ascending option, and have the system count the results.

2. If you are NOT on the INTERNET, refer to the *Bandaria Active Requisitions Ad Hoc Report query confirmation, and the results on the next page* to answer the following questions a. through e.
 - a. Is the Active Requisition Adhoc query correct per the above specified criteria? _____
 - b. What FAD and Urgency of Need does a Priority of 3 equate to?

 - c. What is the purpose of the Advice Code 2L for the 1st requisition listed?

 - d. If there was a Requisition Number Suffix, what would that mean?

 - e. What's the purpose and what happens if you click the "Save Adhoc Query" and/or the "Convert to MS Excel" links above the results?

Financial Exercises

This series of exercises assumes that the student has knowledge of FMS financial procedures.

Instructions:

1. Answer the Case Detail/Document Detail questions in Exercises #17-#18
2. Answer the Case Line Detail questions in Exercises #19-#20
3. Answer the Financial Management Review (FMR) questions in Exercise #21
4. Answer the Case Payment Schedule questions in Exercise #22
5. Answer the Case/Document Detail Supply Services Complete questions in Exercise #23
6. Answer the Case/Document Detail Interim Closed questions in Exercise #24
7. Answer the Case/Document Detail Interim Final Closed questions in Exercise #25
8. Create an Ad Hoc Financial report as directed in Exercise #26

This Page Intentionally Left Blank.

Unshipped Requisition Value	\$6,845.38
Canceled Requisition Count	91
Canceled Requisition Value	\$221,071.37

1. **If you are on the INTERNET**, select any **Implemented** case for your country of interest. From the Case Line Detail window select the **IMPLEMENTED** version. From the **Case Line List** select a Case Line. Answer questions a. through g.
2. **If you are NOT on the INTERNET**, use the BANDARIA *Case Line Detail* example on the previous page to answer the questions a. through g.

Case Information/Case Line Detail Report exercise financial questions for the case you selected:

- a. What is the planned Source of Supply? _____ What financial impact (if any) does that have on this line? _____
- b. What is the Delivery Term Code(s) associated with this line? _____ Which transportation percentage rate would be applied? _____
[Hint: Refer to [SAMM C9.T4A](#)]
- c. What is the Contract Administrative Surcharge (CAS) Percentage? _____ Is the rate what you expected for this case? _____
- d. What is the Administrative Surcharge value? _____ Will the rate be the same for all lines on this case? _____
- e. What is the MDE (Major Defense Equipment) Code? _____ If it is "Y", where can you find the Nonrecurring Charge (NC) value that may have been applied? _____ If NC was applied, will the NC charge be included with the unit price? _____
- f. What is the Shipped Expended Requisition Value, if any? _____ What does "expended" mean? _____

Exercise #21: Financial Management Review (FMR) Case Sheets

	A	B
1	U.S. - Bandaria June 2012 FINANCIAL MANAGEMENT REVIEW	
2	CASE FINANCIAL STATUS

FMR Case Sheets data are used by DSCA, Implementing Agencies (with exception of USAF), and Foreign Purchasers as the basis for their case financial discussions at the periodically scheduled Financial Management Reviews (FMRs) for their country.

1. If you are on the INTERNET, go to the SCIP Case Information Community and click on “FMR Case Sheets” on the menu bar. In the filter bar, select your country of interest, and use the default choices of “All” for Implementing Agency, Customer Service, and Case ID. Click the resulting blue hyperlink to open up the spreadsheet results. Answer questions a. through e.
2. **If you are NOT on the INTERNET**, use the Bandaria FMR Case Sheets example on the previous page to answer questions a. through e.

Case Financial Management Report (FMR) exercise financial questions for the country and cases you selected:

- a. What is the Case Identifier for the FMR sheet? _____
- b. How can you change the view to another FMR sheet in the spreadsheet results?

- c. What is the case’s Programmed _____ and Unprogrammed _____ Values
- d. How much money has been collected from the customer to-date? _____
- e. What is the value of all the material and services delivered to-date? _____

Exercise #22: Case Payment Schedule

SCIP Miscellaneous Advanced Exercises
Exercise #27: Case Execution EFTS SCMS-Style Report

1. **If you are on the INTERNET using your own ‘real-world’ SCIP account (i.e. NOT a training account),** go to the SCIP Case Execution Community, and click “EFTS” and then “Research”. Once there, select the “SCMS-Style Report” from the menu options, and then select your country(s) of interest and filter options. Recommend that you select “All” for both the “Arrived in Country” and “Transactions” options from those drop down menus, the IA, CSD and Case options, and “Last 60 Days” for the shipped option to provide the greatest number of potential results for the report. Ensure that you click the pencil icon, select at least one country of interest, and then click the “Add to criteria” button once your country(s) of interest are selected and highlighted. Once all filter options have been sent, click the “Search” button to generate your EFTS SCMS-Style Report. **Once the report is generated,** answer questions a. through d.

2. **If you are NOT on the INTERNET using your own ‘real-world’ SCIP account,** refer to the report example above but just answer questions b. through d.
 - a. How many report results were found?

 - b. What ‘real-world’ event occurred that the “POE Arrive” column is referring to?

 - c. What ‘real-world’ event occurred that the “POD Arrive” column is referring to?

 - d. If a requisition(s) has been shipped but only has data on the report to the “POE Arrive” column”, what could be the reasons that there is no further transportation data provided for that shipment?

1. If you are on the INTERNET using your own 'real-world' SCIP account (i.e. NOT a training account), go to the SCIP Case Execution Community, and click "EFTS" and then click the "Reports" tab. Click the "Supportability Analysis Stock Out Report", click the "NSN/NIIN" link option, and either manually paste the NSN/NIINs of interest, or uploading (by clicking the 'browse' button, selecting your .txt file of interest, and then clicking the "Read" button) a .txt file with the list of NSNs/NIINs of interest (one listed per line in the .txt file that you want EMALL to analyze. Once the NSNs/NIINs of interest have been listed in the EMALL window, click the "Submit" button to generate the EMALL report. Answer questions a. through d.
2. **If you are NOT on the INTERNET**, use the "EMALL Supportability Analysis Stock Out Report" example on the top of the previous page to answer questions a. through d.

a. What are the "FSC" and the "NIIN" numbers for?

b. What is the purpose of the Acquisition Advice Code (AAC) column?

c. How could you use the "SOH", "Last Demand Date", and "Monthly Consumption Quantity" data for each listed item to assist your country's logistics management of those item(s)?

d. What's the significance and meaning of the "Replenishment Item Stock-Out", "Replenishment Item Potential Stock-Out", and "Get Well Date" columns and why would it be important for you to note that information when managing your country's logistics requirements?

NOTES:

- FMS customers cannot use EMALL to place orders. They can use EMALL to determine if an item is in stock, or when it will be restocked. They can check DLA's prices. However, if they want to order the material they have researched, they must submit a standard A01 requisition against a blanket order case through their ILCO.
- EMALL provides the FMS customer visibility into the stock levels of mostly commercial common use items managed by DLA, and which are available through direct vendor contracts or from DLA depot stock. EMALL is limited to material that has a commercial application (i.e. vehicle parts, safety gear, fire fighting equipment, office products, etc.). The military-unique spares for tactical vehicles, aircraft, helicopters, weapon systems, etc. are not included in EMALL

OVERVIEW OF THE SECURITY COOPERATION INFORMATION PORTAL (SCIP)

The Defense Security Cooperation Agency (DSCA) has established a website known as the Security Cooperation Information Portal (SCIP). This portal enables International Customers, customer agents and United States Government personnel, with appropriate permissions, to (1) view Foreign Military Sales (FMS) case, line, requisition, and Supply Discrepancy Report (SDR)-level information obtained daily from all U.S. Military Department (MILDEP) Case Execution systems and the tri-service Case Development system (DSAMS), and (2) input a variety of FMS MILSTRIP and MILSTRIP-like transactions, which are partially validated in the SCIP, and then passed directly to the appropriate MILDEP Case Execution system for processing. For more information about SCIP please review the [SCIP Background Document](#).

ATTENTION FIRST-TIME USERS

Select the appropriate access type

- [Password](#)

For additional information regarding the SCIP or gaining access to the SCIP, please send an email to SCIPHELP@dsadc.dsca.mil.

July 2012

APPENDIX 1: SCIP HELP - DESCRIPTIONS

Note: The following can be accessed online the SCIP System via the "Help" Community and selecting the "SCIP HELP Descriptions" link/file. Each of the listed terms and associated codes can also be accessed online by clicking on the associated hyperlink in the SCIP report that the user is viewing when logged on and using SCIP.

[ALL](#) | [A](#) | [B](#) | [C](#) | [D](#) | [E](#) | [F](#) | [G](#) | [H](#) | [I](#) | [L](#) | [M](#) | [N](#) | [O](#) | [P](#) | [Q](#) | [R](#) | [S](#) | [T](#) | [U](#) | [W](#)

AOD Current Performance Graph

Provides the number of case versions for all Group Codes (or by Group Code (A, B, C, or D) where the Anticipated Offer Date (AOD) is 15 or more days in the future (green) and 0-14 days in the future (yellow). It also shows those where the AOD has passed (red) as compared to the current date. AOD is filtered to exclude dates prior to April 5, 2010, when the AOD concept was first introduced. The Days Until AOD is calculated by subtracting the current date from the AOD. A negative Days Until AOD indicates the AOD has passed. Percentages are calculated based on the number of case versions (for each Group Code) with AODs divided by the number of case versions (for each Group Code) in the red, yellow, and green categories defined above. Grouping options: AOD Group Code; Filter options: Implementing Agency (IA) or Customer Service.

AOD Group Code

The AOD is designated according to the following four case groupings:

Group A: Blanket order LOAs, training LOAs, Cooperative Logistics Supply Support Arrangements, and associated Amendments and Modifications. DSAMS will use a default date of 75 calendar days following LOR Complete; however, the Implementing Agency can change the date to less than 75 calendar days if appropriate, but cannot exceed 75 days without justification, which must be documented in DSAMS milestone comments. An AOD of greater than 75 calendar days may be assigned if specifically requested by the purchaser. This also must be documented in DSAMS milestone comments.

Group B: Defined Order LOAs, Amendments, and Modifications. DSAMS will use a default date of 120 calendar days following LOR Complete; however, the Implementing Agency can change the date to less than 120 calendar days if appropriate, but cannot exceed 120 days without justification, which must be documented in DSAMS milestone comments. An AOD of greater than 120 calendar days may be assigned if specifically requested by the purchaser. This also must be documented in DSAMS milestone comments.

Group C: Defined Order LOAs and associated Amendments that are considered "purchaser-unique" in nature. The AOD may be longer than 120 days following LOR Complete based on factors (1) through (8) below. Associated Modifications will be placed in either Group A or B as Modifications generally do not require more than 120 days to prepare. Group C cases are defined as follows:

- 1) First-time purchase of a defense article or service by an FMS purchaser
- 2) First-time FMS purchase by a specific country or international organization with limited experience or knowledge of FMS processes/procedures
- 3) Case requires engineering, system integration, or special acquisition
- 4) Requested use of the system is different from its use by U.S. military forces (e.g., Navy ship missile to be fired from an Army or foreign country's helicopter)
- 5) Detailed release/disclosure coordination required
- 6) Complex pricing effort required
- 7) Extraordinary coordination required inside and/or outside the Implementing Agencies
- 8) Other (must be explained by detailed milestone comments in DSAMS)

Group D: All Pseudo LOAs and associated Amendments and Modifications. The AOD will be assigned as soon as information and/or conditions make AOD determination possible; e.g., receipt of contracting, funding, or other guidance and information needed to determine when the document will be approved.

AOD Past Performance Graph

Provides a count of all case versions for all Group Codes (or by Group Code ('A', 'B', 'C', or 'D')) where the Letter of Offer and Acceptance (LOA) is sent on or before or after the Anticipated Offer Date (AOD). AOD is filtered to exclude dates prior to April 5, 2010, when the AOD concept was first introduced. The Days Past AOD is calculated by subtracting the AOD from the date the LOA was sent. A negative Days Past AOD indicates the LOA was sent before the AOD. Percentages are calculated based on the number of case versions (for each Group Code) in each category as compared to the overall number of case versions (for each Group Code) for both categories. Grouping options: AOD Group Code; Filter options: Implementing Agency (IA) or Customer Service.

Acceptance Date

Date on which the Letter of Offer and Acceptance (LOA), Amendment, or Modification is signed by the customer.

Accessorial Packaging, Crating, Handling

A PLANNED below-the-line estimate of costs established to cover special packing, crating and handling of material in order to transport it to the international customer. Actual packing, crating, and handling costs are applied by DFAS-IN, based upon information provided by the Implementing Agency (IA).

Acquisition Value

The value of one unit of the item on the Case Line.

Action Code

Code from the front of the Standard Form 364 that specifies the SDR action required. Preprinted codes on the face of the SF 364 may be supplemented from additional codes in DoD 4000.25-M, V2, C17, *Reporting Of Supply Discrepancies*. Some common codes:

- 1A - Disposition instructions requested (see reverse side of SF-364)
- 1B - Material being retained (see remarks on the SF-364)
- 1C - Supporting supply documentation requested
- 1D - Material still required, expedite shipment (Not applicable to Security Assistance)
- 1E - Local purchase material to be returned at supplier's expense unless disposition instructions to the contrary are received with 15 days (see reverse side of SF-364) (Not applicable to Security Assistance or DLA)
- 1F - Replacement shipment requested (Not applicable to Security Assistance).
- 1G - Reshipment not required. Item to be re-requisitioned.
- 1H - No action required. Information only.
- 1Z - Other action requested (see remarks on SF-364)
- 2A - Disposition of material and financial adjustment (credit) requested.
- 2B - Material being retained. Financial adjustment (debit) requested.
- 2C - Technical documentation/data requested.
- 2F - Material being held for disposition instructions, request funds citation. (Not applicable to Security Assistance)
- 2J - Financial adjustment requested.

- 2K - Evidence of shipment requested (Security Assistance only).
- 2L - Request billing status (Security Assistance only).
- 2Z - Additional information is being submitted off-line. Applicable for use with electronic SDR submission only.

Action Taken Code

Applies to Army only. Identifies processing steps by SDR case managers at USASAC. Codes are:

- 00 - New SDR entered. No other action taken to date.
- 01 - Replacement shipment accomplished or materiel being retained at no expense to customer.
- 05 - Local disposal authorized. Credit billing to be processed.
- 08 - Credit granted by supply source.
- 09 - Material authorized for return to CONUS.
- 18 - Credit granted by USASAC.
- 19 - Credit denied.
- 21 - Closed for other reasons. See remarks.
- 23 - Additional data or clarification requested from customer by supply source.
- 24 - Canceled per customer request.
- 25 - Closed by manual action. See remarks.
- 29 - Exceeded submission time frame. Returned to country as denial.
- 31 - Debit action taken by USASAC.
- 32 - Debit action taken by supply source.
- 33 - Disposition instructions received from supply source.
- 34 - Canceled per LOA notes, disposition not accomplished within 180 days.
- 36 - Customer provided evidence of materiel return. Supply source notified to check for receipt.
- 37 - Follow-up on disposition instructions sent to country.
- 38 - Evidence of shipment furnished to customer. SDR considered closed.
- 47 - Holding at USASAC for policy decision or preparing write-off package.
- 49 - Released to supply source with additional information from country or shipping depot.
- 50 - Released to supply source for adjudication.
- 51 - SDR suspended at supply source for reasons beyond their control.
- 53 - Image bill received.
- 55 - Possible candidate for irresolvable write-off.
- 56 - Supply source responded to additional information with other than write-off or disposition instructions.
- 57 - Returned to customer without action.
- 58 - SDR forwarded to shipping depot for action or proof of shipment.
- 59 - Forwarded to USASAC product assurance division for review.
- 60 - Credit billing authorized by APD for publications.
- 61 - Debit billing authorized by APD for publications.

- 62 - Credit granted by USASAC with local disposal authorized.
- 63 - Returned to customer due to insufficient freight forwarder documentation.
- 64 - Credit reversal required. Customer reported shipment received.
- 65 - Financial adjustment required. Billing processed for incorrect amount.
- 66 - Interim reply received from supplier.
- 81 - First follow-up generated to customer.
- 82 - Second follow-up generated to customer.
- 83 - Third follow-up generated to customer.

Activity ID

The name of the Government activity processing the case.

Actual Closure Date

Date the case/line was closed.

Actual Supply/Services Complete Date

The date the case is considered supply/services complete and all items and services have been delivered or performed. This date is obtained from the MILDEP execution systems.

Adjudicated Value

Applies to Army and Air Force only. Value of authorized SDR credit or debit.

Adjustment Reply Code

Applies to Air Force only. Code reported in block 23 of SF 364. Reply to SDR, which summarizes result of SDR processing. This code is subsequently reported on a billing adjustment transaction and transmitted through DFAS-IN to the customer. Additional codes can be found in DoD 7000.14-R, *Financial Management Regulation*, Chapter 8. Some common codes are:

- AA - Duplicate shipment is a result of duplicate requisition (adj value = 0).
- AB - Billing reflects correct price (adj = 0).
- AE - Quantity adjusted to unit pack; or shipment in accordance with requisition advice (adj value = 0).
- AF - Authorized substitute item not prohibited by requisition (adj value = 0).
- AG - Claim of less than \$100; loss or gain to be absorbed by customer. Valid on overage, shortage, non-receipt or damage type SDRs (adj value = 0).
- AI - Duplicate bill has already been reversed (adj value = 0).
- AJ - Credit has already been granted as a result of prior request (adj value = 0).
- AK - Shipment made by commercial carrier. US not responsible for damage (adj value = 0).
- AL - Evidence of shipment is provided with SDR Reply (adj value = 0).
- AN - Claim of less than \$25.00; loss or gain to be absorbed by customer. Valid on cases established before 1978 (adj value = 0).
- AO - SDR not received within allowable timeframe (adj value = 0).
- AP - SDR denied on FMS procured materiel in accordance with LOA, condition A2, no warranty provision (adj value = 0).
- BA - Local disposal of materiel authorized (credit authorized).
- BB - Return of materiel authorized (credit authorized on return).

- BD - Return of materiel to disposal activity (Air Force only).
- BX - Return of exhibit for analysis (Air Force only).
- CA - Request for debit billing is granted (debit authorized).
- CB - Request for credit billing is granted (credit authorized).
- CF - Request for refund of non-materiel costs, i.e. repair costs granted (credit authorized).
- DA - SDR previously processed and credit not granted (adj value = 0).
- DB - SDR previously processed and credit not granted (adj value = 0).
- DD - Billing previously rendered (adj value = 0).
- DG - Duplicate billing will be furnished (adj value = 0).
- DI - No financial adjustment authorized. Explanation provided in writing (adj value = 0).
- DJ - No record of previous request. Resubmit (adj value = 0).
- DK - Copies of shipping and acceptance documents are provided (adj value = 0).
- DM - Reply delayed 30 days. Matter being investigated (adj value = 0).
- DX - Request for SDR cancellation approved (adj value = 0).
- EB - Document number incomplete. Resubmit (adj value = 0). One number incomplete/missing (adj value = 0).
- EF - Records do not indicate duplicate shipment/billing on bill number (adj value = 0).
- EI - Resubmit claim with appropriate documentation (adj value = 0).
- EJ - Claim should be supported by confirmation of cancellation. Resubmit (adj value = 0).
- FA - Transportation reimbursement from freight forwarder to customer final destination on shipment of discrepant materiel.
- FB - Transportation reimbursement from CONUS POE of embarkation (POE) via DTS to final destination on shipment of discrepant materiel.
- FC - Transportation reimbursement from customer final destination to turn-in point for discrepant returns.
- FD - Transportation reimbursement for local disposal of discrepant materiel.
- FE - Transportation reimbursement for return of discrepant item or items to be repaired.
- FF - Packaging, crating and handling (PC&H) reimbursement for discrepant materiel returns.
- FG - Transportation reimbursement from freight forwarder to customer final destination on shipment of discrepant materiel and PC&H reimbursement for discrepant materiel returns.
- FH - Transportation reimbursement from CONUS POE via DTS to final destination on shipment of discrepant materiel and PC&H reimbursement for discrepant materiel returns.
- FI - Transportation reimbursement from freight forwarder to customer final destination on shipment of discrepant materiel; transportation reimbursement from customer final destination to turn-in point for discrepant returns; and PC&H reimbursement for discrepant materiel returns.
- FJ - Transportation reimbursement from CONUS POE via DTS to final destination on shipment of discrepant materiel; transportation reimbursement from customer final destination to turn-in point for discrepant returns; and PC&H reimbursement for discrepant materiel returns.
- FK - Transportation reimbursement for return of discrepant item or items to be repaired or replaced and PC&H reimbursement for discrepant materiel returns.
- FL - Actual transportation reimbursement.

- FM - Reversal of transportation reimbursement transaction previously processed.

Administrative CLSSA Value

Cooperative Logistics Supply Support Arrangement (CLSSA) charges on a (FMSO I) case.

Administrative Surcharge Percentage

Percentage of costs that are added to the base material or service value to determine the full cost to be charged to the customer.

Administrative Surcharge Value

The cost for administering sales made under the Arms Export Control Act (AECA). Captures manpower (both U.S. Government (USG) and contractor furnished) and other costs required to develop, execute and close FMS cases. These functions may be indirect (i.e., support across multiple customers/cases) or direct (i.e., support to a specific case or program).

Advice Code

Advice codes are numeric/alphabetic or numeric/numeric and provide coded instruction to supply sources when such data are considered essential to supply action and entry in narrative form is not feasible. The requisition transaction advice codes flow from requisition originators to initial processing points and are thereafter perpetuated into passing actions and release/receipt documents. The excess transaction advice codes flow from a DAAS facility to an ICP/IMM to indicate that the excess transaction has been edited by DAAS.

- 21 Combination of Advice Codes 2L and 2T
- 22 Combination of Advice Codes 2C and 2L
- 23 Combination of Advice Codes 2L and 2G
- 24 Combination of Advice Codes 2B and 2G
- 25 Combination of Advice Codes 2A and 2F
- 26 Combination of Advice Codes 2B and 2L
- 27 Combination of Advice Codes 2D and 2L
- 28 Combination of Advice Codes 2N and 2L
- 29 Combination of Advice Codes 2D and 2G
- 32 Combination of Advice Codes 2C and 2T
- 33 Combination of Advice Codes 2L and 2J
- 34 Requested item only will suffice. Do not substitute/interchange. Items required in one continuous length as expressed in RP 25-29 and unit of issue in RP 23-24. No other configuration is acceptable and/or multiples of the unit pack are not acceptable.
- 52 Applicable to 5S/2B combination, i.e., exchange requisition with delayed carcass return intended and substitute item not acceptable
- 58 Combination of 5D/2B
- 2A Item is not locally obtainable through manufacture, fabrication or procurement
- 2B Requested item only will suffice. Do not substitute/interchange. Also applies to "obsolete/inactivated" items previously rejected with status code CJ. When used in response to status code CJ, the submission of a new requisition will be on DD For
- 2C Do not backorder. Reject any unfilled quantity not available to meet SDD/RDD. Suitable substitute acceptable.

- 2D Furnish exact quantity requested (i.e., do not adjust to quantity unit pack unless adjustment is upward and the dollar value increase is not more than \$5.00 over the requisition's extended money value)
- 2F Item known to be coded "Obsolete" but still required for immediate consumption. Service coordinated/approved substitute is acceptable. If unable to procure, reject requisition with Status CJ.
- 2G Multiple use: (1) Ship new stocks or stocks having new appearance (2) Strategic mission requires latest model and configuration (for electronic tubes) (3) Strategic mission requires newest stock only (for photographic film or for aerial requirements fo
- 2J Do not substitute or backorder any unfilled quantities
- 2K Item being requisitioned from CONUS pursuant to the balance of payments program (To be used only bon OCONUS requisitioner)
- 2L Quantity reflected in quantity field exceeds normal demands; however, this is a confirmed valid requirement
- 2N Item required in one continuous length as expressed in RP 25-29 and unit of issue in RP 23-24. No other configuration is acceptable and/or multiples of the unit pack are not acceptable
- 2P Item required in one continuous length as expressed in RP 25-29 and unit of issue in rep 23-24. If requirement exceeds the unit pack length, multiples of the unit pack are acceptable.
- 2S Issue below established stock reservation levels is authorized. (To be used by Service owners of SMCA managed conventional ammunition items only.)
- 3B Item being requisitioned has been designated as commercial-type item. Unable to obtain item from commercial sources. Request supply of requisitioned quantity be accomplished against the FMS case reflected in RP 48-50.
- 3V Deliver to the ultimate consignee by the SDD entered heron or cancel requirement. Requisitioner will accept Condition E stock in a usable condition (ammunition stock only)
- 3W Furnish exact quantity requested (i.e.. do not adjust to unit pack quantity). Requisitioner will accept Condition E stock in a usable condition (ammunition stock only)
- 5D Initial requirement certification. Requested item is a mandatory turn-in repairable required for initial outfitting/installation or increased allowance/stockage objective. Therefore, no unserviceable unit is available for turn-in. USN only.
- 5F The stock number has recently been assigned. Do not cancel if unable to identify. Refer the requisition to the Inventory Manager (67-69). USN only.
- 5G Exchange certification. (1) Requested item is a mandatory turn-in repairable for which an unserviceable unit will be turned in on an exchange basis under the same document number as that used in the requisition; (2) Requested item is compressed gas for which an empty cylinder will be turned in on an exchange basis.
- 5S Remain-in-place certification. Requested item is a mandatory turn-in repairable for which an unserviceable unit will be turned-in on an exchange basis after receipt of a replacement (serviceable) unit. Turn-in will be on the same document number as that
- 5V Applicable to 5G/2B combination, i.e., exchange requisition with immediate carcass return intended and substitute item not acceptable. Exchange Advice Code. USN only.
- 6L Item is required for an AWP end item (not to be killed). USAF only.
- 6P Specifies "NEW AND UNUSED MATERIEL ONLY" will be shipped to satisfy this specific requirement. This code will be used by Air force for selected FMS case requisitions and will cause the phrase "NEW AND UNUSED MATERIEL ONLY" to be printed on the DD Form 1348-1, "DoD Single Line Item Release/Receipt Document," shipment.
- BB Item back ordered against a due-in to stock. The estimated shipping, date for release of material to the customer is in rp 70-73.

- BC Item on original requisition that contains this document number has been back ordered. Long delay is expected and estimated shipping
- BV Item procured and is on contract for direct shipment to consignee, The contract shipping date is in rp 70-73. Cancellation, if requested, may result in billing for contract termination and transportation costs, if applicable.
- CA For DLA, interservice and General Services Administration transactions, excluding excess transactions.
- FH Requisition will be default routed to Worldwide Warehouse Redistribution Services (WWRS).
- FW Requisition is force routed to WWRS (fill/kill category)

Amount Received from Purchaser

(Amendments and Modifications only) The amount received from purchaser is the funds received by DFAS to support this case. This is the amount that had been received when the payment schedule was prepared. If additional funds were received after the preparation of the payment schedule the additional payment(s) will not be included in this amount.

Anticipated Offer Comment

Comment about the Anticipated Offer Date.

Anticipated Offer Date

The Anticipated Offer Date (AOD) is the date that the case/case version is projected to be offered. The Implementing Agency will assign the AOD in DSAMS when the LOR is entered as "Complete" based on the AOD Group criteria as well as the purchaser's requirements, and when the document has been initialized in DSAMS.

Appropriation and Budget Activity Account Code

Applies to Army only. Code that identifies investment or expense type items. Investment items are purchased with procurement appropriations and sold to security assistance customers. Expense items are purchased by the stock fund and sold to all customers. It is required for Army budget preparation and accounting. Generally codes A through Q are assigned to principal investment items. Codes S through Z and numeric are assigned to stock/Capital Working Fund items. From DSAMS.

Code/Budget Appropriation Title:

- 2 - Stock Fund
- 3 - OMA Secondary Items
- 5 - OMA Major End Items
- 9 - Base Spares (owned by NC)
- A - Aircraft
- B - Modification of Aircraft
- C - Avionics Support Equipment, Ground Equipment
- D - Modification of Weapons & CTV
- E - Other Missiles
- F - Modification of Missiles
- G - Missiles Support Equipment
- H - Tracked Combat Vehicles
- J - Weapons & Other Combat Vehicles
- K - Ammunition
- L - Tactical Vehicles

- M - Non-Tactical Vehicles
- N - Telecommunications Equipment
- P - Other Comm/Elect Sys/Equipment
- Q - Other Support Equipment
- S - Aircraft Spare Parts
- T - Missile Spare Parts
- U - Weapons/Other Combat Vehicle Spare Parts
- V - Tracked Combat Vehicle Spare Parts
- W - Tactical/Non-tactical Vehicle Spare Parts
- X - Comm/Elect Spare Parts
- Y - Other Support Equipment Spare Parts
- Z - Special Weapon/Chemical Spare Parts

Availability / Lead Time

The number of months after the basic case was accepted that the line item is scheduled to be shipped to the purchaser.

Basic LOA Country Acceptance Date

The date original case was accepted.

Basic LOA Implementation Date

The date original case was implemented.

Benefitting Country Code

From DSAMS. Used in conjunction with non-FMS (pseudo) case codes. Appears on the Case Line Listing Screen. Further identifies the specific country receiving the material and/or services. See DOD 5105.38-M, *Security Assistance Management Manual (SAMM)*, Table C4.T2, Country, International Organization, and Regional Codes and FMS Eligibility.

Billing RIC

For Army and Navy: Three-position Routing Identifier Code (RIC) of the supply activity responsible for the delivery reporting of the material requisitioned. See [Routing Identifier](#) for codes.

For Air Force: One-character code on billing transaction indicating source of delivery report.

- G - Hill AFB, UT
- H -Tinker AFB, OK
- J - Air Force Security Assistance Training Group (AFSAT/RMC)
- L - Robins AFB, GA
- N - Air Force Materiel Command, Wright-Patterson AFB, OH

Blanket Order Case

Identifies the case as an agreement with the foreign country or international organization for a category of material or services with no definitive listing of items or quantities. The default value for this field is "N". This field is changed to "Y" when the case is categorized as a blanket order or a FMSO II case. Codes:

- Y = The case is a blanket order case.
- N = The case is not a blanket order case.

CAS Percentage

Identifies the percentage surcharge to be applied by DFAS-IN to all disbursements for FMS new procurement for which applicable contract administrative services charges have not been waived.

Cancelation Date

The cancelation date is the date that the basic document, amendment, or modification was canceled by the United States Government (USG).

Canceled

DSAMS will create this milestone when the case version status is changed to "Canceled".

Canceled Requisition Count

The total number of canceled requisitions.

Canceled Requisition Value

The total value of canceled requisitions. (Note: Some requisitions may have been canceled at zero dollar value, which may not allow you to easily determine the original obligated value of all canceled records.)

Case Description

A short description of the basic case, as entered by the IA. This description will be printed on the Letter of Offer and Acceptance (LOA).

Case Designator Code

Three-position alphabetic code that denotes a specific sales agreement between the USG and the international customer. Assigned by the IA at the time the LOA is developed. May not be unique across IAs. For list of codes see DOD 5105.38-M, *Security Assistance Management Manual (SAMM)*, Figure C5.F5.

Case ID

Six-position alpha/numeric case identifier, consisting of the Country Code, the Implementing Agency Code and Case Designator (i.e., BN-P-AAA).

Case Line Count

The number of OPEN Case lines on the implemented case.

Case Line Item Description

Text describing the item or military article assigned to the line.

Case Line Number

Identifies a detail line item on an LOA.

Case Line Quantity

The number of items associated with a case line.

Case Manager

Name of Case Manager as currently posted in DSAMS.

Case Nickname

A name normally used to easily identify a specific program or major weapon system sale.

Case Version

Identifies whether the Case Version is Basic (B), Amendment (A), Modification (M) or Implemented (I).

Case Version Description

Describes why the case version (Modification or Amendment) was initiated.

Case Version Number

(Amendments and Modifications) A case may have multiple amendments and modifications. To differentiate between amendments or modifications, each amendment or modification is assigned a number. So amendment 1 is the first amendment for a case and amendment 2 is the second amendment for the case. Modification 1 is the first modification for a case and modification 2 is the second modification for the case.

Case Version Status Date

The date of the associated case status.

Cases by Current Status Code Graph

Provides a current snapshot of the number of cases in each of the following statuses: I (Implemented), SSC (Supply/Services Complete), IC (Interim Closed), and C (Final Closed). Grouping/filter options: Implementing Agency (IA), Customer Service, Document Type, or Document Status.

Cash Collections

Collections received by DFAS-IN other than the Foreign Military Financing (FMF) program financed funds.

Closed

This milestone indicates that the case version status has been changed to "Closed".

Closure Candidate Code

Air Force Only: Identifies a case as a candidate for accelerated, interim, or final closure. N-undefined.

Closure Certificate Status Code

Indicates which type of closure certificate was issued:

- 1 - Non-ULO case closure.
- 2 - Interim closure under ULO procedures.
- 3 - Finalization of interim closure case after contract closed.

Closure Code

Indicates whether the case is open, or in one of various states of closure.

For Army:

- 0 - Open
- 1 - Certified for closure (Closure certificate sent to DFAS-IN.)
- 2 - Closed via DD 645 (DD645, notice of final billing, sent out from DFAS-IN to the customer and case is considered closed.)
- 3 - Revised certificate issued
- 9 - Canceled case

For Navy:

- blank - Active, no closure action pending
- Q - Supply and financial action has been frozen
- H - Case is not eligible for customer-submitted requisitions
- W - Supply complete
- I - ULO case is pending interim closure or is interim closed
- F - ULO case is pending final closure

- S - Non-ULO case is pending closure
- M - Case is closed by both Navy and DFAS (Final Closed Case in both MISIL and DIFS)

For Air Force:

- A - Abeyance in the system. Not yet implemented
- C - Line is cut-off from further requisitioning/activity.
- D - Case was established and is deleted.
- F - Case has been closed by DFAS-IN (could be interim or final closed).
- I - Case is open and active.
- M - Line item on an AFMC multi-line case that is supply complete.
- R - Case has been certified for closure. A certificate of closure has been sent to DFAS-IN and a C1 transaction has been sent in CMCS.
- S - Case is suspended due to sanctions directed by DSCA.
- X - Case is supply complete and the Notice of Supply/Services has been issued.

Closure Type Request Code

Indicates the type of closure requested.

For Army:

- 1 - Non-ULO case closure (final closure for a non-ACC participating country).
- 2 - Interim closure under ULO procedures (interim closure for an ACC participating country).
- 3 - Finalization of interim closure case after contract closed (final closure for an ACC participating country).

For Navy:

- 1 - Non-ULO case pending closure or closed
- 2 - ULO case pending interim closure or interim closed
- 3 - ULO case pending final closure or final closed
- Blank - All others

For Air Force:

- A - Pending closure type 1
- 1 - Case closed- non-participating country
- B - Pending closure type 2
- 2 - Interim closed - participating country - unliquidated obligation (ULO) exists
- C - Pending closure type 3
- 3 - Final closure - participating country - ULO cleared

Cognizance Symbol (COG)

A unique, Navy only, symbol used to identify the method of categorizing particular segments of Navy supply materiel. This code, which appears in the catalog data of each National Stock Number (NSN) listed in the Federal Logistics Information System (FLIS), quickly identifies the inventory manager of the NSN. Cognizance Symbols are used in all Navy supply documents. This includes those supply transactions for materiel managed by the Army, Air Force, DLA and GSA, even though these activities do not use COGs within their own supply distribution systems. Below is a list of COGs listed by Inventory Manager. Additional information can be found in Navy P485 Vol. II, Appendix 18.

Army Armament Command - 9H
 Army Communications Security Logistics Agency - 5L
 Army Electronics Command - 9Y
 Army Missile Command - 9S
 Army Security Agency - 5M
 Army Tank Automotive Command - 9A
 Army Troop Support and Aviation Material Readiness Command - 9W
 Army Troop Support Command - 9E
 Chief, Naval Education and Training (CNET) - 0K
 Civil Engineer Support Office (CESO) - 0N, 2C
 Commandant of the Marine Corps (CMC) - 0T
 Communications Security Material Systems - 2L
 Defense Energy Support Center (DESC) (formerly DFSC) - 9X
 Defense Supply Center Columbus (DSCC, formerly DCSC and DESC) - 3C, 3N, 9C, 9N
 Defense Supply Center Philadelphia (DSCP) (formerly DPSC and DISC) - 3Z, 9D, 9L, 9M, 9Z
 Defense Supply Center Richmond (DSCR) (formerly DGSC) - 3G, 9G
 Defense Special Weapons Agency - 0A
 Federal Aviation Administration - 9T
 General Services Administration (GSA) - 9Q
 Joint Cruise Missile Project Office - 2D
 MCLBLANT Albany, GA - 9O
 Military Sealift Command (MSC) - 0X
 National Imagery Mapping Agency - 2A
 National Weather Service - 9P
 Naval Air Systems Command (NAVAIR) - 0V, 2M, 2Q, 2V, 2W, 4K, 4V, 6V, 8E, 8M,
 Naval Inventory Control Point Mechanicsburg (NAVICP MECH)- 0J, 0M, 0O, 0S, 0U, 1H, 2B, 2E, 2Q,
 2T, 3H, 4E, 4T, 4Y, 6A, 6B, 6C, 6D, 6H, 6L, 6M, 6X, 6Y, 7E, 7G, 7H, 7N, 7Z, 8A, 8S, 8U
 Naval Inventory Control Point Philadelphia (NAVICP PHIL) - 0Q, 0R, 1R, 4R, 4Z, 5R, 6K, 6R, 7R, 8N
 Naval Mine Warfare Engineering Activity - 6T
 Naval Plant Technical Representative, Anaheim CA - 4X, 8X
 Naval Plant Technical Representative, Great Neck, NY - 8P
 Naval Plant Technical Representative, Pittsfield MA - 2P
 Naval Plant Technical Representative, Sunnyvale CA - 2X, 4P, 6P
 Naval Publications and Forms Directorate (NPFDD), Philadelphia, PA - 0I, 1I
 Naval Sea Systems Command (NAVSEA) - 0E, 2F, 2J, 2S, 8T
 Naval Supply Systems Command (NAVSUP) - 1B
 Naval Training Systems Center - 2O
 Navy Exchange Command (NEXCOM) - 1Q
 Ogden Air Logistics Center - 9I
 Oklahoma City Air Logistics Center - 9J
 Sacramento Air Logistics Center - 9K
 San Antonio Air Logistics Center - 5N, 5P, 9V
 Space and Naval Warfare Systems Command (SPAWAR) - 0L, 2Z, 4M
 Strategic Systems Programs Office (SSPO) - 0P
 Warner Robins Air Logistics Center - 9F

Combatant Command (COCOM)

Commands that have responsibilities to correlate programs with regional plans, provide military advice, support the SCOs, and contribute to the budget development process. The following are all COCOMs:

- Africa Command (AFRICOM)
- Central Command (CENTCOM)
- European Command (EUCOM)
- Northern Command (NORTHCOM)

- Pacific Command (PACOM)
- Southern Command (SOUTHCOM)

Contract Number

Identifies the contract used to procure the item.

Count

The number of records which share the same selected columns of non-summed data.

Counter Signature Required

Used to indicate whether DSCA Counter Signature is required on a Case, Amendment, or Modification before that Case or Change can be implemented. DSCA signs all Basic LOAs, all changes to MAP and Credit Funded Cases and changes that increase the case value by \$50,000. "Y" indicates DSCA Counter Signature is needed, and "N" indicates DSCA Counter Signature is not needed.

Country Code

Two-position alpha/numeric unique code assigned to denote a particular country or organization. See DOD 5105.38-M, *Security Assistance Management Manual (SAMM)*, C4.T2 for a complete list of country codes.

Country Follow-ups for Materiel Return

Applies to Navy and Air Force only.

For Navy: SDRs with Progression Code "EG", dates the 1st and 2nd follow-ups were sent to the customer to remind him to return the material.

For Air Force: A one-position code indicating the number of follow-ups sent to the customer for materiel returns.

Cumulative Amount Due

The actual cumulative amount due for the payments on the Case Payment Schedule.

Current Status Code

A two-position field. The requisition latest status code reflects the MILSTRIP status that last processed to a supply action. If the supply action is not shipped or canceled, the latest status code gives the disposition of the record at this specific time. See DOD 4000.25-1-M *Military Standard Requisitioning and Issue Procedures (MILSTRIP)*, Appendix 2.16, Requisition Transaction Status Codes, for definitions of all the codes. Some common codes:

- BA - Item being processed for release and shipment.
- BB - Item backordered against a due-in to stock.
- BD - Requisition is delayed due to need to verify requirements relative to authorized application, item identification. Upon completion of review or procurement, additional status will be provided to indicate action taken.
- BH - Service/Coordinated/approved substituted/interchangeable item, identified in stock number files will be supplied. Examine unit of issue, quantity and unit price fields for possible changes.
- BK - Requisition data elements have been modified as requested. Examine data fields in this status document for current requisition data.
- BP - Item is on backorder or procurement for direct delivery. Shipping action will be delayed.
- BQ - canceled. Results from receipt of cancellation request from requisitioner, consignee, manager, or other authorized activity. De-obligate funds, if applicable.
- BU - Item being supplied against your Foreign Military Sales Case Designator reflected in RP 48-50; or your Grant Aid Program and Record Control Number reflected in RP 46-50. This document represents a duplicate of the requisition prepared by the US Military Service.

- BV - Item procured and on contract for direct shipment to consignee. The contract shipping date is entered in RP 70-73. Cancellation, if requested, may result in billing for contract termination and/or transportation costs, if applicable.
- BW - Your FMS/Grant Aid requisition containing this document number has been received by the ILCO and submitted to the supply system.
- BZ - This requisition is being processed for direct delivery procurement. Upon completion of procurement action, additional status will be provided to indicate the action taken. The ESD is shown in RP 70-73.
- B4 - Confirms customer cancellation with termination charges. The price field contains "unit termination charge."
- B5 - The activity identified in RP4-6 is in receipt of your follow-up request. Action to determine current status and/or improve the ESD is being attempted. Further status will be furnished.
- B7 - Unit price change. The latest unit price for the item identified by the stock or part number in RP 8-22 is reflected in RP 74-80.
- CA - Rejected. (1) Initial provision of this status will be narrative message. The message will also state the reasons for rejection. (2) When provided in response to a follow-up this status will be sent via DSN and no reasons for rejection will be included.
- CB - Rejected. Initial requisition requested rejection of that quantity not available for immediate release or not available by the SDD or RDD. Quantity field indicates quantity not filled.
- CE - Rejected. Unit of issue in original requisition, which is reflected in RP 23-24 of this status document, does not agree with ICP unit of issue and cannot be converted. If still required, submit a new requisition* with correct unit of issue and quantity.
- CG - Rejected. Unable to identify requested items. Submit a new requisition and furnish correct NSN or Part Number. If correct NSN or part number is unknown or if Part Number is correct, submit a new requisition* on DD Form 1348-6 furnishing as much data as is available.
- CJ - Rejected. (1) Item coded (or being coded) obsolete or inactivated. Item in stock number field, if different from item requisitioned, can be furnished as a substitute. Unit price of the substitute item is in RP 74-80. (2) If offered substitute is desired, submit a new requisition* with substitute item stock number. (3) If only original item is desired submit a new requisition* for procurement on DD Form 1348-6. SF 344 may be submitted by authorized activities. Cite advice code 2B. Furnish technical data, e.g., end item usage, component, make, model, series, serial number, drawing, piece and/or part number, manual reference, applicable publication.
- CK - Rejected. Unable to procure. No substitute/interchangeable item is available. Returned for supply by local issue of components, kit, or next higher assembly. Suggest fabrication or cannibalization. If not available, submit a new requisition* for components, kit or next higher assembly.
- CQ - Rejected. Item requested is command or service regulated or controlled. Submit a new requisition* through appropriate channels.
- CS - Rejected. Quantity requisitioned is suspect of error or indicates excessive quantity. Partial quantity being supplied. Quantity field in this transaction reflects quantity rejected. If requirement still exists, submit a new requisition for the required quantity using Advice Code 2L.
- C2 - Rejected. ILP funds are not available to process this requisition. This code will be used between ILCO and requisitioners only.
- C8 - Rejected. Vendor will not accept order for quantity less than the quantity indicated in RP 76-80. If requirement still exists, submit a new requisition* for a quantity that is not less than that reflected in RP 76-80.
- ER - (Army Only) Rejected because item requested cannot be identified by the Publications Center.

- MA - (AF Only) Item released for shipment or services actually completed; updates Estimated Completion Date (Control Date-1) and updates unit price.
- MC - (AF Only) Increase to unit price which funds against open custom ordered value (Value controlled custom ordered only).
- MH - (AF Only) Change Air Force appropriations code on value controlled custom ordered.
- MZ - (AF Only) Decrease in unit price which funds against open custom ordered for the committed value. (Value controlled custom commitment only).
- RN - (Army Only) Publication not releasable to foreign countries US - rejected because the unit of issue is incorrect.
- UI - (Army Only) Publications unit of issue incorrect.

*Submit a new requisition using a new document number with a current Julian date.

Current Status Date

A five-position date consisting of the last two positions of the calendar year and the Julian data contained in the supply or shipment transaction that posted to a supply action.

Current USG Financial Requirements

(Amendment and Modification only) The amount that is required by the USG to fund expenditures and termination liability at implementation of the document.

Customer Accepted Date

The customer accepted date is the date that the purchaser signed the Letter of Offer and Acceptance (LOA) or amendment.

Customer Request Completion Date

The date that all information required to prepare a case document has been provided by the purchaser to the Implementing Agency.

Customer Request Date

The date placed on the Customer Request by the Customer Organization.

Customer Request ID

A code automatically generated by DSAMS that uniquely identifies a customer request

Customer Request Receipt Date

The customer request receipt date is the date that the Implementing Agency received the Letter of Request (LOR) from the purchaser.

Customer Request Reference

The text used by the Customer Organization to uniquely identify the request letter.

Customer Request Status Code

The current status of a customer request. Codes are New(N), Complete(C), Incomplete(I) or Cancelled(X). This field is for information purposes, and does not affect the processing of a case version.

Customer Request Status Date

The date that the current Customer Request Status Code was changed.

Customer Requisitions Allowed

Identifies the case as being eligible for customer requisitioning/requisition case forecasting procedures. This DSAMS code is not currently used by the legacy systems to allow/disallow

requisitioning, but is intended for future use.

Codes:

- Y = Case is eligible for customer requisitioning/requisition case forecasting procedures
- N = Case is not eligible for customer requisitioning/requisition case forecasting procedures

NOTE: If the entry is not selected in DSAMS, the default is NO. The SCIP Case Detail Report may show NO even on blanket order or CLSSA cases.

Customer Service

A one-character field for the unique identifier that represents the military service of the purchasing country. Codes:

- B - Army
- D - Air Force
- K - Marine Corps
- P - Navy
- T - Other
- U - Not yet selected or determined

See DOD 5105.38-M, *Security Assistance Management Manual (SAMM)*, Chapter 5.

Customer Service Type ID

See Customer Service.

DFAS-IN Billing Date

Date from Column (5) of the DD645 Quarterly Billing Statement. Indicates date bill prepared.

DSCA Approval Required

Used to indicate whether DSCA Counter Signature is required on a Case, Amendment, or Modification before that Case or Change can be implemented. DSCA signs all Basic LOAS, all changes to MAP and Credit Funded Cases and changes that increase the case value by \$50,000. "Y" indicates DSCA Counter Signature is needed, and "N" indicates DSCA Counter Signature is not needed.

DSCA Countersignature Date

The Defense Security Cooperation Agency (DSCA) countersignature date is the date that DSCA signed/approved the Letter of Offer and Acceptance (LOA), amendment, or modification document.

Date Established

The date the record was established in the applicable system.

Date Financially Complete

Date of SDR financial completion.

Date Logistically Complete

Applies to Army and Air Force only. The date the SDR was closed in CISIL or SAMIS.

Date Materiel Return Suspense

Applies to Navy and Air Force only. For SDRs requiring return of materiel, the deadline for the materiel to be returned to the USG for credit.

Date Materiel Turned-in

Applies to Air Force only. For SDRs requiring return of materiel, the date evidence of materiel return is received by the SDR Division at AFSAC.

Date Offered

The date on which the case version status is changed to "Offered".

Date Received - SF364

The date the SDR was received at USASAC, NAVICP-OF or AFSAC.

Date Sent to Customer

The date sent to customer is the date that the Implementing Agency forwards the Letter of Offer and Acceptance (LOA), amendment, or modification document to the purchaser for signature.

Date Sent to Source of Supply

Date requisition was forwarded to action agency (SOS).

Date of Shipment

The date the Source of Supply shipped the freight to the customer.

Days Past AOD (Real Time Metrics)

Document Sent Date - Anticipated Offer Date (AOD). Negative numbers indicate the Letter of Offer and Acceptance (LOA) was sent before the AOD. Average Days Past AOD = Sum of Days Past AOD column / # of records in the detail data grid.

Days Until AOD (Real Time Metrics)

Anticipated Offer Date (AOD) - System Date (today's date). Negative numbers indicate the AOD has passed. Average Days Until AOD = Sum of Days Until AOD column / # of records in the detail data grid.

Days Until OED (Real Time Metrics)

Offer Expiration Date - System Date (today's date). Negative numbers indicate the OED has passed.

Deleted Line

Indicates the line was marked as deleted in DSAMS.

Delivery Set End

The number of months after case implementation when the last item from the delivery set should be delivered.

Delivery Set Lead Time

The amount of time in months from case implementation that it will take to deliver the delivery set.

Delivery Set Quantity

The number of items being shipped within the delivery set.

Delivery Set Start

The number of months after case implementation when the delivery set will start shipment.

Delivery Term Code

The delivery term code (DTC) identifies the point to which the United States Government is responsible for moving the FMS customer's item. Delivery term codes are shown on the Letter of Offer and Acceptance in column (7), and on the MILSTRIP requisition in record position 34. Codes:

- 2 - To a CONUS inland point (or overseas inland point when the origin and destination are both in the same geographic area) such as a staging location.
- 3 - At the CONUS POE alongside the vessel or aircraft.

- 4 - Delivery at origin. Purchaser has full responsibility at the point of origin. Often forwarded collect to country freight forwarder.
- 5 - At the CONUS POE on a CBL/GBL using DTS. If using a Freight Forwarder, DTC 5 indicates delivery to that Freight Forwarder on a CBL/GBL.
- 6 - At the overseas POD on board the vessel or aircraft.
- 7 - At the overseas inland destination on board the inland carrier's equipment.
- 8 - At the CONUS POE on board the vessel or aircraft.
- 9 - At the overseas POD alongside the vessel or aircraft.
- 0 or Blank - Transportation is not applicable.
- A - US/DoD is responsible for transportation from an overseas POE to a CONUS destination and return to overseas POD.
- B - US/DoD is responsible for transportation from an overseas POE to a CONUS destination, return to a CONUS POE, and port handling.
- C - US/DoD is responsible for CONUS port unloading, transportation to a CONUS destination, return to a CONUS POE, and port loading of a country's carrier.
- D - US/DoD is responsible for CONUS port unloading of country carrier, transportation to a CONUS destination, and return to overseas POD.
- E - Customer has total responsibility for transportation.
- F - US/DoD has total responsibility for transportation.
- G - US/DoD is responsible for all transportation except overseas inland transportation.
- H - US/DoD is responsible for transportation from a CONUS activity to a CONUS POE.
- J - US/DoD is responsible for transportation from a CONUS activity to an overseas destination.

Demand Code

The demand code is a mandatory one position entered in RP 44 of a requisition by the requesting activity. Army and Navy demand codes N or R. Air Force demand codes are I, N, P and R.

- I - Inactivated item demand
- N - Nonrecurring demand
- P - Nonrecurring demand for special program requirements.
- R - Recurring Demand

Discrepancy Code

Indicates reason why a Supply Discrepancy Report was established against an item. The following codes are used to provide a description of the discrepant condition. Multiple codes may be used on a single report. Preprinted codes on the face of the SF 364 may be supplemented from this list of codes. See DoD 4000.25-M, V2, C17, *Reporting of Supply Discrepancies*, Enclosure 4, for complete listing.

- C1 - In a condition other than shown on supply document or on the supporting inspection/test certificate.
- C2 - Expired shelf life.
- D1 - Supply documentation not received with material.
- D2 - Supply documentation illegible or mutilated.
- M1 - Material improperly addressed and shipped to wrong activity.
- O1 - Quantity received is more than quantity shown on the supply document.

- O2 - Quantity received is more than quantity requested plus variance, if applicable (other than unit of issue or unit of pack).
- O3 - Quantity duplicates shipment.
- P1 - Improper preservation.
- P2 - Improper packing.
- P3 - Improper markings.
- P4 - Improper unitization (includes palletization and containerization).
- Q1 - Product quality deficiency.
- Q2 - Quality deficiency, contractual noncompliance.
- Q3 - Design deficiency item requires change in design.
- S1 - Quantity received is less than quantity indicated on supply documentation.
- S2 - Quantity received is less than quantity requested minus variance, if applicable than unit of issue or unit of pack.
- W1 - Incorrect item received.
- W2 - Unacceptable substitute received.
- W3 - Incorrect item received, but not identifiable to a NSN or part number.
- Z1 - Other discrepancy - see remarks.
- Z2 - Repetitive discrepancy. (Must use in combination with other codes or describe in Remarks. Not applicable to Security Assistance.)

Distribution Code

A code that identifies the ILCO system which will process the input transaction (and receive status from the supply source). Codes:

- Army/CISIL: B
- Navy/MISIL: F
- Air Force/SAMIS: N

Document Identifier

The first three record positions (RP 1-3) of a requisition record uniquely identify the type of requisition record. Additional codes can be found in DoD 4000.25-1-M *Military Standard Requisitioning And Issue Procedures* (MILSTRIP), Appendix 2.1. Some common identifiers are:

- A01 - Requisition for overseas shipment with NSN/NATO stock number.
- A02 - Requisition for overseas shipment with part number.
- A04 - Requisition for overseas shipment with other identifying data (such as publications).
- A05 - Requisition for overseas shipment with exception data. Use when item has a part number and additional technical order information is needed to identify the item.
- A0A - Requisition for domestic shipment with NSN/NATO stock number (USA, Canada and Mexico only).
- A0B - Requisition for domestic shipment with part number (USA, Canada and Mexico only).
- AE1 - Supply Status To requisitioner (RP 30-35).
- AE2 - Supply Status To requisitioner (RP 30-35) with status code BW or N8.
- AEA - Supply Status for service/country prepared FMS and grant aid requisitions with NSN/NATO stock number.

- AS1 - Shipment Status To requisitioner (RP 30-35).
- AS2 - Shipment Status To supplementary address (RP 45-50).
- BLA - Contract Deliverable Advisement Acknowledgement of Navy contracts processed through MISIL.
- BLB - Contract Deliverable Supply Status Supply status on Navy contracts processed through MISIL.
- BLC - Contract Deliverable Shipment Status Shipment status on Navy contracts processed through MISIL.
- BMB - Publications Requisition for Army Publications ordered through STARR-PC.
- X01 - NAVILCO Initiated Requisition/Requisition Establish
- X04 - NAVILCO Initiated Requisition/Requisition Establish
- X05 - NAVILCO Initiated Requisition/Requisition Establish
- X0A - NAVILCO Initiated Requisition/Requisition Establish
- X0E - NAVILCO Initiated Requisition/Requisition Establish
- X0F - NAVILCO Initiated Requisition/Requisition Establish
- X0J - NAVILCO Initiated Requisition/Requisition Establish
- X5C - Establish Deliverables.
- X5V - Establish Deliverables (used in YR-SUPHST).
- XD6 - Manual MRRL Request (Army & Air Force) - this is created in STARR/PC and is a request to return a Repair & Return Item.
- XG3 - Rejected Customer Requisition
- XKJ - Post Procurement
- XL1 - Package Requisition
- XL4 - Package Requisition Inquire/Update
- XPI - Establish/Update Local Procurement
- XZ9 - Suballotment Requisition
- XZI - NAVILCO Initiated RPO Requisitions - IDA Processing
- XZQ - Reinput Package Requisition
- ZP1, ZT1 - Requisition Same as A01. Used by U.S. Army to identify major items.
- ZP5, ZT5 - Requisition with exception data. Same as A05. Used by U.S. Army to identify major items with exception data.
- ZP4, ZT4 - Requisition Used by U.S. Army to requisition ammunition with DODIC/DODAC.
- ZW5 - Used by USASAC to post billing.

Document Initialization Date

The date when a case version is initialized.

Document Sent from IA

This milestone is entered to indicate when the document (LOA, amendment, modification, etc.) has been sent to the customer.

Document Status Code (aka Case Version Status Code)

Identifies the status of the case. Codes are:

- D - Development. (LOR Received and LOA being developed.)
- W - Writing. (MILDEP has completed entering and updating the LOA and it is now resident in the Case Writing Division for addition of the payment schedule and standard notes.)
- R - Review. (Case Writing Division is done with their part of the case version preparation.)
- P - Proposed. (Awaiting MILDEP signature and DSCA countersignature.)
- O - Offered. (LOA countersigned by DSCA and the MILDEP has sent the LOA to the customer for acceptance.)
- A - Accepted. (Customer returned Accepted LOA to the MILDEP.)
- I - Implemented. (Obligational Authority issued, case is Implemented and available for execution.)
- SSC - Supply/Services Complete. (MILDEP declares the case Supply/Services Complete. No new requisitions allowed.)
- IC - Interim Closed. (Final expenditures estimated and collected (ULO). Case at DFAS-IN. Final bill issued to customer.)
- C - Final Closed (DFAS-IN declares all final expenditures received.)
- X - Canceled

Document Type Code (aka Case Version Type Code)

The type of document (B = basic case (Letter of Offer and Acceptance (LOA)), A = amendment, M = modification, I = current implemented version (the latest implemented information for the case).

Documents by Current Status Code Graph

Provides a current snapshot of the number of documents in each of the following statuses: D (Development), W (Writing), R (Review), P (Pending), O (Offered), A (Accepted), I (Implemented), and X (Canceled). Grouping/filter options: Implementing Agency (IA), Customer Service, Document Type, or Document Status.

Due with Acceptance

(LOA and Amendments only) The due with acceptance is the amount that is to be provided to DFAS-IN with acceptance of the document. Any payments made by the Purchaser that exceeds the "Amount Received from Purchaser" are to be deducted from the "Due with Acceptance" amount.

Estimated Accessorial Value

Total of estimated administrative costs, estimated other costs, estimated packaging, crating, and handling costs, and estimated Supply Support Arrangement charge for a case. Value is computed when required on an output report or product.

Estimated CAS Value

The amount of approved contract administration services cost that has been estimated for the case.

Estimated Closure

This milestone is entered to indicate the estimated date that the Case Closure Certificate will be submitted.

Estimated Closure Date

The estimated closure date for the Case.

Estimated LSC Value

The estimated value that DFAS-IN adds to an 'NA' performance reporting transaction for logistics support. This value is not recorded in the case general ledger accounts. Collection of LSC was discontinued on 1 October 2007.

Estimated Ship Date

The date that the Customer Organization can expect to begin receiving Case Line items.

Estimated Supply/Services Complete Date

The estimated date which the case will be considered supply service complete and all items and services will be delivered. This is calculated by evaluating each line on a case and determining the greatest value between the available lead time and the performance period end then adding that value to the implemented date of the basic case.

Estimated Total Line Value

The estimated value of the above-the-line and below-the-line costs for the line.

Extended Price

The original extended price amount is the total value of a material or service requisition at the time of establishment. This element is computed by multiplying the requisition transaction quantity by the unit price of the item ordered. For requisitions that do not contain a national stock number, the original extended value is based upon the requisition's unit price, cognizance symbol, and a default value.

FMF Collections

Funds deposited into the FMS Trust Fund at DFAS-IN which are applicable to the Military Assistance Program (MAP) and/or the FMS Credit program.

Federal Condition Code

Used when items are available as Excess Defense Articles (EDA). Code reflects the degree of serviceability, condition and completeness in terms of readiness for issue and use. Also when commercial items are programmed in "Dollar Lines" or as "Each Items". A two-character combination of a Supply Condition Code and a Disposal Condition Code. See DoD 4000.25-2-M, *Military Standard Transaction Reporting and Accounting Procedures (MILSTRAP)*, Appendix 2.25. Supply codes are:

- A - Serviceable - Issuable without Qualification.
- B - Serviceable - Issuable with Qualification.
- C - Serviceable - Priority Issue.
- D - Serviceable - Test/Modification.
- E - Unserviceable - Limited Restoration.
- F - Unserviceable - Repairable.
- G - Unserviceable - Incomplete.
- H - Unserviceable - Condemned.
- S - Unserviceable - Scrap.

Disposal Codes are:

- 1 - Unused (Good).
- 4 - Used (Good).
- 7 - Repairs Required.
- X - Salvage.
- S - Scrap.

Federal Supply Codes are: A1, A4, B1, B4, C1, C4, D1, D4, D7, E7, F7, G7, H7, and HX.

Financial Implementation

DSAMS creates this milestone when DFAS indicates that all financial requirements have been met (initial deposit received). NOTE: This does not necessarily mean that the case version has been implemented in DSAMS.

Financial Implementation Date

The financial implementation date is the date the Defense Finance Accounting Service (DFAS-IN) receives, from the purchaser, the amount due with acceptance for the Letter of Offer and Acceptance (LOA) or amendment.

Follow-up Trigger Date

The date that a follow-up will be generated to the source of supply if additional status is not received on a supply action. The additive used in determining this date may be based upon the estimated availability date, priority, and the latest status of supply. When this date is reached with no change in status of the supply action, then a follow-up will be generated in order to obtain more current status.

Fund Code

Denotes the billing activity and accounting classification. The billing activity code is the first position and the appropriation code is the second position. This 2-digit code is provided for the specific use of the requisitioner to indicate the funds to be charged. Some common codes:

For Air Force:

- 4E - Reimbursable
- 4F - Direct Cite
- NU - Programmed CLSSA support
- 3L - Interfund or reimbursable Air Force.
- 4U - NGA Direct Cite
- 4X - PROS

For Army:

- BM, MS - DFAS, Rome, IT
- GE - FMS
- GU - DFAS OPLOC St. Louis for CECOM
- HB, LL, LU - DFAS OPLOC St. Louis for AMCOM
- KU - DFAS OPLOC St. Louis for TACOM
- MI, MM, MU - DFAS OPLOC St. Louis
- YE, YF, YP - US Department of Agriculture, New Orleans
- YT, YY - DFAS Norfolk, VA

For Navy: Not used.

Generic Code

A three-position code assigned in the Military Articles and Services List (MASL) to classify articles and services according to the budget activity/project account classification and to aggregate articles and services into generic groupings for management purposes.

See DoD 5105.38-M, *Security Assistance Management Manual* (SAMM), Appendix 4 for a list of all the codes.

Historic Implemented Cases Graph

Provides the total number of historic implemented cases for a selected number of months or years (maximum 10 years), based on the date of implemented status. Grouping/filter options: Implementing Agency (IA) or Customer Service.

Historic Implemented Documents Graph

Provides the number of implemented documents (Basic, Amendments, and Modifications) for a selected number of months or years (maximum 10 years), based on the date of implemented status. Grouping/filter options: Implementing Agency (IA), Customer Service, or Document Type.

Implementation Date

The implementation date is the date that the Letter of Offer and Acceptance (LOA), amendment, or modification was implemented by the United States Government (USG).

Implemented

The implementation date is the date that the Letter of Offer and Acceptance (LOA), amendment, or modification was implemented by the United States Government (USG).

Implementing Agency ID

The Department of Defense Component responsible for the execution of programs under the Arms Export Control Act (AECA) or FAA of 1961, as amended. Codes:

- B - Army
- C - Defense Information Systems Agency (DISA)
- D - Air Force
- E - U.S. Army Corps of Engineers (COE)
- F - Defense Contract Management Agency (DCMA)
- I - Missile Defense Agency (MDA)
- K - Marine Corps
- L - U.S. Defense Audio Visual Agency (DAVA) (Transactions prior to 1 Oct 85)
- M - Army (Other)
- P - Navy
- Q - Defense Security Cooperation Agency (DSCA)
- R - Defense Logistics Agency (DLA)
- S - Office of the Secretary of Defense (DLA) Security Assistance Training Field Activity (SAFTA)/Training
- T - Security Assistance Training Field Activity (SAFTA)/Training
- U - National Geospatial-Intelligence Agency (NGA)
- V - Defense Contract Audit Agency (DCAA)
- W - Defense Advanced Research Projects Agency (DARPA)
- X - Defense Finance and Accounting Service - Indianapolis Center (DFAS-IN)
- Z - Defense Threat Reduction Agency (DTRA)

Interest Bearing Account Balance

Memo entry subset of the Cash Collections value, identifying how much of that amount (if any) is deposited in an Interest Bearing Account.

Interfund Bill Number

Applies to Army and Air Force only. A number that is assigned by the billing activity as a control number for Interfund bills.

LOA Sent Date

The date on which the document (LOA, amendment, modification, etc.) has been sent to the customer.

LOR Receipt Date

The date the LOR was received, or if additional information or clarification is required, the date it was received from the customer.

Last Implemented Amendment

This is the case version and amendment number of the latest implemented version of the case.

Last Implemented Document

This is the case version and amendment OR modification number of the latest implemented version of the case. It is also the last document (amendment/modification) posted to the system.

Last Implemented Document Date

The last implemented document date is the date of the most recently implemented Letter of Offer and Acceptance (LOA), amendment, or modification.

Last Implemented Modification

This is the case version and modification number of the latest implemented version of the case.

Line Item

Identifies a detail line item on an LOA.

Line Manager

The line manager associated with the line's current operating agency responsible for managing the line.

Longest Availability / Lead Time

The longest number of months after the basic case was accepted that the line item may be scheduled to be shipped to the purchaser. This is calculated by evaluating each line on the implemented version of each case and determining the greatest value among them.

MASL Number

A 13-position alpha/numeric field consisting of the Federal Supply Classification (FSC) and the National Item Identification Number (NIIN). The FSC is a DoD code used to classify materiel, identified under the Federal Cataloging Program. The FSC contains four digits. The first two digits identify the Federal Supply Group (FSG) and the last two digits identify the Federal Supply Class within each group. The NSN for an item consists of the applicable four-digit FSC, two-digit NCB Code, and a seven-digit National Item Identification Number (NIIN). All major items of materiel (except ammunition) listed in the MASL are identified by a specific NSN where one has been assigned by Defense Logistics Information Service (DLIS). Major items are assigned the proper FSC and a pseudo NIIN by the responsible MILDEP when an NSN has not been assigned as in the case of ships and aircraft.

For further details see DOD 5138.5-M, *Security Assistance Management Manual* (SAMM), paragraph 13.6. and DSCA Handbook 7003.

Managing RIC

See Routing Identifier Code (RIC). The source of supply or organization responsible for item management.

Military Department Signature

Date US Representative of his Authorized Designee signed the Letter of Offer. Indicates date formal offer is made to a foreign buyer. Case status code must be "O".

Mode of Shipment

One-digit alphabetic or numeric character which identifies the initial method of movement by the shipper. See DoD 4500.9-R, *Defense Transportation Regulation, Part II, Cargo Movement*.
Code/Description:

- A - Motor, truckload
- B - Motor, less truckload
- C - Van (unpacked, uncrated personal or government property)
- D - Drive-away/truck-away/tow-away
- E - Bus
- F - Air Mobility Command (AMC) Channel and Special Assignment Airlift Mission (SAAM)
- G - Surface parcel post
- H - Air parcel post
- I - Government trucks, for shipment outside local delivery area
- J - Air-small package carrier
- K - Rail, carload (Note 1)
- L - Reserved
- M - Surface-Freight forwarder
- O - Organic military air (including aircraft of foreign governments)
- P - Through Government Bill of Lading (TGBL)
- Q - Commercial air freight including regular and expedited service (provided by major airlines) air charter, and air taxi
- S - Scheduled Truck Service (applies to contract carriage, Federal Acquisition Regulation based contracts routings and/or scheduled service)
- T - Air freight forwarder
- V - SEAVAN
- W - Water, river, lake, coastal (commercial)
- X - Bearer, walk-through (customer pickup of material)
- Y - Military intratheater airlift service (other than AMC airlift)
- Z - Military Sealift Command (MSC); controlled contract, or arranged
- 2 - Government watercraft, barge, or lighter
- 3 - Roll on/roll off (RORO) service
- 4 - Defense Courier Service
- 5 - Surface--Small package carrier
- 6 - Military Official Mail (MOM)
- 7 - Express mail.

NSN/ Part/ Reference Number

A number assigned under the Federal Cataloging Program to each approved United States Federal Item Identification. It consists of the four-digit Federal Supply Classification (FSC) and the nine-digit

assigned National Item Identification Number (NIIN) followed by the four-digit DOD Ammunition Code if needed. This item is part of the description column of an LOA and also shown in record positions 8-22 of the MILSTRIP requisition.

NSN/ Part/ Reference Number Received

Identifies the material/service received by the customer.

NSN/Part/Reference Number Requisitioned

Identifies the material/service requisitioned by the customer.

Navy Accounting System

Applies to Navy only. Identifies whether the Navy-managed case was implemented in the Management Information System for International Logistics (MISIL) or the Standard Accounting and Reporting System (STARS).

Net Case Value

The sum of all above-the-line costs for this case. Does not include below-the-line costs administered by DFAS-IN.

Net Line Value

The sum of all above-the-line costs for the line. It does not include below-the-line costs.

Nomenclature

A name which has been selected and delimited where necessary to establish a basic concept of the item of supply to which the item belongs. It may be a basic noun or noun-phrase followed by those modifiers necessary to differentiate between item concepts for items having the same basic noun.

Offer Acceptance Date/Offer Accepted by Customer

The date the customer signs the Letter of Acceptance.

Offer Expiration Date (OED)

The date on which the FMS offer to sell defense articles and/or services to the foreign customer lapses. This date appears on the letter of offer and on amendments to the letter of offer. It is generally 85 days from the date the offer is forwarded to the DSCA countersignature. See DoD 5105.38-M, *Security Assistance Management Manual (SAMM)*, Figure C5.F5, paragraph 5.

Offer Release Code

Identifies four possible codes which identify the conditions under which the shipment of the material will be released to the purchasing country. Codes:

- A - Freight and Parcel Post shipments will be released automatically by the shipping activity without advance notice
- X - The U.S. Service and country representative have agreed that the U.S. Service will sponsor the shipment to a country address and shipments are to be made to a assembly point or staging area.
- Y - Advance notice is required before release of shipment, but the shipment can be released automatically if release instructions are not received by the shipping activity within fifteen calendar days. Parcel Post shipments will be automatically released.
- Z - Advance notice is required before release of shipment. Shipping activity will follow-up on the Notice of Availability until release instructions are furnished. Parcel Post shipments will be automatically released.
- blank - Indicates that the first offer release code does not apply to the line or that it has not yet been approved.

Offer/Acceptance Comparison Graph

Provides a count of all case versions within four categories (Offered/Accepted, Offer Expired/Not Accepted, Offer Due to Expire within 14 Days, and Offer Due to Expire in 15 or more days) for a selected number of months based on the offer expiration date. The Days Until OED is calculated by subtracting the current date from the OED. A negative number (in parenthesis) indicates the OED has passed; a positive number indicates the customer still has time to accept the offer. Grouping/filter options: Implementing Agency (IA) or Customer Service.

Offered

DSAMS creates this milestone when the case version status is changed to "Offered".

Open Offers Graph

Provides the number of case versions in an offer status where the Offer Expiration Date (OED) is 15 or more days in the future (green) and 0-14 (yellow) days in the future. It also shows those where the OED has passed (red) as compared to the current date. The Days Until OED is calculated by subtracting the current date from the OED. A negative number (in parenthesis) indicates the OED has passed; a positive number indicates the customer still has time to accept the offer. Percentages are calculated based on the number of case versions for each OED group compared to the overall number of case versions for all three OED groups. Grouping/filter options: Implementing Agency (IA) or Customer Service.

Other Accessorial Value

A PLANNED below-the-line estimate of costs established to cover special accessorial costs. Actual "Other Accessorial" costs are applied by DFAS-IN, based upon information provided by the IAs.

Part Number Requisitioned

Material/service being provided by a supply action.

Performance Period End

The ending month of the period of time a service will be provided.

Performance Period Start

The starting month of the period of time a service will be provided.

Previous Payment Date

(Amendments and Modifications only) The previous payment date is the last quarterly payment on the last implemented document that affected the payment schedule that is prior to the date that the payment schedule was created.

Previous Payments Scheduled

(Amendments and Modifications only) The previous payments scheduled is the amount scheduled to be paid up through the previous payment date. This is based on the last implemented document that affected the payment schedule.

Priority

Designates the equated combination of Force Activity Designator and Urgency of Need. Shown in record positions 60-61 of the MILSTRIP requisition.

Processing RIC

The actual shipping activity which received the material release order. See [Routing Identifier](#) for codes.

Programmed Case Value

The Programmed Case Value equals the combined value of reported Commitments, Obligations, Expenditures and other above-the-line costs (such as CAS, LSC and non-recurring costs) incurred to date, as reported by the IAs to the DSAMS system.

Progression Code

Identifies the current status of Supply Discrepancy Report.

For Army:

- A - Date of preparation by customer.
- B - Date entered into the computer at USASAC.
- C - Date SDR sent to supply source.
- D - Date SDR sent to shipping depot for proof of shipment.
- E - Date returned to USASAC by the supply source or date forwarded to USASAC's product assurance for evaluation.
- F - Date returned by supply source with debit/credit authorized.
- G - Date USASAC forwards request for additional information to country per supply source's request.
- I - Date USASAC receives additional information from the country or the shipping depot and forwards the information to the supply source.
- J - Date supply source responds to additional information with their proposed settlement of SDR (other than disposition instructions).
- K - Date disposition instructions received from supply source.
- L - Date USASAC forwards disposition instructions to country. Country has 180 days to respond.
- N - Date USASAC receives evidence that country is returning material and forwards to supply source.
- O - Date SDR held at USASAC for a policy decision from a higher authority or package prepared for SDR review board.
- P - Date supply source authorized billing adjustment and sends request for billing adjustment to the comptroller.
- Q - Date irresolvable SDR sent to USASAC for processing of approved credit.
- R - Date SDR valued less than \$300 sent to USASAC for processing.
- X - Date DFAS-IN "FK" record processed.
- Y - Date completion notice forwarded by USASAC to country. Country has 90 days to request reconsideration response, they have an additional 90 days to contest the SDR.
- Z - Records are automatically moved to date Z after two years at date Y. Records residing at date Z will be deleted from designated reports/products.

For Navy:

- BA - Credit granted by U.S. Supply System.
- BB - Credit granted by ILCO.
- BC - SDR completed - NZ issued to DFAS-IN.
- BD - Evidence of shipment provided (non-parcel post).
- BE - Proof of delivery was provided (parcel post).
- BF - Rejected based on time frame.
- BG - Rejected based on dollar limitation.
- BH - Rejected, no billing discrepancy exists.
- BJ - Rejected, services or work request.
- BK - Misdirected shipment, disposition instructions provided.
- BL - No financial adjustment made, disposition instructions provided.

- BM - Item received is an acceptable substitute.
- BN - Debit action taken.
- BP - DD364 does not contain required information.
- BQ - canceled per customer request.
- BR - Material supplied from procurement.
- BT - Material shipped/received as ordered.
- BW - Rejected; turn in not received.
- BX - Research reveals no discrepancy.
- CA - Missing or unprocessable document number: cannot be corrected.
- CB - SDR being processed under replacement number; this SDR deleted.
- CC - Unacceptable multiple SDR submission.
- CD - Extended value of SDR record greater than requisition.
- CE - Billing only; SDR canceled. Research response, no adjustment required.
- CF - SDR rejected; cannot be identified to a detail level requisition.
- CG - Shipment data missing with discrepancy code S3-S4.
- CH - Shipment data missing; not discrepancy code S3-S4.
- CI - Canceled by ILCO due to establishment error progression code.
- CJ - SDR submitted after one year.
- CK - SDR value \$100 or less for overage, shortage, or damage.
- CL - Stock number is same as originally ordered.
- CM - Substituted number is correct item of supply.
- CN - Insured/registered/certified (IRC) present; submit claim with carrier.
- CP - ILCO confirmed denial.
- CQ - Acceptable wrong item.
- CR - Acceptable condition discrepancy.
- CS - Reply status "A", request denied.
- CT - Completed by ILCO without adjustment action.
- CU - Rejection based on shipping information.
- CV - Acceptable misdirected shipment.
- CW - SDR canceled.
- CY - Material shipped by traceable parcel post.
- CZ - Parcel post discrepancy; damaged/not received.
- EA - Reply status "B" or "C" system adjustment will be granted.
- EB - Request for system charge generated by Interfund Processing application.
- EC - Follow-up initiated by Interfund Processing application on request for adjustment.
- EE - Request for adjustment forwarded to ICP/Contractor.
- EF - Follow-up on request for adjustment to ICP/Contractor.
- EG - Disposition instructions provided; awaiting turn in document.

- EJ - Tracer initiated on GBL parcel post shipment.
- EK - Tracer on GBL or parcel post shipment inadequate or no response.
- EN - SF 1080 initiated for write off.
- EP - Prior write off reversed; system credit will be granted.
- ER - Interim response received from supply activity.
- EX - Write off when funds available.
- NA - Unacceptable misdirected shipment.
- NB - Unacceptable condition discrepancy.
- NC - Unacceptable duplicate shipment.
- ND - Acceptable duplicate shipment.
- NE - Unacceptable overage.
- NF - Acceptable overage.
- NG - Unacceptable wrong item.
- NH - Unacceptable shortage.
- NP - Reconsidered SDR awaiting further action.
- NQ - Reply status "D" or "E" requires NAVILCO action.
- NR - Canceled SDR awaiting further action; XSC needs.
- NS - Contested SDR awaiting further action.
- NT - ILCO action required; all other ILCO action.
- NU - SDR identified to a Major Item Line (RSN) (single selling price).
- RC - System debit/credit processed by Interfund Processing application.
- RD - System credit held by Interfund Processing application.
- RE - COPEX code changed to "E".
- RF - SDR related credit IFD; requisition has contract data. Manual review required.
- XB - Document number in file but unprocessable. Requisition type is 19, 72, 98 or 99.
- XC - Quantity on input unprocessable; discrepancy cited.
- XD - Multiple SDRs held in suspense awaiting previous SDR completion.
- XE - Insured/registered/certified (IRC) number missing from parcel for specified activities.
- XG - Grant aid; system suspended.
- XX - Undefined discrepancy code Z1 or action code 1Z.

For Air Force:

- A - Date SDR received at DOD.
- B - Acknowledge official receipt of SDR from SA customer.
- C - SDR sent to the supply source for processing.
- E - ILCO receives SDR reply from supply source.
- F - Follow-up by ILCO on delinquent SDR reply.
- L - ILCO forwards disposition instructions to SA customer. Country must respond by suspense date.
- M - Follow-up to SA customer on materiel disposition.

- N - SA customer returns materiel.
- S - Supply source reply accepted by the ILCO.
- T - Follow-up by ILCO on delinquent billing action.
- Y - SDR closed (financially complete) at the ILCO.
- Z - SDR rejected, not established in DOD.

Progression Date

The date that a progression code is entered against a Supply Discrepancy Report. Progression Date is not displayed in SCIP.

Project Code

A code for identifying requisitions, related documents, and shipments of materiel for specific projects, programs, or maneuvers. Identifies specific programs to provide for funding and costing at requisitioner or supplier level to satisfy program costs and analysis, including and indication of transactions within or outside of the Federal Government.

Project codes are categorized into four groups and the authority to assign project codes varies by category. The following paragraphs provide the definitions of each category of project codes and identify the S/A which is authorized to assign each category of project code.

- Category A. For use when no meaning of the code will be perpetuated outside the originating S/A. The code will be perpetuated in all related documentation and will appear as a part of the shipping container markings. Project codes in category A may be assigned by those S/As identified in appendix 2.2 by a distinct S/A code, FEDSTRIP AAC, and by those Agencies using the multi-use Service Code H.
- Category B. For use when recognition and exceptional processing actions have been prearranged between specified S/As. Category B project codes will be announced only to participating S/As, in the format provided below. Assignment authority is the same as for category A.
- Category C (3/alpha/alpha). Assigned for common purpose use by all or specified S/As. Approved category C project codes will be disseminated electronically to the designated project code contact points and Supply Process Review Committee (SPRC) members. All category C codes are published electronically on the DLMSO website² unless prohibited by security classification.
- Category D. OSD/CJCS project codes. Requisitions and materiel releases with category D project codes will be ranked above all other requisitions with the same priority designators for processing purposes. All category D project codes are in the 9_ series. The following definitions of specific series apply:
 - 9/numeric/numeric - reserved for assignment by OSD. Specific use of the code is to be determined by OSD. Such codes will be monitored by ADUSD(LMR)SCI in coordination with the DoD MILSTRIP System Administrator.
 - 9/numeric/alpha - identifies allocation at the level of the Chairman, Joint Chiefs of Staff of significant materiel or equipment items that are on hand or are becoming available for issue when resources are not sufficient to meet all requirements. (This series of project codes is used for scarce resource allocation.)
 - 9/alpha/numeric - identifies the establishment and subsequent release, at the level of the Chairman, Joint Chiefs of Staff, of emergency, reserve, or specified purpose stocks which are on hand or are becoming available. (This series of project codes is used as authority to release resources which are being held for contingencies; for example, safely stocks and war reserves.)
 - 9/alpha/alpha - identifies a project, operation, program force, or activity sanctioned by the Chairman, Joint Chiefs of Staff acting on behalf of the Joint Chiefs of Staff, or by the Chairman acting on behalf of the Secretary of Defense which requires heightened logistic infrastructure visibility and support.

More information can be found in DOD 4000.25-1-M *Military Standard Requisitioning and Issue Procedures (MILSTRIP)*, Appendix 2.13.

Quantity Billed

The quantity reported as having been billed by the customer and entered in Block 9C of the SF 364.

Quantity Canceled

Quantity that represents the total number of units that have been canceled on an open-closed requisition.

Quantity Discrepant

The quantity reported as having been received in a discrepant condition on Block 10A of the SF 364.

Quantity Open

Quantity that is yet to be full filled. This is calculated by subtracting any shipped and canceled quantities from the requested quantity.

Quantity Received

The quantity reported as having been received by the customer and entered in Block 9D of the SF 364.

Quantity Requested

Quantity requested upon initial submission of a requisition. On MILSTRIP requisitions, this value is found in record positions 25-29.

Quantity Shipped

The quantity reported as having been shipped by the customer and entered in Block 9C of the SF 364.

Quarterly Payment Amount Due

The actual amount due for the payment on the Case Payment Schedule.

Quarterly Payment Due Date

The actual due date of the payment on the Case Payment Schedule.

Reason for Assigned Group

Reason why a particular Anticipated Offer Date has been assigned to a case.

Related Cases

"Y" (Yes) indicates other case records related to this case record. "N" indicates that there are no other related cases.

Required Availability/Delivery Date

This field is used to indicate approximate dates or time periods until the materiel is available, shipped or delivered to the requisitioner. The RAD will be expressed as the number of months remaining from the date of the requisition to the computed RAD which will be entered in record positions 63-64 of the MILSTRIP requisition. The character "A" will be inserted in record position 62. The actual date of materiel availability will be the last day of the month depicted by record positions 62-64 entries. May also indicate a JULIAN DATE when the items are required.

See DOD 4000.25-1-M *Military Standard Requisitioning and Issue Procedures (MILSTRIP)* C6.5

Requisition Number

A non-duplicative number (except for Contract Accounting requisition numbers) constructed so as to identify the Military Service, the Requisitioner, the Julian data of the document and a serial number.

Requisition Number Suffix

Single character code which trails document number on supply status and billing transactions. Used to identify separate shipments on a single requisition. The following characters may be used as suffix codes: A-H, J-M, Q, T, V, W, 2-9.

Routing Identifier

Code which identifies the organization to or from which transactions are received or sent. Additional codes can be found in DoD 4000.25-1-M *Military Standard Requisitioning And Issue Procedures* (MILSTRIP), Appendix 2.3. These are only a sample of available RICs. Some common codes are:

- A12 - USA Soldiers Systems Command, Kansas St., Bldg. 3, Natick, MA 01760-5000
- AJ2 - USA Tank Automotive and Armaments Command (TACOM), Warren, MI 48397-5000 (Non-Army Managed Items Business Unit (NAMI CBU))
- AKZ - U.S. Army Tank, Automotive and Armaments Command (TACOMW), Warren, MI
- BY7 - U.S. Army Security Assistance Command (USASAC), New Cumberland, PA.
- B14 - U.S. Army Joint Munitions & Lethality Command (JM & L), Rock Island Arsenal, IL.
- B16, B46 - U.S. Army Communications-Electronics Command (CECOM), Aberdeen Proving Ground, MD
- B17 - U.S. Army Aviation and Missile Command (AMCOM), Redstone Arsenal, AL (Aviation Equipment).
- B56 - National Security Agency (NSA) COMSEC Logistics, Tobyhanna, PA.
- B64 - U.S. Army Aviation and Missile Command (AMCOM), Redstone Arsenal, AL (Missile Equipment).
- B69 - USA Medical Materiel Agency (USAMMA), Federick, MD 21701-5001
- DPO - Used by US Army when USASAC transfers funds to another agency via a Military Interdepartmental Purchase Request (MIPR).
- FGZ, FG5 - Ogden Air Logistics Center, Hill AFB, Ogden, UT.
- FHZ - Oklahoma Air Logistics Center, Tinker AFB, Oklahoma City, OK.
- FLZ - Warner Robins Air Logistics Center, Robins AFB, GA.
- FNH - U.S. Air Force Security Assistance Center (AFSAC), Wright-Patterson AFB, OH.
- FWW - World Wide Warehouse Redistribution Services (WWRS), Wright-Patterson AFB, OH.
- FXA, FXB - Air Force Parts and Repair Ordering System (PROS) II/III.
- G69 - Federal Aviation Administration: 800 Independence Avenue, S.W.; Washington, DC 20591
- GSA - General Services Administration, FAS, Arlington, VA 20406 (Do not use for MILSTRIP Mail or Messages)
- HM8 - Defense Supply Center, Richmond, 8000 Jefferson Davis Highway, Richmond, VA 23297-5000
- MPB - ILS Directorate, Code 820, Marine Corps Logistics Base, Albany, GA 31704-5000
- N21 - Naval Air Systems Command (NAVAIR), Washington, DC.
- N23 - Naval Sea Systems Command (NAVSEA), Washington, DC.
- N32 - Navy Inventory Control Point Philadelphia (NAVICP-P), PA (formerly Aviation Supply Office).
- N35 - Navy Inventory Control Point Mechanicsburg (NAVICP-M), PA (formerly Ships Parts Control Center).

- N65 - Navy Inventory Control Point Office (NAVICP-OF), International Programs Directorate, Philadelphia, PA.
- N77 2Z, 4M - Space and Naval Warfare Systems Command (SPAWAR), San Diego, CA
- NCB 4T, 8U - Naval Ordnance Center, Mechanicsburg, PA
- NFZ 0I - Naval Publications and Forms Center (NPFC), Philadelphia, PA.
- S6J - Defense Contract Management Agency (DCMA), Fort Belvoir, VA.
- S9C,S9E - Defense Supply Center Columbus (DSCC), Columbus, OH.
- S9D - Defense Reutilization and Marketing Service (DRMS), Battle Creek, MI.
- S9F - Defense Energy Support Center (DESC), Ft. Belvoir, VA.
- S9G - Defense Supply Center Richmond (DSCR), Richmond, VA.
- S9L - Defense Logistics Information Service (DLIS), Battle Creek, MI.
- S9M, S9T, S9I - Defense Supply Center Philadelphia (DSCP), Philadelphia, PA.
- S9R - Defense Supply Center, Richmond, Product Center 12, Richmond, VA 23297-5000
- SGA - Defense Automatic Addressing System Center (DAASC), Wright-Patterson AFB, OH.
- SHA - Defense Automatic Addressing System Center, Tracy Location, Stockton, CA 95296-0940
- SMS - Defense Logistics Agency (DLA) Business Systems Modernization (BSM).
- ZIC, ZIB - U.S. Coast Guard Engineering and Logistics Center (ELC), Ships Inventory Control Point (SICP), 2401 Hawkins Point Road, Baltimore, MD 21228-1792
- ZNC - U.S. Coast Guard Engineering and Logistics Center, Electronics/General Inventory Control Point (E/GICP), 2401 Hawkins Point Road, Baltimore, MD 21228-1792
- ZQC - U.S. Coast Guard Aircraft Repair and Supply Center (ARSC), Aircraft Inventory Control Point (AICP) Elizabeth City, NC 27909-5001; U.S. Coast Guard Headquarters Logistics Directorate, 2100 Second Street, SW - Room 6216, Washington, DC 20593; U.S. Coast Guard Aircraft Finance & Procurement Directorate, Asset Management Division, Room 2607, 2100 Second Street, SW, Washington, DC 20593.

SDR Number

Customer-assigned number, consisting of one alpha character to identify the country's initiating office and four numeric characters for serial number control, which, when used in combination with the Country Code, the Implementing Agency and the Case Designator, will uniquely identify the SDR.

SDR Number Suffix

Indicates if the SDR has been submitted for reconsideration or contested.

For Air Force:

- R - Submitted to AFSAC for reconsideration.
- C - SDR is being contested by country.

For Army:

- 0 (Zero) - Initial SDR submission to the supply source.
- E - Reopened by USASAC. SoS to treat as Initial Submission.
- R - Reconsideration by Country (Remarks Required).
- C - Contested by Country (Remarks Required).
- A - USASAC Provided Additional Information as Requested by Supply Source.

- F - Follow-Up Request.
- I - Incomplete Response Received by USASAC - Reopens SDR (Remarks Required).
- M - Advise Supply Source Customer Returned Materiel as Directed (Remarks Required).
- W - Wrong Item SDR with two Supply Sources/Dispo Required from this one.
- X - SDR Canceled
- Y - SDR Closed at USASAC.
- Z - SDR Purged by USASAC.

For Navy:

- R - Submitted to IA for reconsideration.
- C - Contested by country.
- X - Used by NAVICP to determine which repairable SDRs/QDRs submitted actually received disposition instructions from the contractor or repair facility. Used with the progression code EG to indicate item is pending return and the progression code NT is assigned when the material reaches the facility and is pending repair or evaluation.

SDR Retired Date

Date the SDR was Closed.

SDR Status

Current status of the SDR. Codes: O-Open or C-Closed.

SDR Supply Source Control Number

Applies to Army only. Used to record a control number assigned to an SDR by a supply source activity. For example, DLA assigns a control number to SDRs entered into their customer depot complaint system and the Army Electronic Product Support (AEPS) system assigns an SDR number to each record for the Army Life Cycle Support Commands (LCSC) internal use.

SDR Value

The amount credited to an FMS customer based upon a Supply Discrepancy Report.

SME/MDE Code

A code required on the LOA & MASL to provide the level of detail needed to separately identify Major Defense Equipment.

Codes:

- S - Significant Military Equipment item. See ITAR.
- Y - Major Defense Equipment item.
- N - Non-MDE item.

Security Classification Code

C for classified; R for restricted; U for Unclassified.

Shipped Date

The date on which the shipping activity releases the shipment to a common carrier.

Shipped Expended Requisition Count

The total number of requisitions that have been 1) shipped, AND 2) have had charges processed against them.

Shipped Expended Requisition Value

The total value of requisitions that have been 1) shipped, AND 2) have had charges processed against them.

Shipped Partial-Billed Requisition Count

Applies to Navy only. The total number of requisitions that have been 1) shipped, AND 2) partially billed.

Shipped Partial-Billed Requisition Value

Applies to Navy only. The total value of requisitions that have been 1) shipped, AND 2) partially billed. (Note: The value depicted here is the total requisition value, NOT the value of the partial charges.)

Shipped Unbilled Requisition Count

The total number of requisitions that have been 1) shipped, BUT 2) charges have not yet been received or processed against the requisition.

Shipped Unbilled Requisition Value

The total value of requisitions that have been 1) shipped, BUT 2) have not yet been received or processed against the requisition.

Signal Code

- A - Ship and bill to requisitioner
- B - Ship to requisitioner / bill to supplementary address
- C - Ship Requisitioner / Bill Activity
- D - Ship Requisitioner / Free Issue
- J - Ship to supplementary address / bill to requisitioner
- K - Ship and bill to supplementary address
- L - Ship Supplementary Address/Bill Activity
- M - Ship Supplementary Address/Free Issue
- W - Intraservice Use Only
- X - Intraservice Use Only

Signature Date

Date USG Authorized Designee signed the LOA. Indicates date formal offer is made to the customer. Case status code must be "O".

Sole Source Procurement Request Indicator

Indicates whether any customer request (LOR) for the specified case contains a sole source procurement request.

Sole Source Procurement Request Text

Contains the customer's request for a particular source to obtain a defense article or service.

Source of Supply

The code used to identify the source from which the supply of a defense article or defense service is anticipated. Codes:

- E - Excess
- P - Procurement
- R - Repair/Rebuild
- S - Service stock

- X - Mixed or undefined
- blank - Indicates that the source of supply has not yet been assigned or approved.

State Department Approval

The date the case version was approved by the Department of State.

Stock Number

A control number for item identification. This will be a national stock number, kit number, manufacturer's code or part number.

Supplementary Address

For FMS requisitions the supplementary address consists of four elements of information. They are the purchaser's procuring agency service code, offer release code, freight forwarder code and the FMS case designator. This code is used to determine the destination of where the item is to be shipped.

Term of Sale

One-position code that uniquely identifies the conditions of a sale.

Codes:

- A - Cash with Acceptance
- B - Cash Prior to Delivery
- C - Dependable Undertaking
- D - Payment on Delivery
- H - Payment 120 Days after Delivery
- K - Cash with Acceptance/Balance as Billed
- M - MAP Merger
- N - FMS Credit (Non-Repayable)
- Q - EDA Grant
- Z - FMS Credit

Term of Sale Value

The dollar amount that applies to the associated term of sale. If a Term of Sale is "FMS Credit", "FMS Credit Nonrepayable" or "MAP Merger", and there is more than one Term of Sale; then this field must be entered for each Term of Sale.

Termination Liability

The termination liability portion of the Quarterly Payment Amount Due.

Total Case Value

Value of the above-the-line and below-the-line cost for all lines for the related case.

Total Collections

The cumulative amount of funds received by DFAS-Indianapolis from the purchaser to fund the Case.

Total FMF Collections

Funds deposited into the FMS Trust Fund at DFAS-Indianapolis which are applicable to the Military Assistance Program (MAP) and/or the FMS Credit program.

Total Requisition Count

The total number of requisitions for a case. This includes shipped unbilled, shipped partial-billed, shipped expended, unshipped, and canceled requisitions.

Total Requisition Value

The total value of requisitions for a case. This includes shipped unbilled, shipped partial-billed, shipped expended, unshipped, and canceled requisitions.

Transportation Control Number

A number (up to 17 alpha/numeric positions) assigned to control a shipment/consolidated shipment unit within the Defense Transportation System (DTS). Tracks from the Source of Supply (SoS) to the Customer.

Transportation Value

A PLANNED below-the-line estimate of costs established to cover transporting material to the international customer. Actual Transportation costs are applied by DFAS-IN, based upon delivery reporting transactions from the IAs.

Type of Assistance

A code which describes the type of financing for an FMS case as on the LOA. For FMS requisitions, this code is used as position 6 of the requisition document number. Codes:

- 1 - SDAF
- 3 - Sale of DoD inventory or services. Cash to be deposited by the customer in advance of delivery or performance.
- 4 - Source of supply not predetermined. Cash to be deposited by customer in advance of delivery or performance.
- 5 - Cash sale from procurement. Cash to be deposited by customer in advance to meet contract payment requirements.
- 6 - Sale of DoD inventory or service. Payment due from customer upon delivery. Requires a written statutory determination by the director, DSCA. Reimbursement to DoD components is made after customer payment is received.
- 7 - Cash sale from procurement. Payment from customer due 120 days after delivery. Payment to contractor financed by special emergency appropriation.
- 8 - Sale of DoD inventory or service. Payment from customer 120 days after delivery. Payments to DoD components financed by special emergency appropriation.
- A - FAA Defense Articles - Non Reimbursable
- M - MAP Merger.
- N - FMS Credit (non-repayable).
- U - Cooperative Logistics Supply Support Arrangement (CLSSA) FMSO I - Customer purchase of equity in DoD inventory cash to be deposited by customer in advance of inventory augmentation.
- V - Cooperative Logistics Supply Support Arrangement (CLSSA) FMSO II- Shipment of customer equity with automatic replenishment action to maintain dollar equity in inventory. Cash to be deposited by customer in advance of equity drawdown.
- Z - Source of supply not predetermined. Cash to be deposited by credit appropriation or lending institution in advance of delivery of inventory, performance of DoD services, or payment to contractors.

Unit Price

Item price listed in dollars and cents per unit.

Unit of Issue

For requisitions, a unit of measurement used when requisitioning or issuing material shown in record positions 23-24. It also represents a determinate amount or quantity (eg., for "dozen", 'dz'; identifies that the quantity is in units of twelve). For Case Lines, the unique identifier of the issue unit.

Unprogrammed Case Value

The Unprogrammed Case Value equals the Net Case Value (i.e. above-the-line planned costs) minus the Programmed Case Value (i.e. the Combined value of Commitments, Obligations, Expenditures and other above-the-line costs such as CAS, LSC and non-recurring costs) incurred to date, as reported by the IAs to the DSAMS system. Due to undisbursed CAS or non-recurring costs, the unprogrammed case value may not be accurate representation of available case funds.

Unshipped Requisition Count

The total number of requisitions that are not yet shipped (i.e. requisitions are NOT logistically complete).

Unshipped Requisition Value

The total value of requisitions that are not yet shipped (i.e. the requisitions are NOT logistically complete).

Update Offer/Restatement

DSAMS creates this milestone whenever a case version is restated.

Wrong Item RIC

Applies to Army and Navy only. Routing Identifier Code (RIC) for the supply source responsible for the management of the wrong materiel received. See "[Routing Identifier](#)" for codes.

Wrong Item Value

Applies to Army only. Total dollar value of the wrong materiel received.

[ALL](#) | [A](#) | [B](#) | [C](#) | [D](#) | [E](#) | [F](#) | [G](#) | [H](#) | [I](#) | [L](#) | [M](#) | [N](#) | [O](#) | [P](#) | [Q](#) | [R](#) | [S](#) | [T](#) | [U](#) | [W](#)

APPENDIX 2: Using the Ad-Hoc Query

Complete listing of the data in the popup window.

The Adhoc Query gadget allows you to query the SCIP database to return data that meets specific requirements.

Select the type of adhoc report desired, options may include Case-Level, Line-Level, Active Requisitions, SDR or Payment Schedule.

Press **Continue**.

From the Adhoc wizard, in the **Available Fields** column, highlight the fields that you wish to display in the report and move them to the **Selected Fields** column. Note: multiple fields can be selected by utilizing the keyboard shift and CTRL keys with the mouse clicks

When you are finished selecting fields, click **Summary Report** or **Detailed Report** depending on the type of report you wish to view.

From the **Create Criteria** page, specify the requirements that must be met to satisfy your search.

Select the **Add Filter Criteria** button. In the first drop-down list, select the searchable Property whose values you want to filter.

In the second drop-down list, select the operator to apply to this condition. This list will vary depending on the Property selected.

If a text box is presented, enter the value the Property must have, or not have, depending on which operator you select. See the tips below for assistance on writing search strings.

When adding requirements, choose **AND** to designate that the data must meet both that requirement and the previous one or choose **OR** to designate that the data must meet either requirement.

To add a requirement, click **Add Filter Criteria**, and then repeat steps 2 through 4 to specify the requirement. To delete the last requirement in the list, click **Remove Last**.

WRITING SEARCH STRINGS

In general, you can type the text that you are looking for, however, there are a few things to consider.

There are two special operators that you can specify when adding multiple requirements:

AND	The criteria for the requirements above and below must be met.
OR	Either criteria for the requirements above and below must be met.

An important key to creating a query is understanding how the **OR** and **AND** operators work. The **AND** operator has precedence over the **OR** operator. For example, if you wanted all Germany cases with cases statuses of *I - Implemented* and *SSC - Implemented*, then you might try to construct the query like this:

The screenshot shows a query configuration with three conditions:

- Country Code is GY - Federal Republic of Germany
- AND Case Status Code is I - Implemented
- OR Case Status Code is SSC - Implemented - SSC

Picture 1: Incorrect Query

The problem with this query, is that the results will return Germany cases that are I, but also return **all** SSC cases, regardless of the country. Another wrong way to create the query would be as follows:

<input type="text" value="Case Status Code"/>	<input type="text" value="Is"/>	<input type="text" value="I - Implemented"/>
<input type="text" value="OR"/>	<input type="text" value="Case Status Code"/>	<input type="text" value="Is"/>
<input type="text" value="AND"/>	<input type="text" value="Country Code"/>	<input type="text" value="SSC - Implemented - SSC"/>
	<input type="text" value="Is"/>	<input type="text" value="GY - Federal Republic of Germany"/>

Picture 2: Incorrect Query

The problem with this query, is that the results will return Germany cases that are SSC, but also return *all* I cases, regardless of the country. This is because the **AND** operator takes precedence, or groups together the *Case Status = I AND Country = Germany* statements. The *Case Status = SSC* statement is then **OR**ed with the complete **AND**ed statement. If you used parenthesis, it would look like this: *(Case Status = I AND Country = Germany) OR Case Status = SSC*. This query will probably result in incorrect results.

The correct statement is to create a query like this:

<input type="text" value="Country Code"/>	<input type="text" value="Is"/>	<input type="text" value="GY - Federal Republic of Germany"/>
<input type="text" value="AND"/>	<input type="text" value="Case Status Code"/>	<input type="text" value="Is"/>
<input type="text" value="OR"/>	<input type="text" value="Country Code"/>	<input type="text" value="I - Implemented"/>
<input type="text" value="AND"/>	<input type="text" value="Case Status Code"/>	<input type="text" value="Is"/>
	<input type="text" value="GY - Federal Republic of Germany"/>	<input type="text" value="SSC - Implemented - SSC"/>

This query is grouped together around the **AND**s and then the complete **AND**s are **OR**ed together. The complete statement will look like this *(Country = Germany AND Case Status = I) OR (Country = Germany AND Case Status = SSC)*.

APPENDIX 3: Information Extracts Record

The Information Extracts feature gives the user a capability to get the entire requisition history of a case in a single report in order to review “older” requisitions, possibly for billing, SDR submission, or case reconciliation and closure purposes.

See the SCIP *Country-Case All Requisition Extract Option Tutorial*. It is located at Case Information > Help > User Guide > Batch Upload Instructions, page 73. You can select the **User Guide** to get some additional information on the format of the report.

A single user can only request **ONE** report for a single case in each 24 hour period. Just input the appropriate Case Identifier data, e.g. BN-P-RAA; or BN-D-SAA; or BN-B-UAA. The **SUBMIT** button will be inactivated until the user is eligible to request another report.

Country Case All Requisition Extract

Enter the Country Code, Implementing Agency, and Case Designator for the case that you wish to extract ALL requisitions for.

Country Code:	BN
Implementing Agency Code:	D
Case Designator Code:	RAA

There are no extracts available in your queue for download
Your last request was on 21 Nov 2010 17:30:22 GMT

Clear Submit

Only one ALL Requisition extract request per user per 24 hour period is allowed

Once you have requested a case, the request will be acknowledged.

-- Data was successfully entered --

Confirmation: Your request has been sent, FSmith.

Your request has been processed.
Only one request is allowed per 24 hour period. PORTAL01BNDRAAFSmith

[Close this window](#)

The requested case data will be retrieved from the logistics systems of the Army (CISIL), Air Force (SAMIS) or Navy (MISIL) using an overnight batch processing. The next day you will see the Case Identifier listed just above the CLEAR button. The data will remain in the queue until it is downloaded.

Country Case All Requisition Extract

Enter the Country Code, Implementing Agency, and Case Designator for the case that you wish to extract ALL requisitions for.

Country Code:	---
Implementing Agency Code:	
Case Designator Code:	

There is 1 extract in your queue for download

BNDRAA  

Your last request was on 29 Nov 2010 16:36:24 GMT

Clear Submit

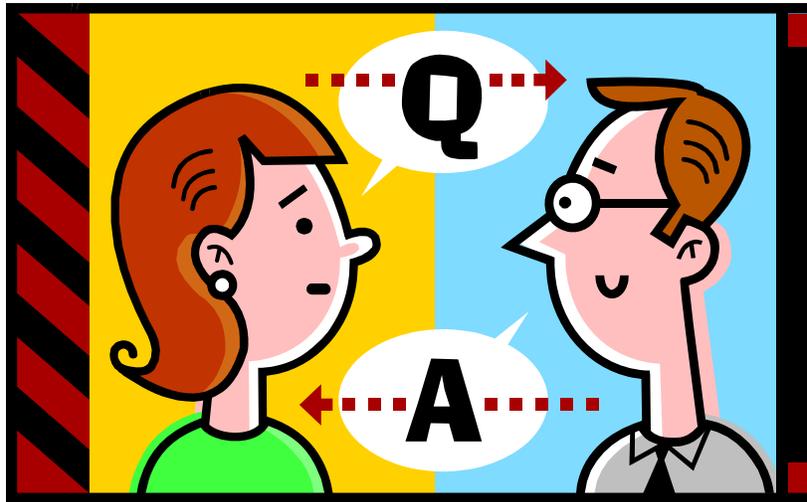

The data will be returned in two formats:

If you click on the Case Identifier (i.e., BNDRAA) it will produce a **.TXT** file which can be download for use in other applications. The .txt file is a 202 record position undelimited file. A sample of the output is at Figure A4-1.

If you click on the Excel ICON is will produce an **.XLS** file which can download. The .XLS file is a 202 record position file. The data is more extensive than the usual MILSTRIP 80 record position delineated file. A sample of the output is at Figure A4-2. The size of the file is 35 columns and can run from 1 to 100+ pages depending on the number of requisitions submitted over the life of the case.

The file will be available for 5 days as a download. After 5 days it will be purged from the system.

APPENDIX 4: ANSWER KEY FOR DISAM SCIP EXERCISES

The answers on the following pages are based on the SCIP Exercises extracts and examples in the DISAM SCIP Practical Exercises and Handbook dated July 2012.

If you do the exercises using your own SCIP account, or select some other data (e.g. case, line, requisition, SDR, as applicable) from the SCIP training database (Akadia, Bandaria, Zastavia), the answers you get from those country cases may differ from those in the following answer key.

Refer to the DISAM instructors for any questions on the exercise answers.

SCIP PROCESS EXERCISES (#1 to #4)

Exercise #1	
EXERCISE	DISAM ANSWER
1.a	Total of 11 documents in development status
i	There are 5 BASIC in development status
ii	There are 6 AMENDMENTS in development status
iii	There are 0 (zero) MODIFICATIONS in development status
1.b	IA should have initialized the case in DSAMS and it should be visible in SCIP within 10 days or so of the Date Sent to IA. If not, you should contact the IA Case Manager
1.c	Cases in Development (D) or Proposed (P) Status do not display dollar values since the data is subject to change until Offered (O) to the customer
2.a	Total of 14 documents in offered status
i	There are 6 BASIC in offered status
ii	There are 8 AMENDMENTS in offered status
iii	There are no MODIFICATIONS in offered status since they are not offered to the customer. They are implemented after MILDEP /DSCA approval, as required.
2.b	LOA has been sent to the Customer Service for approval and signing. IMPORTANT NOTE: Need to sign by the OED.
3.a	Total of 5 documents in accepted status
i	There are 1BASIC in accepted status
ii	There are 4 AMENDMENTS in accepted status
iii	There are 0 (zero) MODIFICATIONS in accepted status
3.b	Indicates the LOA has been received by the IA. The customer should have also sent a copy to DFAS with the initial deposit. NOTE: Cases should be Implemented in DSAMS within10 days after Acceptance. If not, contact the Case Manager.
4.a	There are a total of 134 documents in implemented status
4.b	Obligation authority has been received from DFAS-IN and now the LOA can be fully implemented and enter into the execution phase. If the case is defined order, supplies/services can be ordered by IA.
4.c	If the case is blanket order or CLSSA, supplies/services can be ordered by the customer.
CREDIT	
5.a	There are 10 cases in Supply/Services Complete (SSC) status. IA will no longer accept any new orders against these cases.
5.b	There are 25 cases in Interim Closure (IC) status. The case has been closed under the accelerated case closure process.

Exercise #2	
EXERCISE	DISAM ANSWER
a	AK-B-UAF is an Army “U” series case so the “Material/services provided from various life-cycle management commands (including but not limited to systems package sales, munitions, spare parts equipment, technical services, maintenance, etc.) = Defined Order Case
b	IA = U.S. Army. Case Manager is John Smith (AMCOM)
c	03/21/2011
d	03/21/11 – When LOR was considered “complete” by IA
e	The customer’s LOR is written completely and thoroughly enough for the IA to completely understand what the customer requires and has enough information to develop a complete LOA that will ultimately be able to be successfully implemented if accepted and funded by the customer.
f.	The AOD was 07/19/2011 based on the LOR being assigned to AOD Group category “B”. That AOD is the latest date that the USG expects to have the LOA offered to the Customer for the beginning of their review.
g.	The estimated SSC date (i.e. the date when the U.S. Army expects to have completed all the LOA services and provided all the required material per the LOA) is 07/30/2021.

Exercise #3	
EXERCISE	DISAM ANSWER
a	Eleven (11) lines
b	Line 002.
c	MDE Code=N. There are no Nonrecurring Cost (NC) charges associated with this item. Congressional Notification may be required if the case value meets the \$50m threshold value. NOTE: If the MDE=Y then the customer may request a NC waiver. See SAMM, Appendix 1. Also a Country Team Assessment (CTA) would be required. And most likely a Congressional Notification if MDE value meets the threshold.
d	P=Procurement. NOTE: CAS charges would apply if not waived.
e	Line has 002 has one ORC=A. This means Automatic Release of the shipment(s) with no Notice of Availability (NOA) required.
f.	No Line Manager listed. Will usually be on USAF cases ONLY. The U.S. Army and Navy cases typically just list the Case Manager on the Case Detail Report.

Exercise #4	
EXERCISE	DISAM ANSWER
a	The current document types for this case include 1 Implemented, 1 Basic, 3 Amendments (1 in development, 1 cancelled, and 1 implemented), and 3 Modifications
b	The USG Anticipated Offer Date (AOD) policy is that the cases should be offered in time to meet or exceed the listed AOD in 85% of all cases that are developed.
c	Basic case was offered on 10/23/1990
d	The Offer Expiration Date (OED) is the date that the USG LOA offer will expire unless accepted (signed and funded) by the the customer by that date. The Basic Case OED was 12/18/1990.
e	The Basic case Offer Accepted by the Customer on 11/25/1990.
f	The current “Implemented” document version includes the basic and all amendments, modifications which are not in pending status (D, P, W, R, A, O).

SCIP LOGISTICS EXERCISES (#5 to #16)

Exercise #5	
EXERCISE	DISAM ANSWER
a	Total Number
	Army 282,707
	Air Force 1,769,429
	Navy 511,739
b	Shipped Unbilled
	Army 3419
	Air Force 521
	Navy 1,456
	The items have been shipped but the customer has not been billed for the items. Therefore, they will not show up on the DD645. Partial billed means the items were shipped with a Price Code "E" (estimated). This will have to be changed to "A" (actual) later.
c	Shipped Expended
	Army 255,376
	Air Force 1,630,582
	Navy 423,247
d	Canceled
	Army 18,869
	Air Force 129,248
	Navy 84,970
	If there are a significant number of cancellations it could indicate a potential problem which should be further researched.

Exercise #6	
EXERCISE	DISAM ANSWER
a	Thirty three (33) Active Requisitions on the case.
b	Based on the visible screen data, none of the requisitions have been shipped since none of them have a Transportation Control Number (TCN) listed and instead have asterisks (*) listed. On the internet, you need to scroll down to see all the data.
c	None of the listed/visible requisitions have TCNs. If there was a TCN listed that had a letter (e.g. "A") in MILSTRIP RP 74, that is an indicator of a partial shipment. Customer should be aware there are additional partial shipments which need to be accounted for.

Exercise #7	
EXERCISE	DISAM ANSWER
a	DIC = ZT5 =?? Not listed in either SCIP Help File or DLA authoritative database posted at http://www.dtc.dla.mil/thf1/Help/DIC.html . This is probably an example of a human error in entering the requisition DIC.
b	The Routing Identifier Code (RIC) identifies the source of the info and/or material. In this requisition, the RIC = BKZ which is not listed in either SCIP Help File or DLA authoritative database posted at https://www.transactionservices.dla.mil/DAASINQ/warning.ASP . This is probably an example of a human error in entering the requisition RIC.
c	Case Line #010 is the purchasing authority of the requisition material. The “Wiring Harness” is within scope of line #10 of case B-AK-UAF based on the Case Line Description and Military Article and Services Listing (MASL) entry.
d	Requisition Priority is 13.
e	No advice code listed for this requisition. The purpose of the advice code if entered by the customer is to provide instruction to supply sources when such data are considered essential to supply action and entry in narrative form is not feasible.
f	Current status code is “BB” which indicates that requested material is backordered (i.e. not currently available).
g	Estimated shipping date is 07/31/2012
h	Transportation Control Number (TCN) is an asterisk because material has not been shipped.
Extra CREDIT	
i	Priority 13 would be a UND=C. The customer determines the UND.

Exercise #8	
EXERCISE	DISAM ANSWER
a	The Document Identifier Code (DIC) is “A01” which indicates that this is a requisition for overseas shipment with NSN/NATO stock number.
b	The requisition serial number is “0515) which indicates that Bandaria submitted the requisition.
c	The USG Defense Logistics Agency (DLA) web based Federal Logistics Information System (WebFLIS) website will be displayed with the info listed for the specific NSN/Part Number/Reference Number that was listed and hyperlinked.
d	No Notice of Availability (NOA) was required since the Offer Release Code is an “A”. The Delivery Term Code (DTC) is a “5” which indicates that the material will be delivered to Bandaria’s designated Freight Forwarder.
e	The Required Availability Date for this requisition is “A03” which means that the customer that requisitioned the material wants to have it within 3 months of them submitting the requisition to the USG.
f	Yes, the material that was requisitioned was shipped on 01/05/2012.
g	Yes, the material was shipped within 1 month of the requisition and the customer stated that they needed it within 3 months of the requisition.
h	If you click the TCN link, the Enhanced Freight Tracking System (EFTS) will display all available shipping information for that requisition shipment.

Exercise #9	
EXERCISE	DISAM ANSWER
a	There are 1319 results on the example report.
b	Since the report type was for “Completed Shipments”, all of the results should be for material that has reached the in country destination.
c	By clicking any of the listed shipments, the user can get to the TCN Details for any of the listed report results.
d	The gold bar/line at the top of the “TCN Details” Report provides the user with a visual indication of how far the material has been shipped along with specific dates when the material reached the various milestones on the shipping bar graph.
e	If you click any of the “+” symbols in the “TCN Details” reports, the user can ‘drill’ down to get additional details on the shipment for any of the areas that are listed with a “+” symbol icon.
CREDIT	
f	The DSP-94 provides the U.S. Customs personnel Export Authorization information on any outgoing material that is intended to be exported from the United States. Knowing where a particular’s case’s DSP-94 is lodged is important to know since the U.S. Customs systems requires that the DSP-94 be locally ‘lodged’ at the Port of Embarkation that it is intended to be exported from.

Exercise #10	
EXERCISE	DISAM ANSWER
A	Bandaria has 23 total implemented cases per the real time metric example.
b	Army, Air Force, NSA, and Navy are the U.S. Implementing Agencies that have Implemented FMS Cases with Bandaria.
c	There are 11 total implemented cases that Bandaria has with the U.S. Army as the Implementing Agency
d	By ‘clicking’ the Microsoft Power Point icon in the upper right corner of the screen, the user can quickly develop a Microsoft PowerPoint slide showing the Real Time Metric results that you just developed in SCIP.
e	The case numbers for each of the IAs in the year columns blue color and underlined because they are hyperlinks that provide the user the capability to ‘drill down’ to get additional details on those listed numbers.
f	By ‘clicking’ any of the listed number hyperlinks, the user can quickly get details (e.g. Case Identifiers, Case Detail, Document Detail, Case Line Detail, Active Requisition Detail, SDRs, Document Timeline info, etc.) on any of the case numbers that are blue color and underlined.
g	The other Real Time Metric reports that can be selected for your country(s) of interest includes Historic Implemented Documents, Cases by Current Status Code, Documents by Current Status Code, Open Offers, Offer/Acceptance Comparison, Anticipated Offer Date (AOD) Past Performance, and Anticipated Offer Date (AOD) Current Performance

Exercise #11	
SEE the completed A01 requisition input below	
EXERCISE	DISAM ANSWER
EC(a)	Management Futures data indicates a significant unit issue price increase to \$687.70 effective 2011274
EC(b)	AAC indicates centrally managed, stocked, and issued not subject to specialized controls.

Exercise #11 MILSTRIP Requisition

"A01/A" Requisition - Standard NSN Material

*Document Identifier (rp1-3):	<input type="text" value="A01"/>
Routing Identifier Code (rp4-6):	<input type="text" value="FNH"/>
Media and Status Code (rp7):	<input type="text" value="V"/>
*National Stock Number (rp8-22):	<input type="text" value="3040001737363"/>
*Unit of Issue (rp23-24):	<input type="text" value="EA - Each"/>
*Order Quantity (rp25-29):	<input type="text" value="00001"/>
*Requisition Document Number (rp30-43):	<input type="text" value="D"/> <input type="text" value="BN"/> <input type="text" value="G5V"/> <input type="text" value="1364"/> <input type="text" value="0001"/> <input type="checkbox"/> WWRS
Demand (rp44):	<input checked="" type="radio"/> Non-Recurring <input type="radio"/> Recurring
*Supplementary Address (rp45-50):	<input type="text" value="D"/> <input type="text" value="A"/> <input type="text" value="2"/> <input type="text" value="KEO"/>
Signal Code (rp51):	<input type="text" value="L"/>
Fund Code (rp52-53):	<input type="text"/>
*Distribution Code (rp54):	<input type="text" value="0"/>
*USA USAF Line Item/USN COG (rp55-56):	<input type="text" value="01"/>
Project Code (rp57-59):	<input type="text"/>
*Issue Priority (rp60-61):	<input type="text" value="03"/>
Required Availability/Delivery Date (rp62-64):	<input type="text" value="N"/>
Advice Code (rp65-66):	<input type="text" value="2B"/>
Cooperative Logistics Program Support Code (rp72):	<input type="text"/>

Exercise #12	
EXERCISE	DISAM ANSWER
a	Nineteen (19) and all the SDRs are visible.
b	<p>Values shown in this pick list are UNIT price. The \$200.00 minimum value required for USG consideration of a foreign purchaser's SDR also includes the shipment's associated PCH&T costs. The total value of the foreign purchaser's SDR claim must have a value of at least \$200, including transportation and PC&H.</p> <p>Also, in some cases the customer may have submitted a SDR for missing documentation, wrong item, etc., which doesn't meet the extended value. Such an SDR will be noted but denied by the USG.</p>

Exercise #13	
EXERCISE	DISAM ANSWER
b	W1 = Wrong Item. Check NSN received and NSN shipped
c	Yes, within 1 year as shipment was 03/04/2010 and SDR was received on 12/12/2010
d	Yes, the 2,009.40 far exceeded the SDR minimum of \$200.
e	SDR Status=O= open.
f	Yes, Action Code '2A'= Disposition of material and financial adjustment (credit) requested.
g	No Adjustment Reply Code yet as the SDR is still open. Once the SDR is resolved by the USG, the customer can check the SDR response, view status on SCIP, check the DD645, or contact the Case Manager.

Exercise #14	
EXERCISE	DISAM ANSWER
a	SDR Suffix indicates a customer appeal of a SDR decision. In this example the SDR Suffix is a C=Contested.
b	Z1. Other Discrepancy. See Remarks.
c	NO, the shipment date was 05/03/2007, but the SDR wasn't received by the USG until 05/30/2008.
d	YES, the \$37,240.00 far exceeds the minimum of \$200 for SDRs.
e	YES. 1Z (Other action requested – See SF364 Remarks)
f	SDR Status=C=Closed
g	YES. ARC=CB=Request for credit billing is granted (credit authorized).

Exercise #15	
EXERCISE	DISAM ANSWER
a	See the completed SF364 input on the following pages.
b	Statement that F/F has researched the problem, Photographs, copies of TDR, PQDR, transportation documents, etc.
c	<p>Can submit via SCIP.</p> <p>Can submit via AFSAC On-Line – Required by USAF for electronic submission. Other source inputs require paper submission also.</p>

Exercise #15-a. Supply Discrepancy Report

XDN SDR Input - SF364 Equivalent	
*Document Identifier:	XDN
Routing Identifier Code:	FNH
Media and Status Code:	S
*Date of Preparation (aka SF364 date):	30 DEC 2011
*SF364 SDR Number:	D0001
*Requisition Document Number:	D BN G5V 1364 0001
Requisition Document Number Suffix:	
*Customer Service/In-Country Office/*Case	D KEO
*Case Line:	001
SF364 Unit Price:	538 .52
SF364 Total Cost:	800 .52
National Stock Number/Part Number Ordered:	3040001737363
National Stock Number/Part Number Received:	3040001737363
Nomenclature:	Shaft Assembly Flexible
Unit of Issue:	EA - Each
Quantity Shipped:	0001
*Quantity Received:	0001
Quantity Billed:	0001
*Discrepancy Quantity:	00001
*SF364 Action Code:	2J
*SF364 Discrepancy Code:	C1
Transportation Document Number:	DBG5V13640001XX
Contract Number:	
Contract Administering Office Address:	
Call Number:	
Preparer Name and Title:	DISAM Instructor
Preparer Phone/Fax/Email Information:	937255-0001/Inst@disam

Exercise #16	
EXERCISE	DISAM ANSWER
a.	Yes
b.	FAD = III, UND = A
c.	2L = Quantity reflected in quantity field exceeds normal supply demands; however, this is a confirmed valid requirement
d.	Requisition # suffix would indicated a partial shipment
e.	“Save Adhoc Query” allows the user to save the query for future use. ‘Convert to MS Excel’ transfers all Adhoc Query results to a local Microsoft Excel file for the user.

SCIP FINANCIAL EXERCISES (#17 to #26)

Exercise #17	
EXERCISE	DISAM ANSWER
a	TCV=\$521,286,678. The MODIFICATION tab in the DOCUMENT DETAIL is available and means there is at least ONE (1) Modification. It is highly unlikely that the values are the same. You can determine the changes by selecting the Basic button and comparing the Implemented and Basic versions for differences.
b	YES, there is \$40,540,168.34 that is still “unprogrammed”.
c	\$549,501.30 is the Total Requisition Value.
d	No, there are 8 requisitions that have yet to be shipped.
e	No, there are 122 requisitions that have yet to be billed.
f	Total collected (TCV=\$521,286,678) is equal to the Total Case Value, so no additional payment amount is required by the customer..

Exercise #18	
EXERCISE	DISAM ANSWER
a	YES, there is \$631,627.22 value indicated in UNPROGRAMMED CASE VALUE that MAY be available for new requirements. But due to the time delay in posting the IA systems, it is always best to confirm the data with the CASE MANAGER.
b	B=Cash prior to delivery = Material from Stock, and C=dependable undertaking = Material from Procurement. The material is coming from multiple (stock and procurement) sources which is why there are multiple terms of sale.
c	Total Collections = \$4,078,833.00
d	YES. Total Case Value (\$4,078,833.00) = Total Collections (\$4,078,833.00)
e	Yes. \$1,816,378.84) and this amount is allocated to the total collections
f	A=Cash With Acceptance. If the Terms of Sale for this case was “Cash with Acceptance”, the customer would be required to pay 100% of the Total Case Value when they accepted the case. There would be no payment schedule.

Exercise #19	
EXERCISE	DISAM ANSWER
a	TA=V, Cooperative Logistics Supply Support Arrangement (CLSSA)
b	3.8% for this line. Depending on the type and when the case was originally implemented or amended, the values can be 2.5, 3.0, 3.8, or 5.0%.
c	"Net Line Value"
d	The Estimated Accessorial Value includes "Total of estimated administrative costs, estimated other costs, estimated packaging, crating, and handling costs, and estimated Supply Support Arrangement charge for a case. Value is computed when required on an output report or product."
e	Unshipped Requisition Value: \$5,003,890.83. YES, you could potentially cancel the requisitions to free up the funds if the items are no longer needed. Be very careful! If the items are on contract, you could be subject to significant termination charges. Talk to Case Manager first!
f	Shipped Unbilled Requisition Value = \$2,132,982.35. Unbilled means they have been shipped but not yet paid to the provider of the material or service.

Exercise #20	
EXERCISE	DISAM ANSWER
a	X=Mixed. Line material and/or services is planned to be provided from both USG stock and procurement. CAS will apply to items from the procurement.
b	For DTC 4, customer pickup at origin or shipped Collect Commercial Bill of Lading (0%). For DTC 5, shipped to the F/F, DWCF=0%, for non-DWCF=3.75%.
c	For this line CAS = 1.5%%. No portions have been waived by reciprocal agreement at country level, and there is procurement planned for the line based on the Source of Supply Code of 'X'.
d	2.5% for this line. Depending on when the case was originally implemented or amended, the case's line administrative charge % values can be 0, 2.5, 3.0, 3.8, or 5.0%. If new requirements are being added to the case, then a new line is added at the current 3.8% rate.
e	MDE =N. NC changes do not apply. If code was 'Y', SAMM Appendix 1 is the reference for the applicable NRC that would be charged. If it was applicable to this line, and not been waived, the NC would have been included in the line item's Unit Price.
f	\$1,337,648.58 for this line. Expended means a disbursement has been recorded against an obligation, i.e., the bill from the source of supply has been paid by DFAS. You should contact the CASE MANAGER to determine the current situation on the items that are Unshipped.

Exercise #21	
EXERCISE	DISAM ANSWER
a	Case Identifier = BN-P-KAO
b	The user can you change the view to another FMR sheet in the spreadsheet results by clicking the Microsoft Excel spreadsheet tab at the bottom of the file for the desired case identifier.
c	The Case's Programmed Value is \$2,748,749.75. The Case's Unprogrammed Value is \$1,104,718.25
d	\$2,651,483 has been collected from the customer to date.
e.	The Total Delivered Value to date is \$2,700,992.72 which is the value of all the material and services delivered to-date to the customer.

Exercise #22	
EXERCISE	DISAM ANSWER
a	Cash from the Customer/Purchaser
b	Total Collections = \$576,101.00
c	The Total Case Value (\$31,140,000.00) has NOT been collected yet. The USG still needs to collect \$ 30,563,899 (31,140,000 - \$576,101) from the purchaser.
d	No, the customer doesn't have an interesting bearing account.
e	Total Case Value (TCV) includes both above and below the line charges. Net Case Value (NCV) only includes the above the line charges.
f	The Termination Liability payments is essentially for a USG insurance policy/escrow account to be used to pay off the liabilities to the procurement contractor(s) if the purchaser invokes their T&Cs right to cancel the LOA prior to the contract with the vendor being completed.
g	The quarterly payments on the Payment Schedule are based on the expected quarterly costs that the USG expects to incur in the upcoming quarter.

Exercise #23	
EXERCISE	DISAM ANSWER
a	Closure Code =R. Indicates case is Supply Complete and has undergone financial review by AFSAC. Certificate of closure has been sent to DFAS-IN or statement to SAF/IA
b	N=Undefined (Used by the Air Force Only)
c	NO – all ordering stops when case is coded Supply Services Complete.
d	YES
e	06/30/2014
f	Case is fully collected. TCV \$26,131,777.00 = Total Collections. Case Manager must always reconcile the case before it can be final closed. If collections do not equal TCV, then Case Manager may need to coordinate with DFAS and potentially process Modification.

Exercise #24	
EXERCISE	DISAM ANSWER
a	Case Status: IC. Closed-Interim
i	Closure Code = 2 – Closed Via DD645.
ii	Blank
iii	Blank
b.	Yes
c.	Actual Date Closed 08/27/2010
d.	Funds are recorded and held in the Case Closure Suspense Account (CCSA). A copy of the report is provided as an attachment with each quarterly DD645

Exercise #25	
EXERCISE	DISAM ANSWER
a	Cash from the Customer
b	Case Status: C. Closed-Final
i	Closure Code: F = Case is supply and financially complete and can be retired
ii	Closure Candidate Code: N = Undefined
iii	Closure Certificate Status Code: 3 = Finalization of interim closure after contract closed
c.	Yes
d.	Actually closed on 05/18/2010

Exercise #26

See the following **Ad Hoc Report for Implemented Cases with a Total Case Value of less than \$400,000**. There are 21 cases which meet the criteria based on the Exercise #1 Case Status Report (I)

Implemented Cases with a Total Case Value of less than \$400,000.**Case Status Report (I)****Country: BN (Bandadria)**

Type equals 'I'

Case ID	Case Description	Total Case Value
BN-D-BAP	BLANKET ORDER-PHASE III HAWK	\$350,000.00
BN-B-BAQ	ARMY FMS LOG	\$40,814.00
BN-B-BAV	SPARE PARTS BLANKET ORDER - AVENGER	\$250,000.00
BN-B-IBD	EXCESS DEFENSE ARTICLES	\$118,311.00
BN-B-IBN	EXCESS DEFENSE ARTICLES (EDA)	\$30,069.00
BN-B-IBP	EXCESS DEFENSE ARTICLES	\$128,989.00
BN-B-IBR	XM304 HAWK LAUNCHER-TRANSPORTER	\$50,818.00
BN-B-IBS	HAWK MISSILE SYSTEM	\$172,455.00
BN-B-IBY	EDA HAWK MISSILE PALLETS AND TRAILERS	\$96,689.00
BN-B-KIE	FMSO I FOR TOW	\$289,429.00
BN-B-KRH	FMSO 11 TOW MISSILE SUPPORT	\$393,936.00
BN-B-TEE	BLACK HAWK PUBLICATIONS BOE	\$220,814.00
BN-B-TEF	PUBLICATIONS	\$120,815.00
BN-B-TEG	PUBLICATIONS FOR COBRA HELO PROGRAM	\$169,816.00
BN-B-TEH	PUBS	\$10,000.00
BN-D-QAS	WORLDWIDE WAREHOUSE REDIST SRVC	\$164,800.00
BN-P-JMS	F-5 AIRCRAFT/WEAPONS SYSTEMS SPARES	\$150,188.00
BN-P-JUU	GUIDED MISSILE PARTS COMPONENTS	\$200,000.00
BN-P-JUV	UNIFORMS, CLOTHING, & INDIVIDUAL EQUIPMT	\$350,000.00
BN-P-MAE	REPAIR OF REPAIRABLES FOR FFG 7	\$250,000.00
BN-U-JSJ	REQUEST FOR DMA PRODUCTS	\$20,000.00

SCIP MISCELLANEOUS ADVANCE EXERCISES (#27 TO #28)

Exercise #27	
EXERCISE	DISAM ANSWER
a	1951 report results were found.
b	The 'real-world' event occurred that the "POE Arrive" column is referring to is that the shipped material physically was delivered by the USG to the Port of Embarkation (POE) designated by the foreign purchaser, and loaded onto the Foreign Purchaser or chartered aircraft or vessel by the USG.
c	The 'real-world' event occurred that the "POD Arrive" column is referring to is that the shipped material physically was delivered by the USG to the Port of Debarkation (POD) designated by the foreign purchaser and offloaded by the USG to that POD from the USG or chartered aircraft or vessel.
d	If a requisition(s) has been shipped but only has data on the report to the "POE Arrive" column", some of the reasons that there is no further transportation data provided for that shipment is that the foreign purchaser now has control of the shipment and is not enrolled and reporting to EFTS, or there could be gaps in the USG transportation reporting.

Exercise #28	
EXERCISE	DISAM ANSWER
a	The "FSC" is the Federal Supply Class is a 4 letter code which identifies the category and type (i.e. general characteristics) of equipment. The "NIIN" is the National Item Identification Number which is a 9-digit numeric code which uniquely identifies an item of supply in the National or NATO Codification System (NCS).
b	The purpose of the Acquisition Advice Code (AAC) column is to indicate how (as distinguished from where), and under what restrictions an item will be acquired.
c	The "SOH" (Supply on Hand), "Last Demand Date", and "Monthly Consumption Quantity" data for each listed item could be used to assist in adequately planning/provisioning of your country's logistics management of those item(s), by identifying whether or not there is sufficient material in the USG stock to acquire the required items in a timely manner vice the USG having to put the material on procurement prior to having it available to ship to your country.
d	The significance and meaning of the "Replenishment Item Stock-Out" indicates that material is currently out of the USG stock and will need to first be procured from appropriate vendor(s). "Replenishment Item Potential Stock-Out" indicates that the remaining items in stock for that item are limited and will soon require replenishment from appropriate vendor(s). The "Get Well Date" column indicates the date the USG expect the item will once again be adequately stocked. All of the above would it be important for you to note that information when managing your country's logistics requirements as all would give vital information to plan for logistic requirements.

APPENDIX 5: SCIP Help Guides

There are numerous SCIP Help Guides that are available for user reference and information.

Following is a list of the significant SCIP Guides and the location in SCIP where the users can access them:

- Logon Guide (Location: Logon Page)
- Help Community Guides (Location: Home Community....Help)
 - Case Information User Guide
 - SCIP Help Descriptions
 - Corporate Info User Guide
 - Help Desk User Guide
 - International Customer Token Access Guide
 - Logon Guide
 - SCIP Acronyms
 - SCIP Background
 - Token Administrators Guide
 - U.S. Government (USG) / SCO Token Access Guide
 - Partner Info User Guide
- SCIP-EUM Handbook (Location: EUM Community..Support..Resources Other Documents)

Note: Many of the above SCIP Help Files and guides are also available in other SCIP communities by clicking those other community's Help option on the community menu bar.
