
Announcing the 16th Annual Naval International Aviation Logistics Workshop

By

Ron Weinberger

Naval International Aviation Logistics Workshop

The 16th Annual Naval International Aviation Logistics Workshop will be held in Tucson, Arizona 14-18 April 2008. The theme of the Workshop will be “Real Time Operational Logistics Support”. We have scheduled additional foreign military sales (FMS) partner presentations on specific platforms as well as aviation and operational logistics briefings on Iraq and U.S. Customs and Border Protection. We also added separate logistics working session “tracks” this year that we believe will be informative and encourage working sessions. These tracks include Repair of Repairables (RoR), Supply Support Equipment, Technical Data, and Training. Invited guest speakers for the 2008 LPIT Workshop include representatives from the Department of Homeland Security, Defense Security Cooperation Agency, Navy IPO, NAVICP, NAVAIR Program Managers, and international representatives from the Foreign Procurement Group, the International Customer User Group, Security Assistance Foreign Representatives, and North Island Foreign Liaison Officers. It should be noted that we are attempting to keep the participants attendance cost low to encourage maximum participation. There are no conference fees, and the meeting location sites are selected based on the available government low per diem rates. To save transportation costs, we have scheduled this year’s LPIT the week prior to the Joint Aging Aircraft Conference (21-24 April 2008) since it will be held within driving distance in Phoenix, Arizona.

Please check out the Joint Aging Aircraft Conference web site at: <http://www.agingaircraft2008.com>. We look forward to seeing everyone in Tucson in 2008. An abbreviated draft agenda is provided on the next page.
