# Fiscal Year 2000 Security Assistance Funding Allocations

By

**Kenneth W. Martin**  
**Defense Institute of Security Assistance Management**

## Introduction

The last *DISAM Journal*, Winter 1999-2000 edition, provided an extensive description and analysis of the security assistance-related legislation enacted for FY2000. Funding for the fiscal year was appropriated by the *Foreign Operations, Export Financing, and Related Appropriations Act, 2000*, and enacted as a part of *The Consolidated Appropriations Act, FY2000*, P.L. 106-113, 29 November 1999. However, the allocation of funding for specific countries or programs was not published by the Department of State until mid-March 2000. The allocation process was especially difficult this year in that a 0.38 percent across-the-board budget rescission was also mandated by this same legislation. As the reader proceeds, it will be noted that no security assistance program escaped this seemingly small cut. The funding supplement of \$1,825M for the Wye River Accord for peace in the Middle East was earmarked in the legislation and not affected by the rescission. Disregarding the Wye supplement, the remaining security assistance funding total of \$5,988.1M was reduced by \$29.691M or .4958 percent with the Economic Support Fund (ESF) experiencing the bulk of the rescission at \$22.913M or .9688 percent.

## FY2000 Security Assistance Funding

Table 1 is an overall presentation of the entire funded security assistance program for FY2000. Also displayed in the table for comparison are the program funding levels for FY1999, the administration's requested FY2000 funding levels, and the proposals from both the Senate and the House of Representatives prior to the conference held to iron out the differences. It must be noted that the budget proposed by the *FY2000 Congressional Presentation for Foreign Operations*, published during early calendar year 1999, and both house proposals did not include the Wye River supplemental funding while the resulting final bill enacted as P.L. 106-113 did include the supplemental. The final figures in the right hand column include the Wye supplemental and do not reflect the rescissions.

[1] The budget proposal figures are from the FY2000 *Congressional Presentation for Foreign Operations*. These proposal figures do not include the Administration's request for supplemental FMFP and ESF funding associated with the implementation of the Wye River Accord which was not included in the initial *Congressional Presentation*.

[2] FMFP for FY1999 provided \$20M in loan subsidy funding to support a maximum of \$167M in direct loans issued at current average treasury rates of interest. These loans were restricted to Poland, Hungary, and the Czech Republic. However, no loans were provided and the appropriated subsidy funding was allocated among the three countries as grant funding. No loan authorities were requested or provided for FY2000.

[3] Includes FMFP funding for both the annual FMFP of \$3,420M and the Wye River supplemental of \$1,375M. Of the latter amount, \$400M shall be available for obligation on 30 September 2000.

[4] Includes ESF funding for both the annual ESF of \$2,365.1M and the Wye River supplement of \$450M. Of the latter amount, \$100M shall be available for obligation on 30 September 2000.

**Foreign Military Financing Program (FMFP)**

Table 2 provides the FY2000 FMFP funding allocated by country or program displayed by region. The Wye River supplemental totals \$1,375M or 28.68 percent of the entire amount of the FMFP for FY2000. Disregarding the supplemental, the FMFP appropriation for FY2000 is \$3,420M for an increase of \$19.85M over the amount for FY1999. Also disregarding the supplemental, the FMFP program experienced a rescission of \$6.006M or .1756 percent of the total with \$3,413.994 finally remaining for final allocation.

Table 3 provides the FY2000 funding allocations for IMET, again, by region, country, and program. The Wye River supplemental did not affect the IMET program. While the appropriation of \$50M for FY2000 is identical to FY1999 funding, this year's requirement for a rescission is of effect. A total of \$190,000 was marked for rescission. This matched the mandated .38 percent figure. In effect, the total IMET funding for FY2000 allocation is \$49.81M.

Table 4 provides the FY2000 allocations for the ESF appropriations. The Wye River supplemental accounts for \$450M or 15.99 percent of the total ESF account for this fiscal year. Disregarding the supplemental, the total ESF for FY2000 is \$2,365.1M or \$229.231M less than the amount of \$2,594.331M for FY1999 amounting to a 8.84 percent reduction. This year's amount is also reduced by an additional \$22.913M or .9688 percent to meet the rescission mandate. Like the FMFP funding, the Wye River supplemental funding is not affected by the rescission.

**Peacekeeping Operations (PKO)**

Table 5 presents the FY2000 funding allocations for international PKO authorized by Section 551, FAA. The FY2000 PKO appropriation of \$153M is exactly twice the FY1999 amount of \$76.5M. While not affected by the Wye River supplemental, the FY2000 total is reduced by a rescission of \$582,000 or .3829 percent to a final figure of \$152.418M.

**Rescission**

Finally, Table 6 recaps all four appropriated programs, disregarding the Wye supplemental funding for FMFP and ESF, but to reflect the mandated .38 percent rescission. The IMET and PKO programs are reduced to essentially match the directed overall .38 percent rescission. The FMFP rescission of .1756 percent is below the directed mandate while the ESF program rescission is nearly one percent well over twice as large as the directed mandate. Overall, the entire FY2000 security assistance program experienced a total rescission of .4958 percent for a reduction of \$29.691M in funding with a total of \$5,958.409M remaining to be allocated to country and regional programs.

<b>TOTAL</b>	<b>\$5,988.100</b>	<b>\$29.691</b>	<b>.4958</b>	<b>\$5,958.409</b>

[1] Does not include the Wye River funding supplemental of \$1,375M for FMFP and \$450M for ESF.

### **Conclusion**

Because of the Wye River Accord supplemental funding of \$1,825M within the FMFP and ESF programs, FY2000 security assistance funding of \$7,813.1M is well over the funding level of \$6,120.981M for FY1999. However, disregarding this supplemental, the initial FY2000 appropriations are an overall \$5,988.1M or \$132.881M less than FY1999. *The Consolidated Appropriations Act*, FY2000, also directed a .38 percent rescission of already appropriated funding. The Wye supplement is not affected by this reduction. The remaining security assistance funding, however, is further reduced by the directed rescission for a total of \$29.691M or .4958 percent. Rescissions for the IMET and PKO programs nearly match the directed .38 percent reduction, while the FMFP program is reduced by a lower .1756 percent figure. The ESF program is reduced by a larger .9688 percentage.
