Security Cooperation Information Portal (SCIP) Case Information Exercise and Guide 4 June 2008

This *Exercise* will teach you to use the **Security Cooperation Information Portal (SCIP)** system. It will acquaint you with the broad range of international logistics and financial information that is now available via the web. Please understand that this system is quite dynamic and is continuously being improved. Consequently, there may be differences between the *current* web site content and this *Exercise*. Please take your time and follow the *step by step* instructions that are provided, until you become more familiar with this site. When you return home, you will find that this *Exercise* will serve you and others in your office as a *Guide* to using this web site. All the *Exercise* questions are based on the materials you have covered in your previous classes or will in future class sessions.

Accessing the Security Cooperation Information Portal (SCIP) Web Site

For the purpose of this exercise, each USG student will be given a **temporary** account. This SCIP account expires when the student graduates from DISAM. To obtain a **permanent** SCIP account, the student must submit the required registration form, which is available at <https://www.scportal.us>. This information is sent to the Defense Security Assistance Development Center (DSADC) in Mechanicsburg, Pennsylvania, which manages the SCIP. If you already have an active SCIP account, you are required to use it.

The SCIP is designed for use by USG personnel, Foreign Service Nationals (FSN), host nation (international) personnel, and their freight forwarders. **Host nation** and **freight forwarder** personnel may obtain a SCIP account (and token) only after first coordinating with their **Host Nation Token Administrator (HNTA)**. **For FSNs**, if you have been issued a token, you will need it in order to access SCIP. If you have not been issued a token, DISAM will assign a temporary account for you.

The **Security Cooperation Information Portal (SCIP) Web Site** provides access to a wide range of information that covers the management Foreign Military Sales (FMS) cases. You will want to create a *Favorite* (MS Internet Explorer) on your computer to facilitate accessing this and other international sales web sites.

Information on SCIP, including the blank registration forms, frequently asked questions (FAQs), a SCIP Customer Assistance Handbook, and the link to the SCIP itself, can be found at the link labeled **SCIP** at the top of the DISAM home page.

In order to access the SCIP type the following in the address line of your Internet browser:
<https://www.scportal.us>. The SCIP login screen will appear as show in the screen capture below.

If you have been given a **temporary** User ID, enter the User ID, click on **Continue** and the following screen will appear asking for input of your **temporary** Passcode. For Non-US users, see your instructor for Logon instructions using your token.

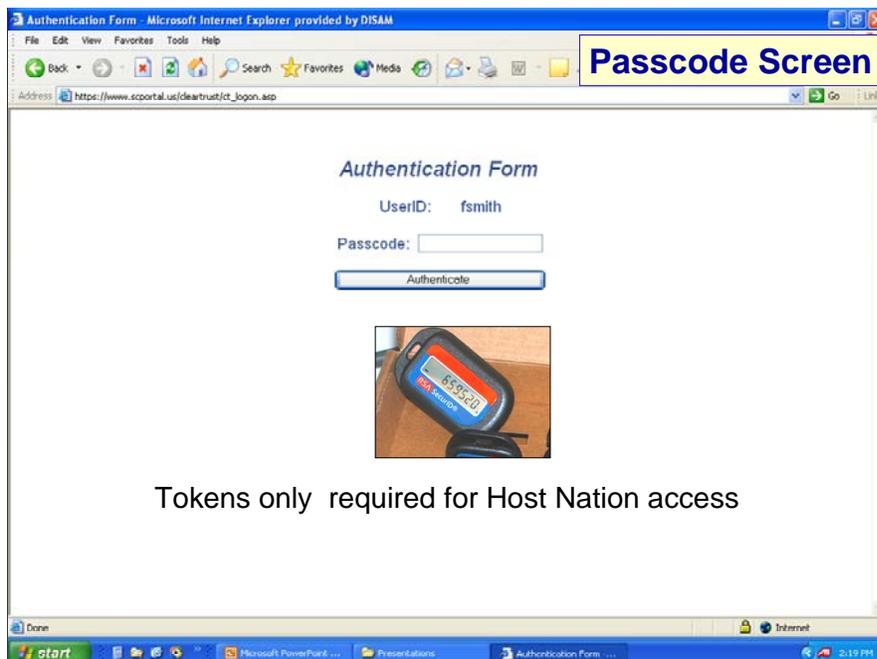

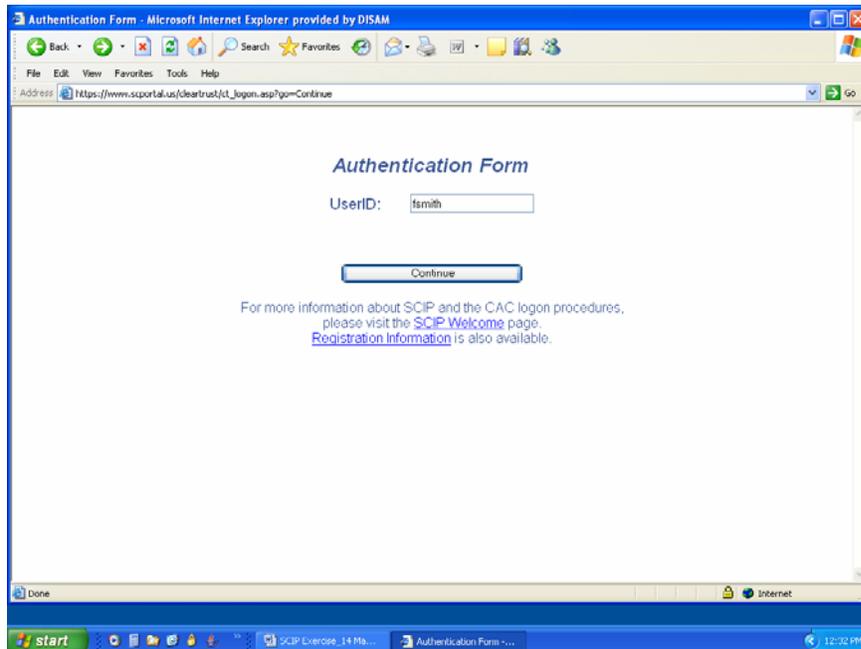

Important DSCA Policy Memos

DSCA 03-11 - Enrollment for the Security Assistance Cooperation Portal (SCIP)

DSCA 05-17 - Security Cooperation Information Portal (SCIP) Electronic Token Issuance and Replacement Processes

DSCA 06-30 - Security Cooperation Information Portal (SCIP) Usage

All DSCA Policy Memos can be found on the DSCA Home page <http://www.dsca.mil/samm/>

After entering your Passcode click on **Authenticate**.

Assuming your User ID and Passcode were input correctly and accepted, you will see the Welcome screen next.

Check the **Announcements**. Next you need to look toward the top of the **Main Menu** for all the option tabs. The number of tabs visible will depend on the permissions you have been granted. First, highlight the **Case Information** then click.

Next select **Case Status** and click. Note the **Refresh Status**. If all the indicators are green, all is well. If yellow or red, the data for that IA is not current or is suspect.

Student Requirements

- I. Overview
Complete Case Information Exercises #1- #5 as directed by your instructor.

- II. Logistics Track
Complete Logistics Exercises #6 - #16 as directed by your instructor.

- III. Financial Track
Complete Finance Exercises #16 - #24 as directed by your instructor.

OVERVIEW EXERCISE

Instructions:

1. Refer to the Case Status by Case Status report to answer Exercise #1.
2. Refer to the Case Status Detail screen to answer Exercise #2.
3. Refer to the Case Line Detail screen to answer Exercise #3.
4. Refer to the Case History screen to answer Exercise #4.
5. Refer to the Requisition Summary screen to answer Exercise #5.

Exercise #1

The **Case Information>Case Status** screen is divided into two sections. The left side of the screen is a **Case Status Summary** which shows total the number of FMS cases and the corresponding dollar value, by status. There are seven possible case statuses, as recorded in DSAMS, which reflect the “life cycle” of an FMS case. See the ENHANCED HELP in this handout for definitions. If a country (or program) has no FMS cases in a certain status, that status will not display on the screen at all. The right side of the screen shows detailed FMS information for the same country (or program) sorted in three different ways. The sorts are separated by a horizontal blue line.

If you are using the INTERNET, answer the following exercise questions by scrolling down the right side of the screen. You will notice that all cases are first displayed by *Case Status by Status* (D, P, O, A, I, SSC, IC, C), then *Case Status by Implementing Agency* (IA) and finally *Case Status by Customer Service*. These features are useful to determine how many cases are in each status, how many cases the Customer Service has with each IA, or if the Customer Service has cases with more than one IA. **If you are NOT using the INTERNET**, use the attached *Case Status by Status* to answer the questions. **The Case Status Reports that follow were created using the PRINT THIS VIEW option.**

Exercise #2

The *Case Status Detail* report gives you overall information about a particular case. This report includes selected case, financial, and requisition data including case manager, case dollar values, the terms of sale, and information on amendments and modifications.

If you are using the INTERNET, HIGHLIGHT and choose one of the larger cases for your country (look for a Blanket Order or CLSSA case). Make sure **Case Status Detail** option is selected in the Pick List and then click on **View Report**. **If you are NOT using the INTERNET**, use the examples below to answer the questions.

Exercise #5

This *Requisition Summary* report displays a roll-up of all of the Customer Service requisitions. Scrolling down you will first see a *Requisition Summary By Implementing Agency* followed by *Requisition Summary By Customer Service*. The left portion of the screen gives a country roll-up by categories such as unshipped, shipped unbilled, etc. The right portion of the screen breaks out the requisitions the same way only now it is at the Implementing Agency and country service level.

If you are using the INTERNET, HIGHLIGHT the *Requisition Summary* and answer the questions for your country data. If you are NOT using the INTERNET, use the example below to answer the questions.

Requisition Group Code Summary		Requisition Summary By Implementing Agency			
BN (Bandaria)		Country: BN (Bandaria)

Requisition Summary exercise questions for your country:

- a. What is the **total number** of requisitions for each of the Implementing Agencies?

Army? _____

Air Force? _____

Navy? _____

Others? _____

- b. How many **shipped expended** requisitions are there?

Army? _____

Air Force? _____

Navy? _____

Others? _____

c. How many **shipped unbilled** requisitions are there?

Army? _____

Air Force? _____

Navy? _____

Others? _____

What does this mean to you if there are a lot of shipped unbilled requisitions?

d. How many requisitions have been **cancelled**?

Army? _____

Air Force? _____

Navy? _____

Others? _____

What does it mean to you if there are a lot of cancelled requisitions?

By scrolling down the screen, you can also ask the same type of questions for the *Requisition Summary By Customer Service*.

You can look for trends. For example, you may discover that all the cancelled requisitions are from just one of your customer services or are all against the same case.

REQUISITION, SUPPLY DISCREPANCY REPORT (SDR), EXERCISES

Instructions:

1. Answer the Case Information>Case Status questions on active requisitions in Exercise #6
2. Fill in the SCIP Requisition Input form in Exercise #7.
3. Refer to the SCIP Active Requisitions and other data source screen captures to answer the logistics questions in Exercises #8 - #11.
4. Answer the Case Information>Case Status>SDR List questions on SDR in Exercise #12.
5. Answer the SDR Detail questions on SDR in Exercise #13.
6. Fill in the SCIP Input form for Exercise #14.
7. Create an Adhoc Report as directed in Exercise #15.

Exercise #6

The *Active Requisitions* report lists all OPEN requisitions on the selected case and those shipped within the past 90 days. If there are no active requisitions on the case the screen will include a statement that there are no active or recently shipped requisitions. Currently the USAF does not provide the final shipment status so there are not requisitions with a Transportation Control Number (TCN). The Pop Up screen displays the first 15 requisitions. To see the rest you need to scroll down. The total number of requisitions is displayed below the Pop Up screen.

If you are using the INTERNET, HIGHLIGHT one of the larger cases for your country (look for a Blanket Order or CLSSA case). Make sure **Active Requisition** option is selected in the Pick List and then click on **View Report**. (i) Choose any open requisition with no TCN); (ii) then choose one with a TCN. **If you are NOT using the INTERNET**, use the example of a requisition without a TCN that follow to answer the questions.

EXERCISES

Instructions:

1. Refer to the various Case Detail Status, Case Line Detail and Payment Schedule Report screen captures to answer the financial questions in Exercises #16- #23
2. Create an Adhoc Report as directed in Exercise #24

Exercise #16.

If you are using the INTERNET, HIGHLIGHT and choose one of the older cases for your country. Make sure **Case Status Detail** option is selected in the Pick List and then click on **View Report**. Select three or four different cases. **If you are NOT using the INTERNET**, use the examples below to answer the questions.

OVERVIEW OF THE SECURITY COOPERATION INFORMATION PORTAL (SCIP)

The Defense Security Cooperation Agency (DSCA) has established a website known as the Security Cooperation Information Portal (SCIP). This portal enables international customers, customer agents and United States Government personnel, with appropriate permissions, to (1) view Foreign Military Sales (FMS) case, line, requisition, and Supply Discrepancy Report (SDR)-level information obtained daily from all U.S. Military Department (MILDEP) Case Execution systems and the tri-service Case Development system (DSAMS), and (2) input a variety of FMS MILSTRIP and MILSTRIP-like transactions, which are partially validated in the SCIP, and then passed directly to the appropriate MILDEP Case Execution system for processing. For more information about SCIP please review the [SCIP Background Document](#).

New SCIP Registration (SAAR) Form:
 A new SCIP Registration (SAAR) form dated 09 Feb 2008 has been released to the REGISTRATION INFO link on the Welcome page for immediate use. Please encourage all requestors to use this latest form Only. ALL previous versions of the SCIP SAAR Form from 2004 through 2007 will no longer be acceptable, due to the new requirements and additions that have been included at the request of the various data owners. Please disseminate this information to all interested parties.

++ 18 October - 1200 EDT: SCIP OUTAGE SCHEDULED ++
 The SCIP website will be unavailable on **Thursday 18 October 2007** from approximately **1200 to 1300 EDT**. This outage is necessary to implement server software upgrades.
Inactive Password Accounts To Be Deleted
 Effective Monday, 15 October 2007, we will begin eliminating all SCIP **password** accounts with no recorded log-on activity after 01 January 2007. To obtain a new SCIP account, users must complete the new SCIP Registration Form found on the SCIP Home page under the Registration Information Tab. All new accounts will use a two-factor authentication method (i.e. CAC, DOS Smart Card, Electronic Token, Commercial Software certificate, etc.). Password accounts will no longer be issued.

Suitable substitute acceptable ("Fill or Kill").</p> <p>2G - Multiple use: (1) Ship new stocks or stocks having new appearance; (2) Strategic mission requires latest model and configuration (for electronic tubes); (3) Strategic mission requires newest stock only (for photographic film or for aerial requirements for ammunition devices or cartridges); (4) Anticipated usage requires latest expiration dates only (for biological items).</p> <p>2L - Quantity reflected in quantity field exceeds normal demands, however, this is a confirmed valid requirement.</p> <p>22 - Combination of Advice Codes 2C and 2L.</p> <p>23 - Combination of Advice Codes 2L and 2G</p> <p>26 - Combination of Advice Codes 2B and 2L.</p>
Administrative CLSSA Value	Supply Support Arrangement charges on a FMSO I case.
Administrative Surcharge Value	Costs that are added to the base material or service value to determine the full cost to be charged to the customer.
Administrative Surcharge Percentage	Identifies and office of the Secretary of Defense (OSD) prescribed percentage that will be applied by DFAS to compensate for administrative costs for the line item.
Basic LOA Implementation Date	The date case was implemented
Basic LOA Country Acceptance Date	The date case was accepted
Billing RIC	For Army and Navy, Routing Identifier Code (RIC) of the supply responsible for the delivery reporting of the material requisitioned; same as Managing RIC. For Air Force, one-character code on billing transaction indicating source of delivery report.
Blanket Order Case	Identifies the case as an agreement with the foreign country or international organization for a category of material or services with no definitive listing of items or quantities. The default value for this field is "N". This field is changed to "Y" when the case is categorized as a blanket order or a FMSO II case. Codes: Y=The case is a blanket order case. N=The case is not a blanket order case.

Cancelled Requisition Value	The total value of cancelled requisitions. (Note: Some requisitions may have been cancelled at zero dollar value, which may not allow you to easily determine the original obligated value of all cancelled records)
CAS Percentage	Identifies the percentage surcharge to be applied by DFAS to all disbursements for FMS new procurement for which applicable contract administrative services charges have not been waived.
Case Designator Code	Three position Alphabetic code that denotes a specific sales agreement between the USG and the international customer. Assigned by the IA at the time the "Case" is developed. May not be unique across IAs.
Case Description	A short description of the basic case, as entered by the IA. This description will be printed on the Letter of Offer and Acceptance (LOA).
Case Line	Identifies detailed line item on an LOA
Case Status	From DSAMS: D-Development. LOR Received and LOA being developed P-Proposed. Awaiting MILDEP signature and DSCA countersignature. O-Offered. LOA countersigned by DSCA and the MILDEP has sent the LOA to the customer for acceptance. A-Accepted. Customer returned Accepted LOA to the MILDEP I-Implemented. Obligational Authority issued, case is Implemented and available for execution SSC-Implemented. MILDEP declares the case Supply Services Complete. No new requisitions allowed. IC-Interim Closed.\ Final expenditures estimated and collected (ULO). Case at DFAS. Final bill issued to customer. C-Closed-Final DFAS declares all final expenditures received.
Case Status Code	From DSAMS: D-Development. LOR Received and LOA being developed P-Proposed. Awaiting MILDEP signature and DSCA countersignature. O-Offered. LOA countersigned by DSCA and the MILDEP has sent the LOA to the customer for acceptance. A-Accepted. Customer returned Accepted LOA to the MILDEP I-Implemented. Obligational Authority issued, case is Implemented and available for execution SSC-Implemented. MILDEP declares the case Supply Services Complete. No new requisitions allowed. IC-Interim Closed.\ Final expenditures estimated and collected (ULO). Case at DFAS. Final bill issued to customer. C-Closed-Final DFAS declares all final expenditures received.
Contract Number	Identifies contract used to procure the item
Customer Request Date	The date placed on the Customer Request by the Customer Organization
Case Manager	Name of case manager from DSAMS
Cancelled Requisitions	Total number of cancelled requisitions
Customer Request Reference Text	Text used by the Customer Organization to uniquely identify the request letter
Case Version	Identifies whether the case version is basic (B), modification (M), amendment (A) or implemented (I)
Case Version Description	Describes why the case version (Modification or Amendment) was initiated
Cash Collections	Collections received by DFAS other than the Foreign Military Financing (FMF) program financed funds.
Closure Code	Indicates whether the case is open, or in one of various states of closure. For ARMY: 0-Open, 1-Certified for closure, 2-Closed via DD 645,

	<p>3-Revised certificate issued, 9-Cancelled case; For NAVY: blank-Active, no closure action pending, Q-Supply and financial action has been frozen, H-Case is not eligible for customer-submitted requisitions, W-Supply complete, I-ULO case is pending interim closure or is interim closed, F-ULO case is pending final closure, S-Non-ULO case is pending closure, M-Case is closed by both Navy and DFAS; For AIR FORCE: A-Case is being held in abeyance. C-Case is cut off for financial reasons. D-Case was established and is deleted. F- Case is supply and financially complete and can be retired. I-Case is open and active. M-Line item on an AFMC multi-line case that is supply complete. R-Case is supply complete and has undergone financial review by the AFSAC. Certificate of closure has been sent to DFAS or statement to SAF/IA. S-Case is cut off for supply or other reasons. X-Case is supply complete and the Notice of Supply/Services has been issued..</p>
Closure Candidate Code	Air Force only: N-undefined
Closure CertificateStatus Code	<p>1-Non-ULO case closure. 2-Interim closure under ULO procedures. 3-Finalization of interim closure case after contract closed.</p>
Closure Type Request Code	<p>Indicates the type of closure requested. For ARMY: 1-Non-ULO case closure, 2-Interim closure under ULO procedures. 3-Finalization of interim closure case after contract closed. For NAVY: 1-non-ULO case pending closure or closed, 2-ULO case pending interim closure or interim closed, 3-ULO case pending final closure or final closed, Blank-all others, For AIR FORCE: A-Pending closure type 1 - non-participating country. 1-Case closed - non-participating country. B-Pending closure type 2 - participating country. 2-Interim closure - unliquidated obligation (ULO) exists participating country. C-Pending closure type 3 - participating country. 3-Final closure – ULO cleared – participating country</p>
Counter Signature Required	Used to indicate whether DSCA Counter Signature is required on a Case, Amendment, or Modification before that Case or Change can be implemented. DSCA signs all Basic LOAS, all changes to MAP and Credit Funded Cases and changes that increase the case value by \$50,000. "Y" indicates DSCA Counter Signature is needed, and "N" indicates DSCA Counter Signature is not needed.
Country Follow-ups for Materiel Return	Applies to Navy and Air Force only. For Navy SDRs with Progression Code "EG", dates the 1st and 2nd follow-ups were sent to the customer to remind him to return the material. For Air Force, a one-position code indicating the number of follow-ups sent to the customer for materiel returns.
Current Status Code	A two-position field. The requisition latest status code reflects the MILSTRIP status that last processed to a supply action. If the supply action is not shipped or

cancelled, the latest status code gives the disposition of the record at this specific time. Some common codes:

BA - Item being processed for release and shipment.

BB - Item backordered against a due-in to stock.

BD - Requisition is delayed due to need to verify requirements relative to authorized application, item identification. Upon completion of review or procurement, additional status will be provided to indicate action taken.

BH - Service/Coordinated/approved substituted/interchangeable item, identified in stock number files will be supplied. Examine unit of issue, quantity and unit price fields for possible changes.

BK - Requisition data elements have been modified as requested. Examine data fields in this status document for current requisition data.

BP - Item is on backorder or procurement for direct delivery. Shipping action will be delayed.

BQ - Cancelled. Results from receipt of cancellation request from requisitioner, consignee, manager, or other authorized activity. De-obligate funds, if applicable.

BU - Item being supplied against your Foreign Military Sales Case Designator reflected in RP 48-50; or your Grant Aid Program and Record Control Number reflected in RP 46-50. This document represents a duplicate of the requisition prepared by the US Military Service.

BV - Item procured and on contract for direct shipment to consignee. The contract shipping date is entered in RP 70-73. Cancellation, if requested, may result in billing for contract termination and/or transportation costs, if applicable.

BW - BW - Your FMS/Grant Aid requisition containing this document number has been received by the ILCO and submitted to the supply system.

BZ - This requisition is being processed for direct delivery procurement. Upon completion of procurement action, additional status will be provided to indicate the action taken. The ESD is shown in RP 70-73.

B4 - Confirms customer cancellation with termination charges. The price field contains "unit termination charge."

B7 - Unit price change. The latest unit price for the item identified by the stock or part number in RP 8-22 is reflected in RP 74-80.

CA - Rejected. (1) Initial provision of this status will be narrative message. The message will also state the reasons for rejection. (2) When provided in response to a follow-up this status will be sent via AUTODIN and no reasons for rejection will be included.

CB - Rejected. Initial requisition requested rejection of that quantity not available for immediate release or not available by the SDD or RDD. Quantity field indicates quantity not filled.

CE - Rejected. Unit of issue in original requisition, which is reflected in RP 23-24 of this status document, does not agree with ICP unit of issue and cannot be converted. If still required, submit a new requisition* with correct unit of issue and quantity.

CG - Rejected. Unable to identify requested items. Submit a new requisition and furnish correct NSN or Part Number. If correct NSN or part number is unknown or if Part Number is correct, submit a new requisition* on DD Form 1348-6 furnishing as much data as is available.

CJ - Rejected. (1) Item coded (or being coded) "obsolete" or "inactivated." Item in stock number field, if different from item requisitioned, can be furnished as a substitute. Unit price of the substitute item is in RP 74-80. (2) If offered substitute is desired, submit a new requisition* with substitute item stock number. (3) If only original item is desired submit a new requisition* for procurement on DD Form 1348-6. SF 344 may be submitted by authorized activities. Cite advice code 2B. Furnish technical data, e.g., end item usage, component, make, model, series, serial number, drawing, piece and/or part number, manual reference, applicable publication.

	<p>CK - Rejected. Unable to procure. No substitute/interchangeable item is available. Returned for supply by local issue of components, kit, or next higher assembly. Suggest fabrication or cannibalization. If not available, submit a new requisition* for components, kit or next higher assembly</p> <p>CS - Rejected. Quantity requisitioned is suspect of error or indicates excessive quantity. Partial quantity being supplied. Quantity field in this transaction reflects quantity rejected. If requirement still exists, submit a new requisition for the required quantity using Advice Code 2L.</p> <p>C8 - Rejected. Vendor will not accept order for quantity less than the quantity indicated in RP 76-80. If requirement still exists, submit a new requisition* for a quantity that is not less than that reflected in RP 76-80.</p>
Current Status Date	A five-position date consisting of the last two positions of the calendar year and the Julian data contained in the supply or shipment transaction that posted to a supply action.
Customer Assigned SDR Number	Customer-assigned number, consisting of one alpha character to identify the country's initiating office and four numeric characters for serial number control, which, when used in combination with the Country Code, the Implementing Agency and the Case Designator, will uniquely identify the SDR.
Customer Service Type ID	One-character field for the unique identifier that represents the military service of the purchasing country. Codes: <p>B-Army, D-Air Force, K-Marine Corps, P-Navy, T-Other</p>
Customer Requisition Allowed	Identifies the case as being eligible for customer requisitioning/requisition case forecasting procedures. This DSAMS code is not currently used by the legacy systems to allow/disallow requisitioning, but is intended for future use. Codes: Y=Case is eligible for customer requisitioning/requisitioning forecast procedures, N=Case is not eligible for customer requisitioning/requisitioning forecast procedures
Country Follow-ups for Materiel Return	Applies to Navy and Air Force only. For Navy SDRs with Progression Code "EG", dates the 1st and 2nd follow-ups were sent to the customer to remind him to return the materiel. For Air Force, a one-position code indicating the number of follow-ups sent to the customer for materiel returns.
Date Received-SF364	Date the SDR was received at USASAC, NAVICP-OF, AFSAC
Date Established	Date the record was established in the applicable system
Date of Shipment	Date that the United States shipped the freight to the customer
Date Financially Complete	Date of SDR financial completion
Date Logistically Complete	Applies to Army and Air Force only. The date the SDR was closed in CISIL or SAMIS
Date Material Turned In	
DFAS-IN Billing Date	Date billed on the DD645 Quarterly Billing Statement
Date of Preparation	Date of SDR preparation information is not displayed in SCIP
Date Sent to Source of Supply	Date requisition was forwarded to the action agency (SOS)
Date Materiel Return Suspense	Applies to Navy and Air Force only. For SDRs requiring return of materiel, the deadline for the materiel to be returned to the USG for credit.
Date Materiel Turned-in	Applies to Air Force only. For SDRs requiring return of materiel, the date evidence of materiel return is received by the SDR Division at AFSAC.
Delivery Term Code	The delivery term code (DTC) identifies the point to which the United States Government is responsible for moving the FMS customer's item. Delivery term codes are shown on the letter of offer and acceptance in column seven, and on the MILSTRIP requisition in record position 34. Codes:

	<p>2 - To a CONUS inland point (or overseas inland point when the origin and destination are both in the same geographic area) such as a staging location.</p> <p>3- At the CONUS POE alongside the vessel or aircraft.</p> <p>4 - Delivery at origin. Purchaser has full responsibility at the point of origin. Often forwarded collect to country freight forwarder.</p> <p>5 - At the CONUS POE on a CBL/GBL using DTS. If using a Freight Forwarder, DTC 5 indicates delivery to that Freight Forwarder on a CBL/GBL.</p> <p>6 - At the overseas POD on board the vessel or aircraft.</p> <p>7 - At the overseas inland destination on board the inland carrier's equipment.</p> <p>8 - At the CONUS POE on board the vessel or aircraft.</p> <p>9 - At the overseas POD alongside the vessel or aircraft.</p> <p>0 or Blank - Transportation is not applicable.</p> <p>A - US/DoD is responsible for transportation from an overseas POE to a CONUS destination and return to overseas POD.</p> <p>B - Always Z US/DoD is responsible for transportation from an overseas POE to a CONUS destination, return to a CONUS POE, and port handling.</p> <p>C - Always Z US/DoD is responsible for CONUS port unloading, transportation to a CONUS destination, return to a CONUS POE, and port loading of a country's carrier.</p> <p>D - US/DoD is responsible for CONUS port unloading of country carrier, transportation to a CONUS destination, and return to overseas POD.</p> <p>E - Customer has total responsibility for transportation.</p> <p>F - US/DoD has total responsibility for transportation.</p> <p>G - US/DoD is responsible for all transportation except overseas inland transportation.</p> <p>H - US/DoD is responsible for transportation from a CONUS activity to a CONUS POE.</p> <p>I -US/DoD is responsible for transportation from a CONUS activity to an overseas destination.</p>
<p>Discrepancy Code</p>	<p>The following codes are used to provide a description of the discrepant condition. Multiple codes may be used on a single report. Preprinted codes on the face of the SF 364 may be supplemented from this list of codes. See DLA I 4140.55 for complete listing.</p> <p>C1 In a condition other than shown on supply document or on the supporting inspection/test certificate.</p> <p>C2 Expired shelf life.</p> <p>D1 Supply documentation not received with material.</p> <p>D2 Supply documentation illegible or mutilated.</p> <p>M1 Material improperly addressed and shipped to wrong activity.</p> <p>O1 Quantity received is more than quantity shown on the supply document.</p> <p>O2 Quantity received is more than quantity requested plus variance, if applicable (other than unit of issue or unit of pack).</p> <p>O3 Quantity duplicates shipment.</p> <p>P1 Improper preservation.</p> <p>P2 Improper packing.</p> <p>P3 Improper markings.</p> <p>P4 Improper unitization (includes palletization and containerization).</p> <p>Q1 Product quality deficiency.</p> <p>Q2 Quality deficiency, contractual noncompliance.</p> <p>Q3 Design deficiency item requires change in design.</p> <p>S1-Quantity received is less than quantity indicated on supply documentation.</p> <p>S2 Quantity received is less than quantity requested minus variance, if applicable than unit of issue or unit of pack)</p> <p>W1 Incorrect item received.</p> <p>W2 Unacceptable substitute received.</p> <p>W3 Incorrect item received, but not identifiable to an NSN or part number.</p>

	<p>Z1 Other discrepancy - see remarks.</p> <p>Z2 Repetitive discrepancy. (Must use in combination with other codes or describe in Remarks. Not applicable to Security Assistance.)</p>
Distribution Code	<p>A code that identifies the ILCO system which will process the input transaction (and receive status from the supply source). Codes: Army/CISIL: B, Navy/MISIL: F, Air Force/SAMIS: N.</p>

Document Identifier	The first three positions of a requisition record that uniquely identifies the type of requisition record. Some common identifiers are: A01 – Requisition for overseas shipment/with NSN/NATO stock number. A02 - Requisition for overseas shipment/with part number. A04 – Requisition for overseas shipment/with other identifying data (such as publications). A05 - Requisition for overseas shipment/with exception data. \ Use when item has a part number and additional technical order information is needed to identify the item A0A - Requisition for domestic shipment/with NSN/NATO stock number (USA, Canada and Mexico only). A0B - Requisition for domestic shipment/with part number (USA, Canada and Mexico only). AE1 - Supply Status To requisitioner (RP 30-35). AE2 - Supply Status To requisitioner (RP 30-35) with status code BW or N8. AEA - Supply Status for service/country prepared FMS and grant aid requisitions/with NSN/NATO stock number. AS1 - Shipment Status To requisitioner (RP 30-35). AS2 - Shipment Status To supplementary address (RP 45-50). BLA - Contract Deliverable Advisement Acknowledgement of Navy contracts processed through MISIL. BLB - Contract Deliverable Supply Status Supply status on Navy contracts processed through MISIL. BLC - Contract Deliverable Shipment Status Shipment status on Navy contracts processed through MISIL. BMB - Publications Requisition for Army Publications ordered through STARR-PC. ZP1, ZT1 - Requisition Same as A01. Used by U.S. Army to identify major items. ZP5, ZT5 - Requisition with exception data. Same as A05. Used by U.S. Army to identify major items with exception data. ZP4, ZT4 - Requisition Used by U.S. Army to requisition ammunition with DODIC/DODAC. ZW5 - Used by USASAC to post billing.
Estimated Accessorial Value	Total of estimated administrative costs, estimated other costs, estimated packaging, crating, and handling costs, and estimated Supply Support Arrangement charge for a case. Value is computed when required on an output report or product.
Estimated Closure Date	Estimated closure date for the case
Estimated CAS Value	The amount of Contract Administrative Services charges that has been estimated for the case.
Estimated LSC Value	The estimated value that DFAS adds to an 'NA' performance reporting transaction for logistics support. This value is not recorded in the case general ledger accounts.
Estimated Leadtime	Identifies the estimated time in months which will elapse between the first of the fiscal year in which a requirement is programmed and the date on which the item will be received by the requiring activity.
Extended Price	The original extended price amount is the total value of a material or service requisition at the time of establishment. This element is computed by multiplying the requisition transaction quantity by the unit price of the item ordered. For requisitions that do not contain a national stock number, the original extended value is based upon the requisition's unit price, cognizance symbol, and a default value.
Federal Condition Code	Used when items are available as Excess Defense Articles (EDA). Code reflects the degree of serviceability, condition and completeness in terms of readiness for issue and use. Also when commercial items are programmed in "Dollar Lines" or

	as "Each Items". A two character combination of a Supply Condition Code and a Disposal Condition Code. Supply codes are A, Serviceable – Issuable without Qualification; B - Serviceable – Issuable with Qualification; C- Serviceable –Priority Issue; D –Serviceable –Test/Modification; E- Unserviceable – Limited Restoration; F - Unserviceable –Reparable; G Unserviceable –Incomplete; H Unserviceable – Condemned; s Unserviceable –Scrap. Disposal Codes are: 1 - Unused (Good); 4 - Used (Good); 7 – Repairs Required; X – Salvage; S- Scrap. Federal Supply Codes are A1, A4, B1, B4, C1, C4, D1, D4, D7, E7, F7, G7, H7, and HX.
Follow-up Trigger Date	The date that a follow-up will be generated to the source of supply if additional status is not received on a supply action. The additive used in determining this date may be based upon the estimated availability date, priority, and the latest status of supply. When this date is reached with no change in status of the supply action, then a follow-up will be generated in order to obtain more current status.
FMF Collections	Funds deposited into the FMS Trust Fund at DFAS which are applicable to the Military Assistance Program (MAP) and/or the FMS Credit program.
Fund Code	Denotes the billing activity and accounting classification. The billing activity code is the first position and the appropriation code is the second position. This 2-digit code is provided for the specific use of the requisitioner to indicate the funds to be charged. Some common codes. Air Force: 4E – Reimbursable; 4F – Direct Cite; NU – Programmed CLSSA support; 3L – Interfund or reimbursable Air Force.; 4U - NGA Direct Cite; 4X – PROS., Army: BM, MS - DFAS, Rome, IT GU - DFAS OPLOC St. Louis for CECOM HB, LL, LU - DFAS OPLOC St. Louis for AMCOM KU - DFAS OPLOC St. Louis for TACOM MI, MM, MU - DFAS OPLOC St. Louis YT, YY - DFAS Norfolk, VA YE, YF, YP = US Department of Agriculture, New Orleans GE = FMS Navy –Not used
Generic Code	A three-position code assigned in the Military Articles and Services List (MASL) to classify military assistance program articles and services according to the budget activity/project account classification and to aggregate articles and services into generic groupings for management purposes.
Implementing Agency ID	The Department of Defense Component responsible for the execution of programs under the Arms Export Control Act (AECA) or FAA of 1961, as amended. Codes: B-Army, C-Defense Information Systems Agency (DISA) D-Air Force E-U.S. Army Corps of Engineers (COE) F-Defense Contract Management Agency (DCMA) K-Marine Corps L-U.S. Defense Audio Visual Agency (DAVA) (Transactions prior to 1 Oct. 85) M-Army (Other) P-Navy Q-Defense Security Cooperation Agency (DSCA) R-Defense Logistics Agency (DLA) S-Office of the Secretary of Defense (DLA) T-Security Assistance Training Field Activity(SAFTA)/Training U-National Geospatial-Intelligence Agency (NGA) V-Defense Contract Audit Agency (DCAA) W-Defense Advanced Research Projects Agency (DARPA) X-Defense Finance and Accounting Service-Denver Center (DFAS-DE) Z-Defense Threat Reduction Agency (DTRA)

Interest Bearing Account Balance	Memo entry subset of the Cash Collections value, identifying how much of that amount (if any) is deposited in an Interest Bearing Account.
Interfund Bill Number	Applies to Army and Air Force only. A number that is assigned by the billing activity as a control number for Interfund bills.
Last Implemented Amendment	This is the case version and amendment number of the latest implemented version of the case
Last Implemented Document	This is the current case version, amendment OR modification number of the latest implemented version of the case.
Last Implemented Modification	This is the case version and modification number of the latest implemented version of the case
Line Item	Identifies a detailed line item on an LOA
LOR Receipt Date	The date the LOR was received, or if additional information or clarification is required, the date it was received from the customer.
Managing RIC	Routing Identifier Code (RIC) of the source of supply or organization responsible item management
MASL Number	A 14 position alpha/numeric field consisting of the Federal Supply Classification (FSC) and the National Item Identification Number (NIIN) and sometimes referred to as the National Stock Number (NSN)..
Mode of Shipment	<p>One digit alphabetic or numeric character which identifies the initial method of movement by the shipper. See DoD 4500.9-R, Defense Transportation Regulation, Part II, Cargo Movement. Code/Description</p> <p>A - Motor, truckload B - Motor, less truckload C - Van (unpacked, uncrated personal or government property) D - Drive-away/truck-away/tow-away E - Bus F - Air Mobility Command (AMC) Channel and Special Assignment Airlift Mission (SAAM) G - Surface parcel post H - Air parcel post I - Government trucks, for shipment outside local delivery area J - Air-small package carrier K - Rail, carload (Note 1) L - Reserved M - Surface-Freight forwarder O - Organic military air (including aircraft of foreign governments) P - Through Government Bill of Lading (TGBL) Q - Commercial air freight including regular and expedited service (provided by major airlines) air charter, and air taxi S - Scheduled Truck Service (applies to contract carriage, Federal Acquisition Regulation based contracts routings and/or scheduled service) T - Air freight forwarder V - SEAVAN W - Water, river, lake, coastal (commercial) X - Bearer, walk-through (customer pickup of material) Y - Military intratheater airlift service (other than AMC airlift) Z - Military Sealift Command (MSC); controlled contract, or arranged</p> <p>2 - Government watercraft, barge, or lighter 3 - Roll on/roll off (RORO) service 4 - Defense Courier Service 5 - Surface--Small package carrier 6 - Military Official Mail (MOM) 7 - Express mail.</p>

Navy Accounting System	Applies to Navy only. Identifies whether the Navy-managed case was implemented in the Management Information System for International Logistics (MISIL) or the Standard Accounting and Reporting System (STARS)
Net Case Value	The sum of all above-the-line costs for this case. Does not include below-the-line costs administered by DFAS-IN.
NSN/Part/Reference Number	A number assigned under the Federal Cataloging Program to each approved United States Federal Item Identification. It consists of the four-digit Federal Supply Classification (FSC) and the nine-digit assigned National Item Identification Number (NIIN) followed by the four-digit DOD Ammunition Code if needed. This item is part of the description column of an LOA and positions eight through twenty-two of the MILSTRIP requisition.
NSN/Part/Reference Number Received	Identifies the material/services received by the customer
NSN/Part/Reference Number Requisitioned	Identifies the material/services requisitioned by the customer
Offer Expiration Date	The date on which the FMS offer to sell defense articles and/or services to the foreign customer lapses. This date appears on the letter of offer and on amendments to the letter of offer. It is generally 85 days from the date the offer is forwarded to the DSCA countersignature..
Offer/Release Code	Identifies the conditions under which the shipment of the material will be released to the purchasing country. Codes: A - Freight and Parcel Post shipments will be released automatically by the shipping activity without advance notice, Y- Advance notice is required before release of shipment, but the shipment can be released automatically if release instructions are not received by the shipping activity within fifteen calendar days. Parcel Post shipments will be automatically released. Z-Advance notice is required before release of shipment. Shipping activity will follow-up on the Notice of Availability until release instructions are furnished. Parcel Post shipments will be automatically released. blank-Indicates that the first offer release code does not apply to the line or that it has not yet been approved. X-U.S. Service and country representative have agreed that the U.S. Service will sponsor the shipment to a country address and shipments are to be made to an assembly point or staging area.
Part Number Requisitioned	Material/service being provided by a supply action
Priority	Designates the equated combination of Force Activity Designator and Urgency of Need
Processing RIC	Routing Identifier Code (RIC) of the actual shipping activity which recvd the material release order
Progression Code	Identifies the current status of Supply Discrepancy Report For ARMY: A-Date of preparation by customer, B-Date entered into the computer at USASAC, C-Date SDR sent to supply source, D-Date SDR sent to shipping depot for proof of shipment, E-Date returned to USASAC by the supply source or date forwarded to USASAC's product assurance for evaluation, F-Date returned by supply source with debit/credit authorized, G-Date USASAC forwards request for additional information to country per supply source's request, I-Date USASAC receives additional information from the country or the shipping depot and forwards the information to the supply source,

J-Date supply source responds to additional information with their proposed settlement of SDR (other than disposition instructions),
 K-Date Disposition instructions received from supply source,
 L-Date USASAC forwards disposition instructions to country. Country has 180 days to respond,
 N-Date USASAC receives evidence that country is returning material and forwards to supply source,
 O-Date SDR held at USASAC for a policy decision from a higher authority or package prepared for SDR review board,
 P-Date supply source authorized billing adjustment and sends request for billing adjustment to the comptroller,
 Q-Date irresolvable SDR sent to DFAS-NC for processing of approved credit,
 R-Date SDR valued less than \$300 sent to DFAS-NC for processing,
 X-Date DFAS-DE "FK" record processed ,
 Y-Date completion notice forwarded by USASAC to country. Country has 90 days to request reconsideration response, they have an additional 90 days to contest the SDR,
 Z-Records are automatically moved to date Z after two years at date Y. Records residing at date Z will be deleted from designated reports/products.
 For NAVY:
 BA-Credit granted by U.S. Supply System,
 BB-Credit granted by ILCO,
 BC-SDR completed - NZ issued to DFAS-DE,
 BD-Evidence of shipment provided (non-parcel post),
 BE-Proof of delivery was provided (parcel post),
 BF-Rejected based on time frame,
 BG-Rejected based on dollar limitation,
 BH-Rejected, no billing discrepancy exists,
 BJ-Rejected, services or work request,
 BK-Misdirected shipment, disposition instructions provided,
 BL-No financial adjustment made, disposition instructions provided,
 BM-Item received is an acceptable substitute,
 BN-Debit action taken,
 BP-DD364 does not contain required information,
 BQ-Cancelled per customer request,
 BR-Material supplied from procurement,
 BT-Material shipped/received as ordered,
 BW-Rejected; turn in not received,
 BX-Research reveals no discrepancy,
 CA-Missing or unprocessable document number: cannot be corrected,
 CB-SDR being processed under replacement number; this SDR deleted,
 CC-Unacceptable multiple SDR submission,
 CD-Extended value of SDR record greater than requisition,
 CE-Billing only; SDR cancelled. Research response, no adjustment required,
 CF-SDR rejected; cannot be identified to a detail level requisition, CG-Shipment data missing with discrepancy code S3-S4, CH-Shipment data missing; not discrepancy to a detail level requisition
 CG-Shipment data missing with discrepancy code S3-S4,
 CH-Shipment data missing; not discrepancy code S3-S4
 CI-Cancelled by ILCO due to establishment error progression code,
 NS-Contested SDR awaiting further action,
 NT-ILCO action required; all other ILCO action;
 NU-SDR identified to a Major Item Line (RSN) (single selling price),
 RC-System debit/credit processed by Interfund Processing application,

Progression Date	The date that a progression code is entered against a Supply Discrepancy Report. Progression Date is not displayed in SCIP
Programmed Case Value	Combined value of Commitments, Obligations, Expenditures and other above-the-line costs (such as CAS, LSC, and nonrecurring costs, etc) incurred to date, as reported by the IAs to the DSAMS system
Project Code	A code for identifying requisitions, related documents, and shipments of materiel for specific projects, programs, or maneuvers. Identifies specific programs to provide for funding and costing at requisitioner or supplier level to satisfy program costs and analysis, including and indication of transactions within or outside of the Federal Government.
Quantity	For requisitions, the quantity of the item as requested upon initial submission of a requisition. On MILSTRIP requisitions, the quantity requested is in positions 25-29. For Case Lines, the number of items associated with the Case Line.
Quantity Billed	Quantity reported as having been billed to the customer and entered in Block 9C on the SF 364
Quantity Discrepant	Quantity having been reported as being received in a discrepant condition in block 10A on the SF 364
Quantity Received	Quantity reported as having been received by the customer and entered in Block 9D on the SF 364
Quantity Shipped	Quantity reported as having been shipped by the USG and entered in Block 9C on the SF 364
Related Cases	"Y" (Yes) indicates that other case records related to this case record. "N" indicates that there are no other related cases.
Required Availability/Delivery Date	This field is used to indicate approximate dates or time periods until the materiel is available, shipped or delivered to the requisitioner.
Requisition Document Number	A non-duplicative number (except for Contract Accounting requisition numbers) constructed so as to identify the Military Service, the Requisitioner, the Julian data of the document and a serial number.
Requisition Document Number Suffix	Single character code which trails document number on supply status and billing transactions. Used to identify separate shipments on a single requisition. The following characters may be used as suffix codes: A-H, J-M, Q, T, V, W, 2-9.
Routing Identifier	Code which identifies the organization to or from which transactions are received or sent. These are only a sample of available RICs: AKZ - U.S. Army Tank, Automotive and Armaments Command (TACOMW), Warren, MI BY7 - U.S. Army Security Assistance Command (USASAC), New Cumberland, PA. SDR Number Suffix	Identifies if the SDR has been submitted for reconsideration or contested
SDR Retired Date	Date the SDR was closed
SDR Status	Current status of the SDR. Codes: O-Open C-Closed
SDR Supply Source Control Number	Applies to Army only. Used to record a control number assigned to an SDR by a supply source activity. For example, DLA assigns a control number to SDRs entered into their customer depot complaint system and the Army Electronic Product Support (AEPS) system assigns an SDR number to each record for the Army Life Cycle Support Commands (LCSC) internal use.
SDR Value	The amount credited to an FMS customer based upon a Supply Discrepancy Report.
Security Classification	C for classified; R for restricted; U for Unclassified.
Shipped Date	Date on which the shipping activity releases shipment to a common carrier
Shipped Expended Requisition Count	The total number of requisitions that have been 1) shipped, AND 2) have had charges processed against them.

Shipped Expended Requisition Value	The total value of requisitions that have been 1) shipped, AND 2) have had charges processed against them.
Shipped Partial-Billed Requisition Count	Applies to Navy only. The total number of requisitions that have been 1) shipped, AND 2) partially billed.
Shipped Partial-Billed Requisition Value	Applies to Navy only. The total value of requisitions that have been 1) shipped, AND 2) partially billed. (Note: The value depicted here is the total requisition value, NOT the value of the partial charges.)
Shipped Unbilled Requisition Count	The total number of requisitions that have been 1) shipped, BUT 2) charges have not yet been received or processed against the requisition.
Shipped Unbilled Requisition Value	The total value of requisitions that have been 1) shipped, BUT 2) have not yet been received or processed against the requisition.
Signal Code	For FMS, Signal Code "L" signifies that the material will be shipped to the Supplementary Address (positions 45-50) and the bills will be sent to the activity designated by the Fund Code (positions 52-53).
Signature Date	Date US Representative or his Authorized Designee signed the Letter of Offer. Indicates date formal offer is made to a foreign buyer. Case status code must be "O".
SME/MDE Code	A code required on the LOA & MASL to provide the level of detail needed to separately identify Major Defense Equipment, i.e., "S" = Significant Military Equipment item. See ITAR. "Y" = Major Defense Equipment item. "N" = Non-MDE item.
Source of Supply	The code used to identify the source from which the supply of a defense article or defense service is anticipated. Codes: E-Excess, P-Procurement, R-Repair/Rebuild, S-Service stock, X-Mixed or undefined, blank-Indicates that the source of supply has not yet been assigned or approved.
State Approval	Indicates whether or not the case version has been approved by the Department of State
State Approval Date	The date the case version was been approved by the Department of State
Stock Number	A control number for item identification. This will be a national stock number, kit number, manufacturer's code or part number.
Supplementary Address	For FMS requisitions the supplementary address consists of four elements of information. They are the purchaser's service code, offer release code, freight forwarder code and the FMS case designator. This code is used to determine the destination of where the item is to be shipped.
Term of Sale	One-position code that uniquely identifies the conditions of a sale. Codes: A - Cash with Acceptance, B - Cash Prior to Delivery, C - Dependable Undertaking, D - Payment on Delivery, H - Payment 120 Days after Delivery, K - Cash with Acceptance/Balance as Billed, M - MAP Merger, N - FMS Credit (Non-Repayable), Z - FMS Credit, Q - EDA Grant
Term of Sale Value	The dollar amount that applies to the associated term of sale. If a Term of Sale is "FMS Credit", "FMS Credit Non-repayable" or "MAP Merger", and there is more than one Term of Sale; then this field must be entered for each Term of Sale.
Total Case Value	Value of the above-the-line and below-the-line costs for all the lines related to the case.

Total Requisition Count	The total number of requisitions for the case. For Army, the total includes Administratively Closed and cancelled requisitions, but not Pseudo requisitions. Administratively Closed requisitions, however, are NOT included in the breakdown of counts. For Navy, the total does not include cancelled requisitions. For Air Force, the total includes cancelled requisitions, but not Custom Commitments. Custom Commitments are also NOT included in the breakdown of the counts.
Total Requisition Value	The total value of requisitions for the case. For Army, the total includes Administratively Closed requisitions, but these values are NOT included in the breakdown of values. Pseudo requisitions are not included, and there are no values on cancelled requisitions. For Navy, the total does not include cancelled requisitions. For Air Force, the total includes cancelled requisitions, but not Custom Commitments. Custom Commitments are also NOT included in the breakdown of values.
Transportation Control Number	A number assigned to control a shipment/consolidated shipment unit within the Defense Transportation System (DTS). Tracks from the Source of Supply (SOS) to the Customer.
Transportation Value	A PLANNED below-the-line estimate of costs established to cover transporting material to the international customer. Actual Transportation costs are applied by DFAS-IN , based upon delivery reporting transactions from the IAs .
Type of Assistance	A code which describes the type of financing for an FMS case as on the LOA. For FMS requisitions, this code is used as position 6 of the requisition document number. Codes: 1-SDAF, 3-Sale of DoD inventory or services. Cash to be deposited by the customer in advance of delivery or performance. 4-Source of supply not predetermined. Cash to be deposited by customer in advance of delivery or performance. 5-Cash sale from procurement. Cash to be deposited by customer in advance to meet contract payment requirements. 6-Sale of DoD inventory or service. Payment due from customer upon delivery. Requires a written statutory determination by the director, DSCA. Reimbursement to DoD components is made after customer payment is received. 7-Cash sale from procurement. Payment from customer due 120 days after delivery. Payment to contractor financed by special emergency appropriation. 8-Sale of DoD inventory or service. Payment from customer 120 days after delivery. Payments to DoD components financed by special emergency appropriation. M-MAP Merger. N-FMS Credit (non-repayable). U-Cooperative Logistics Supply Support Arrangement (CLSSA) FMSO I - Customer purchase of equity in DoD inventory cash to be deposited by customer in advance of inventory augmentation. V-Cooperative Logistics Supply Support Arrangement (CLSSA) FMSO II- Shipment of customer equity with automatic replenishment action to maintain dollar equity in inventory. Cash to be deposited by customer in advance of equity drawdown. Z-Source of supply not predetermined. Cash to be deposited by credit appropriation or lending institution in advance of delivery of inventory, performance of DoD services, or payment to contractors. A-FAA Defense Articles - Non Reimbursable
Unit of Issue	For requisitions, a unit of measurement used when requisitioning or issuing material. It also represents a determinate amount or quantity (eg., for "dozen", 'dz' identifies that the quantity is in units of twelve). For Case Lines, the unique identifier of the issue unit.
Unit Price	Item price listed in dollars and cents per unit

Unprogrammed Case Value	The Unprogrammed Case Value Amount equals the Net Case Value (i.e. above-the-line planned costs) minus the Programmed Case Value Amount (i.e. the Combined value of Commitments. Obligations, Expenditures and other above-the-line costs (such as CAS, LSC, and royalty fee costs) incurred to date, as reported by the IAs to the DSAMS system)
Unshipped Requisition Count	The total number of requisitions that are not yet shipped (i.e. requisitions are NOT logistically complete).
Unshipped Requisition Value	The total value of requisitions that are not yet shipped (i.e. the requisitions are NOT logistically complete).
Wrong Item RIC	Applies to Army and Navy only. Routing Identifier Code (RIC) for the supply source responsible for the management of the wrong materiel received.
Wrong Item Value	Applies to Army only. Total dollar value of the wrong materiel received.

Using the Ad-Hoc Query

Complete listing of the data in the popup window.

The Adhoc Query gadget allows you to query the SCIP database to return data that meets specific requirements.

1. Select the type of adhoc report desired, options may include Case-Level, Line-Level, Active Requisitions, SDR or Payment Schedule. Press **Continue**.
2. From the Adhoc wizard, in the **Available Fields** column, highlight the fields that you wish to display in the report and move them to the **Selected Fields** column.
3. When you are finished selecting fields, click **Summary Report** or **Detailed Report** depending on the type of report you wish to view.
4. From the **Create Criteria** page, specify the requirements that must be met to satisfy your search.
5. Select the **Add Filter Criteria** button. In the first drop-down list, select the searchable Property whose values you want to filter.
6. In the second drop-down list, select the operator to apply to this condition. This list will vary depending on the Property selected.
7. If a text box is presented, enter the value the Property must have, or not have, depending on which operator you select. Select [this link](#) for tips on writing search strings.
8. When adding requirements, choose **AND** to designate that the data must meet both that requirement and the previous one or choose **OR** to designate that the data must meet either requirement.
9. To add a requirement, click **Add Filter Criteria**, and then repeat steps 2 through 4 to specify the requirement. To delete the last requirement in the list, click **Remove Last**.

WRITING SEARCH STRINGS

In general, you can type the text that you are looking for. however, there are a few things to consider.

There are two special operators that you can specify when adding multiple requirements:

AND	The criteria for the requirements above and below must be met.
OR	Either criteria for the requirements above and below must be met.

An important key to creating a query is understanding how the **OR** and **AND** operators work. The **AND** operator has precedence over the **OR** operator. For example, if you wanted all Germany cases with cases statuses of *I - Implemented* and *SSC - Implemented*, then you might try to construct the query like this:

The screenshot shows a query builder interface with two columns of criteria. The left column contains:

- Country Code
- AND Case Status Code
- OR Case Status Code

 The right column contains:

- Is GY - Federal Republic of Germany
- Is I - Implemented
- Is SSC - Implemented - SSC

Picture 1: Incorrect Query

The problem with this query, is that the results will return Germany cases that are I, but also return *all* SSC cases, regardless of the country. Another wrong way to create the query would be as follows:

Picture 2: Incorrect Query

The problem with this query, is that the results will return Germany cases that are SSC, but also return *all* I cases, regardless of the country. This is because the **AND** operator takes precedence, or groups together the *Case Status = I AND Country = Germany* statements. The *Case Status = SSC* statement is then **ORed** with the complete **ANDed** statement. If you used parenthesis, it would look like this: *(Case Status = I AND Country = Germany) OR Case Status = SSC*. This query will probably result in incorrect results.

The correct statement is to create a query like this:

This query is grouped together around the **ANDs** and then the complete **ANDs** are **ORed** together. The complete statement will look like this *(Country = Germany AND Case Status = I) OR (Country = Germany AND Case Status = SSC)*.

ATTACHMENT 3 Using SCIP Reports

Complete listing of the data in the popup window.

REPORT	DESCRIPTION	LOCATION
CASE STATUS SUMMARY	The Case Status Summary portlet displays the number of cases and the dollar amount of cases with the following status (development, proposed, offered, accepted, implemented, closed-final, cancelled, closed-interim, implemented-ssc). To view more information about a country, highlight the country and click " View Country Detail ". This will enable a setting that will enable the portlets on the Case Status page to display information about the selected country.	Located on the left-hand side of the Case Status page.
CASE STATUS By STATUS	The Case Status by Status portlet displays top level case information grouped by status category. To view more case detail, highlight a case in the case list box and select a view from the dropdown list. Next click " View Report ". A new window will popup with the designated information.	Located on the right-hand side of the Case Status page.
CASE STATUS By IMPLEMENTING AGENCY	The Case Status by Implementing Agency portlet displays the total case value and total number of cases for each country that the SCIP user has access to. Highlight a case in the case list box and select a view from the dropdown list then click "View Report". A new window will popup with the designated information.	Located on the right-hand side of the Case Status page.
CASE STATUS By CUSTOMER SERVICE	The Case Status by Customer Service portlet displays the total case value and total number of cases for each country that the SCIP user has access to. Highlight a case in the case list box and select a view from the dropdown list then click "View Report". A new window will popup with the designated information.	Located on the right-hand side of the Case Status page.
CASE STATUS DETAIL	Case Status Detail is a report view that displays detailed information on a selected case.	Available from Case Status and Case Search portlets via a dropdown box.
CASE LINE DETAIL	Case Line Detail is a report view that displays detailed case line information on a selected case.	Available from Case Status and Case Search portlets via a dropdown box.
SDR DETAIL	SDR Detail is a report view that displays detailed SDR information on a selected case.	Available from the dropdown box on the Case Status and Case Search portlets. Selecting "SDR Detail" will display a list of SDRs by SDR Number, Transportation Control Number and Unit Price. Highlight the desired SDR and click " View Report " to view the SDR report.

ACTIVE REQUISITIONS	Active Requisition Detail is a report view that displays detailed Active Requisition information on a selected case.	Available from the dropdown box on the Case Status and Case Search portlets. Selecting "Active Requisitions" will display a list of Active Requisitions by Requisition Document Number, Transportation Control Number and Unit Price. Highlight the desired Active Requisition and click "View Report" to view the Active Requisition report.
ADHOC REPORTS	The Adhoc reports allow the user to create a customized query, which results in a report that can be exported to MS Excel. For more information on creating Adhoc queries, visit the Adhoc Query Help page.	Located on the ADHOC REPORTS page. Select one of the available reports from the Adhoc selection box.

SCIP Input – Uploading Batch MILSTRIP Files in SCIP

1. First, create MILSTRIP .txt file for uploading.
2. Convention is to use Courier New font, 10 pitch size.
3. Use the 80 record positions (rp) MILSTRIP format, including all spaces. Putting in the spaces is critical.
4. Your first entry for each line would be the Document Identifier Code (DIC)
5. The sample below has headers for training purposes. The .txt file must contain only the MILSTRIP data). In this example all the DICs are AO1. You can use any valid DIC and they can be mixed in one .txt file
