

TMS 7.01.03 Installation

The current version of TMS is **TMS 7.01.3 03-Aug-07**

If needed, upload your data to the SAN prior to replacing TMS with this new version. You may want to wait until the next day to install the new version. This will give your "recent" data upload, time to cycle through DSAMS and be sent back to the SAN, ready for download.

Directions to Download and Install TMS 7.01.3 03-Aug-07:

(* Do not delete the TMS files currently on your computer.)

1. Log on to the SAN.
 2. Hover over, **Libraries**
 3. Select, **Training**
 5. Click, **List Items in Training Library**
 6. Locate the title:
 - **“TMS 7.01.3 03-Aug-07 SAO”** - If TMS 7 is *already installed* on the computer and click it.
 - **“TMS 7.01.3 03-Aug-07 SAO Complete”** - If TMS 7 *is not installed* on the computer and click it.
 7. Click, **Download**
 8. If asked, Do you want to save or run this file? answer, **RUN** or **OPEN**
 9. If asked, Are you sure you want to run this software? answer, **RUN**
 10. Click, **Unzip**
 11. 1 File(s) unzipped successfully, click **OK**
 12. Click, Close, to close Winzip

 13. **Open TMS 7.01.3** (just like normal)
 - **“TMS 7.01.3 03-Aug-07”** will be displayed at the top left of the Main Menu.
 14. Click, **Country Information**
 15. Select, **Profile**
 16. Click, **Add**
 17. Enter your **country code**, and click **OK**
 18. Click, **Save/Close** on Country Profile Screen (you do not have to fill in the information; it will come in with the STL).
 19. **Download and Import** the (1) Reference, (2) MASL and (3) STL files.
- o **When importing the STL** for the first time:
- Prior to clicking “Step 2. Import Country Data” button, select **“Replace Mailing Address on Country Profile form”**
 - Then click **“Step 2. Import Country Data”** button.
 - After the STL import is complete, you will get a list of your POCs.
 - First, click the **OK** button on the message that says, “Import Complete”.
 - Then, when you **double click one of the POCs** on the POC list, their address will be entered on the Main Country Profile window.

- Return to the Country Profile Screen in TMS and complete the “**ITO Authorizing Signature**” and “**Title**” fields.

- Remaining TMS 7 operations are back to normal

(TMS Networked: If your TMS 7 is networked and you wish to remain networked, you will have to go through the TMS networking process again with this version, which includes putting this version on the Server. See TMS Handbook Chapter 13.

Troubleshoot:

If you get a message stating, “The publisher could not be verified...Unknown Publisher” or you are unable to choose Run or Open when downloading TMS, follow the steps below to make a change to your Internet Options that will allow you to work around this problem.

1. Click "**Start**" > "**Control Panel**" > "**Network and Internet Options**" > "**Internet Options**".
2. Click the "**Advanced**" tab and scroll down to the "Security" section.
3. Check "**Allow software to run or install even if the signature is invalid**".
4. Click "**Apply**" and then "**OK**".
5. Restart your download.

You should have the option to click "Run" or "Open" and be able to install TMS.
